"Flag No. 5!"

In the meeting room of Division No. #6 of the Brotherhood of Locomotive Engineers at Albany, N. Y., is a simple jet touching and appropriate memento of as brave an engine-driver as ever put hand to throttle. This engineer, Edward Kennar, ran engine 238 on the western division of the New York Cenital Railroad. The Century Magazine tells the story of his heroism.

One April night, as Kennar's train was speeding toward Batavia, the becometive headlight suddenly flashed spon a mass of moving earth and rock on the track. The train was rushing toward a landslide, of which there had not been the slightest warning. The Whistle shricked "Down brakes!" but li was too late. No. 238 plunged luto the heaping debris, and a moment later lay wrecked at the foot of the embankment.

Pinned down by tons of steel, and writhing in the agony of death, was Kennar. Suddenly he seemed to pull together what of life there was left in him. Slightly raising his head, he shricked-it seemed almost in anger-At those who had gathered about to help him if they could:

"Flag No. 5!" With those words on his fips he died. "No. 5" was a west-bound train which usually met Kennar's near this point. The warning which he, forgetting his own agony, had given with his dying breath, recalled No. 5's peril to the train-hands, and hurrying back to the track they were in time to flag it.

A Paince of Salt.

Utah's glittering salt palace, with its midway plaisance and other attractions, opened at Salt Lake City August 21. The Rio Grande Western, the only line running through the Mormon capital, has arranged to give holders of all classes of tickets a day stopover at Salt Lake in order that they may have an opportunity of visiting this wonderful structure, built of salt crystals taken from the brine of the Great Salt Lake itself.

The inauguration of the Rio Grande Western's dining car service, doing away with the necessity of stopping trains at eating stations, leaves nothing to be desired for an ideal trip across the continent; for the equipment and train service are equal, if not superior, to these of any of the transcontinental lines. Furthermore, no line traverses any section of the American continent where there is so much grandeur of scenery. A daylight ride through the heart of the Rockies leaves nothing to be desired.

My skin was muddy, my eyes heavy and I was dizzy much of the time. Doctors prescribed for me without avail; medicine seemed to do me no good. I was at the brink of despair when a friend told me what Dr. Williams' Pink Pills for Pale People had accomplished in a case similar to mine. I bought a box and took them.
