

**Favorably Impressed.**  
E. M. Cox and T. W. Sullivan of Portland, mining men, have turned their attention toward Bohemia and last Friday went into the district. Mr. Cox had been in before but it was Mr. Sullivan's first trip, and one would imagine that he had not formed a very favorable opinion of the district; but in conversation last Monday upon his return Mr. Sullivan remarked that he was agreeably surprised and pleased with the outlook, and that it was not unlikely to demand the attention of capitalists as soon as they find out what the proposition was. Mr. Sullivan showed this idea up with the assertion that it was not a poor man's camp but that it was strictly one necessitating the expenditure of capital in order to bring the handsome returns that surely awaited the investor. Messrs. Cox and Sullivan returned to Portland on Tuesday overland.

**hogging It.**  
Felix Curran is in the hog business this season with a vengeance and his system indicates that he will make a good clean up in that line this fall. He has 125 head of fine hogs and 60 acres of field corn. He has turned his hogs into his stubble fields allowing them to clean up first one field and then another. After the porkers have done justice to the stubble fields he will serve them to a course of barley. Then when his corn is ripe he will corn fatten them and put them on to the market, and thereby net many a big dollar into his jeans.

**So-d Show'ing.**  
W. H. LeRoy was down this week on his ranch on Sharp's Creek. Mr. LeRoy is opening up his ranch as rapidly as possible and this year has sown a fine garden. He raised as fine strawberries this year as can be produced in Oregon. He also shows a couple of oats sowed the 20th day of August and cut September 1, measuring 4 1/2 inches. He also dug four potatoes out of one hill in his garden, the combined weight of which was 14 pounds.

**Will Go to Butte.**  
Fred Herbold, one of the best natured men on earth, and by the way, a football player, who commands the respect and admiration of many of the prominent players in the United States came from Eugene for a drive last Sunday. He is well known here, having spent a portion of last summer in the employ of Mr. J. P. Curran as druggist. He will leave shortly for Butte, Montana, where he will also "play ball" this season. The Nugget acknowledges a pleasant call.

**Travel Resumed.**

**Big Corn.**  
Uncle Joe Garoutte of this city has a reputation of being a first class gardener and certainly his garden does not indicate that he is misrepresented. One important feature in his truck patch is three rows of field corn of about 100 feet each which averages 10 feet in height. The seed was brought from Texas by Uncle Sam Garoutte last year. Mr. Garoutte also has a sunflower growing in his garden nearly 8 feet tall.

**Home Again.**  
Geo. Lea and wife have returned from the Blue river mines where Mr. Lea has been doing assessment work on his claim there. Mr. Lea's claim is known as "Klondike" and he is much pleased with the prospects, the ore averaging \$50 to the ton, and he says selected ore will go \$300 to the ton. The Klondike is on the west side of Gold Hill, and mines the well known Chaney Dale property.

**A Good Thing.**  
A movement is now on foot to secure a fine display of Bohemia district ore, place the same in the hands of one or two responsible parties and authorize them to place the display on exhibition at Portland during the exposition. To Mr. Alf Walker is due much credit for the success of this plan should it materialize, as no doubt it will, and he is now in Bohemia gathering up specimens which, in connection with his own valuable cabinet collection, dazzle the eyes of thousands of people in attendance upon the Portland exposition.

**Well Pleased.**  
John Hull who resides near Divide is well pleased over a yield from a 12 acre oat field this year. The oats were spring sown and went 47 1/2 bushels to the acre machine measure, netting him 470 bushels from the 12 acres. At the present market price of 39 cents per bushel he would realize \$141.00.

**Discovered Gold.**

Cases of kind are particularly sad on account of the impossibility to procure proper attendants, as in this case it was with great difficulty that sufficient help was secured to prepare the body of the little sufferer for his last resting place. The parents have the sympathy of the entire community.
