

Our little rep wagons make the little boys and girls happy because they know they are good ones. Some little girls and boys have used wagons we sold them seven years ago, and are still using them. Now, we would like to sell you one for your little boy or girl, as the case may be. Our prices are very low and the quality very good. Now look at this one at 95c. Cheap, isn't it? Well, yes, I thought you would take it. Thank you, madam. Call again.

Hello! Tom, come in. How are you this morning? Well you say you want some fishing tackle. Right this way. Now here is some of Alcock's silk body flies. These are only 25c a dozen. You can plainly see the quality is good. Yes; will one dozen be enough? Now will you desire anything more? O, Yes, a pole. You don't need to look at this one very long to see the special value—only \$1.50. Take two; all right, Well, good morning. Call again.

Come to us and get good goods at reliable prices. Violins at \$2.00, \$2.50, \$3.50, \$4.00, \$5.00, \$6.00, \$7.50, \$9.00, \$9.50, \$10.00, \$12.00, \$15.00, \$20.00, \$25.00 and up. ## LUMBER IN DEMAND.

Prices Materially Better—Shipping Increasing.

In the fiscal year of 1896 the exports of forestry products, of which lumber was, of course, the chief item, amounting to \$20,000,000. In 1897 this had risen to \$40,000,000, and from present indications the exports will exceed this year \$50,000,000. Lumber dealers everywhere throughout the country report that the demand for all grades of lumber is greater than at any time in the recent years. Yards are running night and day, with two shifts of laborers, loading and unloading. Every sort of a seaworthy vessel that can be hired or bought has been pressed into service by the lumbermen on the great lakes, and ocean shipments of lumber from southern parts are enormous.

Railroad side tracks are run into all the large lumber yards and these are crowded with cars in process of loading, the demand for flat freight cars in the West and South severely taxing the resources of the companies. Some lumbermen, it is reported, are obliged to hold back their orders on account of the present obstacles to prompt shipment.

The big demand for lumber is from the country as well as the city districts, indicating that the farmer is reaping his share of general prosperity, and is again able to build new homes, barns and granaries, to replace fences and bridges and to generally improve his property.

Exclusive of furniture the value of which is an inconsiderable item in American export commerce, the chief shipments of American lumber are to England and Canada and of timber sawed and hewn, to England and Germany. Information has reached Washington that the Canadian lumbermen are urging the propriety of putting a tax on lumber coming from the United States into Canada. American logs and lumber are now admitted free. On the average 30,000,000 feet of logs are cut in Minnesota and Wisconsin every year and are shipped to Winnipeg. The lumbermen of Columbia say that under the Dingley law Canadian lumber is taxed \$2 per thousand feet upon entering the United States and they ask the Dominion parliament to levy a similar duty on American lumber entering Canada. The exports of Canadian lumber to the United States during the fiscal year of 1897-98 amounted to nearly \$10,000,000, including logs and pulp wood. Canada imported American lumber (including logs) last year to the value of about one-quarter as much.

The chief cause, however, of the enlarged American lumber market and of the increased prices for American forestry products does not arise from the extensive trade between this country and Canada, but from the increased local demand for American lumber for building purposes. There has been a great boom in building operations throughout the United States during the first six months of 1899, as compared with the first six months of 1898. The rate of increase is fully 33 per cent. The cities showing a large increase are New York, Cleveland, Kansas, Boston, New Orleans and Toledo, Washington, Milwaukee, Chicago and Minneapolis show a large but a lesser proportion of increase, and the only American cities which to July 1st fell off in the building record of a year were Philadelphia

and Louisville.

It is estimated that \$200,000,000 was expended in building operations in American cities in the first six months of 1899, a considerable item of such expense being for lumber. The wood now shipped from the South Atlantic states—Virginia, North Carolina, South Carolina, and Georgia—supplies many American requirements in building and finds, too, a ready sale abroad.

Among commercial men, it is said generally that, iron excepted, lumber is the best business barometer. Bridges, trestles, cars and houses are built in good times. With the improvement of business there is an immediate demand for lumber and it need be no cause for surprise that the American lumber market is booming.—Sun.

### A WONDERFUL CURE OF DIARRHOEA.

A PROMINENT VIRGINIA EDITOR Had almost Given Up, but Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

READ HIS EDITORIAL.  
From the Times, Hillsdale, Va.  
I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result but noticing the advertisements of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. MOORE. Sold by Benson Drug Co., Cottage Grove, Lyons and Appliance, Drain Druggists.
