GENTS' Overcoats and Furnishing goods.

LADIES' wrappers and furnishings.

PRICES WILL SUIT.

EAKIN & BRISTOW, Cottage Grove, Or.

BOHEMIA NOTES.

A General Write-up of the Camp---Continued From Week to Week.

Beginning at the Champion and taking in a scope of country north by east one will come in contact with some of the best mines in the great Bohemia district. First is the Champion or Hartford Co., owning a group of 13 claims and showing a large amount of as fine free milling ore as is to be found anywhere. There is a large amount of development work of a substantial nature done in this group, it being worked by a succession of tunnels in all about 1500 feet and showing a large amount of ore blocked out and ready for milling. This property is equipped with a first class 10 stamp mill, concentrator and steam power. The ore is conveyed from the mines by a bucket tramway 3400 feet in length and many other modern equipments for the successful operation of a first class mine, there being plenty of timber and water for years to come, and may be termed one of our permanent Bonanzas. This mine has been in successful operation for a number of years and shows no sign of giving out as depth is attained, as all show a good strong ledge of from 3 to 5 feet in width with good walls and almost perpendicular. The ore is free from both walls and the deeper down they go the higher grade the ore, changing from a free milling to a high grade base, showing copper in abundance freely sprinkled with galena, and assays frequently show a goodly per cent of platina or platinum. This property is owned by a Chicago company and represented here by Superintendent Woodruff.

Next in prominence and adjoining the Champion comes the Broadway owned by Griffith & Rees. Here is a well developed group showing strong, well defined leads of true fissure veins. This group has about 500 feet of tunnels and upraises all in from 2 to 6 feet of ore of a high grade free milling character carrying a goodly percentage of sulphurets or iron pyrites of excellent concentrating quality. Messrs Reed & Griffith have recently given a bond on this property to Denver capitalists for \$25,000. This group being finely situated on Grouse mountain is destined to become one of the great producers of the camp. The lower tunnel will tap the ledge at a depth of 1,000 feet affording drainage for years to come, thereby doing away with expensive pumping machinery and is equipped with houses and snow sheds, blacksmith shops and everything pertaining to make a first class property and only awaits capital to put in the proper plant to reduce her thousands of tons of ore to make her a record. Messrs. Reed & Griffith deserve great praise for their untiring energy in developing such a property. We are informed the new company, if they take hold of this group, will immediately put in a proper plant, and as the mine is developed with some 500 feet of tunnels there is no reason why the new company should not make a success and as the lucky owners also own other property the camp will not lose them.

About 800 feet up the mountain is situated the Knott group a fine group of claims that figured prominently in camp some 15 years ago, but owing to the death of the original owner the property fell to heirs who procured a patent. The mill was sold to a new company, and operations suspended on the Knott; but some of the finest specimens of free gold are taken from this mine to be found anywhere. Owing to the condition this mine is in and the high price the owners place on it, in all likelihood this valuable property may lay idle for years to come, but with the completion of the Grouse mountain tunnel new activity will be revived and it is hoped it will again become an active factor in our great camp.

CLIPPINGS.

The Monte Rico Gold Mining Co. was duly organized at Eugene Wednesday and the following officers elected: J. M. Hodson, president; A. C. Woodcock, vice president; H. W. Rowland, secretary; H. R. Kincaid, treasurer; J. M. Hodson, H. R. Kincaid, A. C. Woodcock, H. W. Rowland and F. A. Rankin, directors. The company owns a group of claims on Bohemia mountain, about one-half mile distant from the White Swan mine.

At a meeting held in this city yesterday afternoon, articles of incorporation having been previously filed, the Monte Rico Gold Mining Company was duly organized and the following board of directors chosen: J. M. Hodson, H. R. Kincaid, A. C. Woodcock, H. W. Rowland, F. A. Rankin. The officers were then selected as follows: President, J. M. Hodson; vice-president, A. C. Woodcock; secretary, H. V. Rowland; treasurer, H. R. Kincaid; superintendent and manager, F. A. Rankin. The property of this company consists of a group of claims in the Bohemia mining district, Douglas county, situated on Bohemia mountain, on parallel ledges to those being operated by the Musick Mining Co., and about one-half mile distant from the White Swan property. Two tunnels started on the property show prospects which the incorporators consider very flattering. The company organizes with 500,000 shares of a par value of five cents, all the stock being subscribed. Early next season the company expects to begin active development of the property, and will push the work rapidly, hoping to soon place the property on a revenue-paying basis.—Guard.

Our New Fall Stock!

NEWNESS, BRIGHTNESS AND EXCEPTIONALLY GOOD VALUES.

During the next Thirty Days we will greatly increase our stock, which will be large and well selected.

New goods are constantly arriving, and we are marking them as low as RELIABLE goods can be sold.

All are invited to visit our store. It is no trouble for us to show goods whether you buy or not.

* Save Money by Buying Goods of us! *

Dry Goods Department.
