True Economy

The difference of cost between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cost many times this in doctors' bills.

Royal Baking Powder may cost a little more per can, but it is perfect, wholesome food. In fact, it is more economical in the end, because it prevents further in learning and never spoils the food.

Royal Baking Powder used always in making the biscuit and cake saves both health and money.

You cannot tell value better, afford to use cheap, low-grade, alum baking powders, than to use Royal Baking Powder. It is the only one which will ever endanger the health. All physicians will tell you that alum in food is deleterious.
