FRIDAY, DEC. 22, 1899.

The Salem Journal, edited by Hofer, the blatherskite, broken down, turned down politician, is out with an article casting reflections upon Senator McBride and Congressman Tongue, stating that our next U. S. representatives in congress and senate should be men of principles. The Journal's article will hardly be appreciated by the masses of the intelligent voters of Oregon who have flattered themselves that their ballots were not cast in vain when they elected McBride and Tongue. However the article will hardly cause a ripple of comment, as it originated in the murky brain of as black an apostle of political crookedness as ever filled space in a newspaper. Of all the contemptible, egotistic, demoralized reprobates that have disgraced the republican ranks "Kernel" Hofer is the arch angel. The trouble with the white livered "Kernel" is, that in his frantic and unscrupulous efforts to get the woodchuck he has never been near enough to get salt on his tail, and he is mad about it. It has been many a long day since we have been more ably represented than at the present time. Congressman Tongue and Senator McBride have a reputation of getting what they reach for and they are the kind of men needed to represent our interests.

Oregon can well be proud of the record her senators are making at Washington. No better avenue for judging the ability of state representatives than the positions assigned them upon committees of direct interest to the state from which they hail. Senator McBride is by the honor conferred upon him in assignments upon committees, proving himself to be a man of ability and lasting benefit to the state. He is chairman of the committee on defenses, and a member of the committee on relations with the states.

places than any senator in office, having served only five years. These committees are of vast importance to Oregon, especially commerce, Philippine, inter-oceanic, canals and public lands. Senator McBride is getting into proper shape to serve his constituency in a commendable manner. Senator Simon is also a member of seven committees the two prominent ones being judiciary and public buildings. Among the others of which he is a member is mines and mining.

The filthy creature, McDaniel, who murdered his betrothed in cold blood in Portland some months ago after having ruined her, has been given 15 years in the penitentiary. If the evidence was strong enough to fasten guilt upon him, he should be hanged. The world can well afford to be rid of such a scorpion, whose only thought is to pollute the bed of innocence, and drag from the foul covers of lust, his victim to a more secluded spot there to strangle to death the mother of his unborn babe.

It isn't a hornets nest the British have run up against—its a boers nest.

Representative Tongue will be found right in line with the best interests of Oregon.

On the 19th day of June 1900 the National Republican Convention will be held at Philadelphia. And then and there the republicans will name the next president of the United States.

Hon. Thomas H. Tongue has been made chairman of the arid lands committee and is also a member of the rivers and harbors committee. As a member of the rivers and harbor committee Representative Tongue will make a valuable member.

Lentz, the old traitor, is still harping about imperialism. He has blanketed the "crime of '73" and now harps on the "crime of crimes being committed under the Stars and Stripes," i. e., the United States establishing its form of government in the Philippines. It is not surprising, however, that crime is uppermost in the mind of this depleted demagogue, Lentz—he's full of it.

THE PLOT UNEARTHED.

Until the other day the Cottage Grove public was in darkness as to the real cause of the fearful tragedy enacted in Havana harbor less than two years ago, when so many of our brave naval men, were without a moments notice hurried into eternity. A good old populist who lives not a thousand miles from this city has figured it out and here it is as near as a reporter could gather in the fragments of oratory:

"I tell yer it is the money power what is runnin' this 'ere shooting match—fact is, its a-runnin' the hull world. This war business is just a put up job to help one money power of a kentry to pay off its oblegashuns and its was got at in just er bout this a-way, b'gosh! (gathers up a little more inspiration by taking another chew of tobacco and spitting on the side walk.) Yer see, in the furst place it was a ent and dried thing that the United States sent the Maine over ter Cuba and we blowed the goldarned boat up ourselves—just for sense to get into a fight so's ter git ter pay Spain twenty millun dollars, so as that kentry could pay her oblegashuns ter France. I'll tell yer I has studyed this out terly and I am a perty level-headed myself and there is no other way visible so thutly probab-ly than the

"Statman" of Cottage Grove, and his

and fits your clock that looks like he hours on a musical going half hours on a tinkling cup bell, is tastefully decorated in gift scrolls, and has a face that reflects the beauty and worth of the movement behind it. Eight dollars—and the Christmas dinner will be more enjoyed when such a gift shines from the mantle. DAVIDSON the Jeweler.

Ware That Wears.

All silver plated ware looks alike when new. I am selling high grade forks and spoons that will look well in five years from now for the silver on them goes deeper than the shine. DAVIDSON the Jeweler.

WORKS PROVE IT

Mr. W. J. Rogers of Saginaw, an employe of Booth-Kelly Co., says: "I was in declining health, had a severe pain in my side. I have been improving since I began to drink Radams Microbe Killer. There is no doubt it did do and is doing much for me."

Remember my dear friends it cures every sickness.
