"Fighting Joe" (General)

Wheeler in a recent letter written from Angeles, Luzon, has this, and it isn't very complimentary to the "anties" either: "There are more than twenty different tribes in this island, and very few of them would submit to Aguinaldo's rule. Aguinaldo and his generals would like to govern, because it would give them great power and many of his soldiers like war because, for the first time in their lives, they have authority to carry a gun. They live by taking what they want from the people. Many of them are robbers who rob defenseless people of their money and sometimes murder them. If we should withdraw there would be warfare and anarchy in the islands and the well-to-do would get some strong government to come and take control. Aguinaldo publishes a paper which is filled with expressions from those people of the United States who are called anti-imperialists, and, I think, were it not for these expressions, the insurrection would be closed."

THE CURE FOR CROUP.

Twenty-five Years' Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by Benson Drug Co., Cottage Grove, Lyons & Applegate, Drain, Druggists.
