A Happy New Year.
Santa Claus dealt kindly with the little folk in Cottage Grove this year.

There was the "oldest" set of fellows up from Eugene last historical day, you ever set eyes on afore.

The composition work on the Special Mining Edition of Bohemia Nugget is now finished and the board will be bound as rapidly as possible.

Be sure and get a copy and send it to some one who may become interested in Lane county's great mining districts.

Last winter there was little if any work done in Bohemia and practically speaking the district was deserted through the winter months. This year only a few of the miners came out long enough to spend Christmas, and then back to get their work. A good indication of their interest and prosperity for the district.

With the passing of the year 1899, Bohemia Nugget shall have been in existence not quite one year, and the management is pleased to note that the paper has grown continually, each month new subscribers being added to the subscription list, and an increase in the advertising patronage, for all of which we are thankful. It has been our desire to get before the people the best local news. We contend that in the main this is all that is expected of a paper, and that the average country paper can do and do well. We have also done the best we could to keep the Bohemia mining notes before the readers of the Nugget, with the intention that it may become of interest. We feel that this is important as mining is the mainstay in the mining public of Bohemia, and will continue in the future.

Wishing all of our friends and correspondents a Happy New Year.
