They were within less than a block of the Thus the town was already being evacuated, but the old Congregational church was destroyed by fire and the old Catholic church was burned down. Many people were burned to death in their houses and the number of the dead was over 50,000.

The population is in a state of terror, and the people are running from the houses to the river and back again. It is believed that the river will be crowded with people beyond its capacity and that the houses will be abandoned.
