MINES & MINING.

Devoted to Bohemia Notes and Mining Items of General Interest to Mining Men.

Bohemia, Or., April 16, 1900.
Fine weather and snow almost all gone. Already mining men are dropping in from every where. Ed. Cole's pack train is making regular trips to the Helena. Harvey Johnson, of the Golden Slipper Co., was in camp today. G. W. Thompson has gone out on account of a severe attack of rheumatism.

Work on the Vesuvius group is being pushed as rapidly as the nature of the ground will admit. The Mineral King is showing as fine a body of high grade shipping ore as is to be found in camp.

Jones and Snapp will put a couple of men to work on their property at the head of Frank Brass Creek next week. This property last year developed some very flattering prospects in lead ore, and considerable development work will be done this season.

The writer has made it a point to take a little spin over the camp, and we see a general air of confidence everywhere among the miners, and also a lot of fine ore at the J. I. Jones mines on the Noonday ridge. There are thousands of tons of ore on the dump of the finest quality and a trip in the tunnels convinces one of the necessity of a smelter.

The Calapooia group has tons of good ore on their dump and in tunnels this ore if in Colorado would net its owners a handsome dividend but in Oregon can't be worked on account of there being no smelter, while everyone knows that ore can be mined here cheaper than anywhere else on the coast.

The Riverside is another fine group which without some way of cheap reduction there is no show for her to ever amount to much, but a finer showing is hard to find. The ledges are large, strong and well defined, with the best of water power and plenty of timber, and taken in British Columbia the Riverside would be a heavy shipper and a steady dividend payer.

The Golden Slipper is another fine group of 8 claims and a fine mill site with water enough for a good sized battle ship, and whatever work has been done a fine ledge from 3 to 8 feet wide is exposed, showing free gold by the pan process and giving an assay value of from \$40 to \$120 per ton. There is a fine cabin in course of construction and when completed will be a credit to the management. Sup't Hogg and wife are late arrivals from Iowa; Silas Clay and Dock Bowers are jolly good fellows.

The Mayflower is next, where Chas. Goldmacher is general manager during the absence of Capt. Ely. This property is in fine condition. There is a large amount of fine rock on the dump that is of a high grade smelting ore, and assay values place an average of over \$40 per ton. This is a change of ore from anything else in camp, it being a black malgonite or telurium ore with strong leads showing true fissure veins from 5 to 10 feet in width.

On up the creek and to the north are some of the finest undeveloped properties in camp. A claim lately located by Oliver and Sam Veatch, and at present undergoing development work, is showing a fine ledge of free milling ore 8 feet from wall to wall. This ore is a reddish brown and carries a good per cent of copper. Veatch Bros. are enterprising business men of Cottage Grove and deserve success which will surely crown their efforts.

The Traveler group owned by Nunn, Morgan and Reed is another fine undeveloped property consisting of three full claims which so far as developed shows strong leads of fine ore with gold plainly visible to the naked eye. These gentlemen are preparing to do a large amount of work the coming summer, such as good cabins and underground work. These claims are so situated that tunnels can be driven in directly on the lead, thus giving excellent drainage while opening up the mine in the cheapest manner. With fine timber and water for milling purposes this is sure to be a bonanza in the near future. There are also other fine properties in this end of camp but undeveloped.

The famous Helena is pounding away day and night and is at present the only mill in camp running, but others are preparing to start in the near future. The Helena needs no comment. She stands without a peer in the Pacific Northwest. Her richness is dazzling to the eye, judging from the way amalgam rolls up on the plates. Her owners, the Jennings Bros & Bruneau, are enterprising men of mining ability and believe in running their mill to its fullest capacity instead of shutting down as some others have done. The Helena will show to the world what push and energy can do in the way of mining.

IT IS HERE!
The Largest Stock in South Lane!

COTTAGE GROVE, OREGON

NOTICE FOR PUBLICATION.
United States Land Office, Roseburg, Oregon.
February 27, 1900.
Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," Clement Platt of Cottage Grove, County of Lane, State of Oregon has this day filed in this office his sworn statement No. 883, for the purchase of the NE 1/4 of section No. 14, in Township No. 22 S. Range No. 3 W., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office, at Roseburg, Oregon, on Wednesday the 9th day of May 1900.
He names as witnesses:
Henry Hanson, O. O. Lund, of Eugene, Oregon, Ole Hegaus, Ole Roe, of Bucoda, Washington.
Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 9th day of May 1900.
J. T. BRIDGES,
Register.
