

LEG BROKEN.
A son of Mr. Woodford, who recently came here from the east and engaged in getting out wood for the Southern Pacific Co., near Mr. White's place, had his leg broken last Friday. The leg of his overalls caught on the knuckle of the tumbling rod which is used to transmit the power from the horse power to the wood saw, and before the horses could be stopped his leg was wound around the rod and broken a few inches above the ankle. Mr. Woodford has been unfortunate since coming here, as only last week his team ran away in the field with another one of his boys in the wagon, and after an exciting run turned the wagon over. The boy escaped without serious damage, but one of the horses was killed.

CLOSE CALL.
J. M. Durham met with a close call last Thursday evening while attempting to pull a load of hay which had been mired down on one of the streets in the outskirts of the city. Mr. Durham had hitched his four horses on the rear end of the wagon and was pulling the load backwards, when he was caught between the corner of the rack and a telephone pole, breaking two ribs and otherwise bruising him. He was only saved from perhaps instant death by the wagon turning over in an opposite direction from him, thus freeing him from his perilous situation. Mr. Durham was conveyed to his home where medical aid administered to his sufferings, and at present he is improving as rapidly as can be expected.

THE SUMMERS WORK.
It is reported that the snow is now almost gone out of the mountains, and this being the case it will only be a question of a few weeks until active operations will be commenced in the matter of development work in Bohemia. The management of various properties which have been idle this winter, owing to inadequate facilities for carrying on work during the winter, are known to have been busy during the winter months arranging details for a steady summer's work, and as soon as the condition of roads will permit supplies galore will be hauled in and the biggest summer's work in the history of Bohemia camp will be commenced.

VALUABLE FOUNDATION ROCK.
"The builders of Cottage Grove are perhaps not aware," said an old prospector to a Nag get man the other day, "that they are using pretty valuable pay rock for the foundation work of their buildings. I had occasion some time ago to prospect a little of this same kind of rock, which is known as Birdseye Phosphery, and in horn spooning it, I found some eight or ten colors, which is equivalent to a \$5 or \$6 assay. While it is associated with fissure veins still it is never found in fissure formation. This rock is plentiful in the Cripple Creek country, and there it is mined extensively. There are tons and tons of it here in great dikes in close proximity to Cottage Grove."

TO CRUSH ROCK.
Chas. Dority, of Springfield, foreman of the rock crusher, detailed to do work in this end of the county, arrived Monday and is now operating the crusher for all it is worth. It is a good thing and the day is not far distant when the people of Lane county will wonder how the people got along as long as they did and put up with the abominable roads of the county, without a crusher, and sometime they will thank the present county court for braving the slurs and vulgar criticisms of the yellow journals of the county and going ahead and making permanent improvements.

ORGANIZED.
Hasseltown Cabin, Native Sons of Oregon was organized in this city last week with a charter membership of 22 members, with the following officers installed. Jerome Knox, president; J. E. Young, 1st V. P.; Frank McFarland, 2nd V. P.; H. H. Veatch, R. S.; Ralph Whipple, F. S.; Alf Walker, M.; Darwin Bristow, T.; J. B. Lurch, P. P.

FOUNDATION LAID.
The foundation for the new M. E. church was laid this week, and as soon as the roads will admit of the hauling of material the construction of the handsome new church will be commenced. It is thought, however, that the material cannot be placed upon the ground before the first of June, at which time the work of construction will be rapidly pushed.

MARRIED.
A double wedding took place at the residence of J. B. Bates, ten miles from this city, Wednesday, April 25, 1900, the contracting parties being Hugh C. Doolittle and Anna F. Bates; Ulysses S. Bates and Winona Doolittle. The newly married people are well and favorably known in this locality, and have a host of friends who hasten to tender congratulations.

COME ON THE LONG JOURNEY.
William Curran, one of the oldest and most highly respected pioneer citizens of Lane county, who came to Oregon in the early days, enduring the hardships met with by those who braved the trials incident to leaving the older settled countries and buffeting with the perils of crossing the plains and settling the new, took up the long journey last Friday evening, just as the sun went down, and departed for the undiscovered country from which none are destined to return.
William Curran was born in Grayson county, Virginia, December 20, 1818, and died at his home near this city, after a week's illness with grippe, Friday evening, April 20, 1900, at the age of 81 years, three months and twenty-two days.

Deceased left the home of his birth in 1843 for Missouri where he lived until he started across the plains for Oregon in 1850, reaching this state that fall, where he engaged in packing into the mines of Southern Oregon and Northern California until 1853, when he located a donation land claim near Cottage Grove upon which he continued to reside until the Great Master called him hence. He was a type of man characteristic of the early pioneers of the great west, and retained the friendship and respect of those who knew him through a long life to the end. Deceased was the youngest of four brothers, the two youngest of whom Hugh and George, died in this state some years ago, while his eldest brother John, who is now 84 years old, survives him and resides at the old donation land home of deceased. Deceased also had several sisters, two of whom were residents of Oregon, Mrs. Kitty Cooley, of this county, who died near here 14 years ago on the 18th of this month being one of them.

The funeral services were held at the Shields cemetery, Sunday, April 22, Rev. Wallace officiating, a large attendance being present.

It is announced that orders have been received here this week from the management in London to start active operations at Grizzly mine immediately. This is the Byrne Bros. & Johnson property of which an account of a rich strike was made in last week's Nugget.

It is understood that an effort will be made to organize a militia company in the near future. There is plenty of good material here for a company and it is to be hoped that the effort will meet with success.

The city council had Main and Fourth streets surveyed and staked this week with the view of grading and crush rock the same in the immediate future. Main street will be graded from the Knowlton property to the depot, while Fourth street will receive attention from Geo. Lee's place to Main street.

Ruben Sherwood, the seven year old son of Mr. and Mrs. Geo. Sherwood, is quite a youthful traveler. He arrived here from Weiser, Idaho, last Monday, having traveled the entire distance alone, of course being in charge of the conductors. Master Ruben is just four weeks recovered from the smallpox, and is glad to get away from the scene of his illness and get home to papa and mamma.

THE BEST IN THE WORLD.
We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisement in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. For sale by BENSON DRUG CO., Cottage Grove.
