The Guard is authority for the statement that the revenue collector holds that a 10 cent revenue stamp is required on each certificate of nomination. Candidates should look into this matter, as a failure to comply with the revenue law may invalidate the nomination.

A populist friend, who by the way, was nominated on the Lane county "Citizens" ticket for legislative honors, has just been appointed census taker of two precincts in the western part of the county, at a salary of \$6.00 per day. A friend at our elbow is mean enough to remark that no doubt that the good populist will decline the appointment, as the salary is altogether foreign to the ideas of populist brothers. It is generally understood that \$2.00 or \$2.50 at the most is exorbitant wages from a populist point of view, and that in their sincerity of purpose they would not be guilty of accepting a salary of \$6.00 per day.

Cyclone Davis, of Texas, will not help the cause of good government at Portland one smitheren. All such national issue agitators only stimulate blind and bitter partisanship.—Capital Journal.

OUT FOR McQUEEN.

The Leader surprised some of its readers last week by giving Hon. Ivan McQueen, republican nominee for representative for Lane county, a very clever mention, in fact admitting that he would be a very desirable member of the legislature. Such admissions are always appre-

ciated, and in behalf of Mr. McQueen the Nugget extends thanks. The Leader also says something about Mr. McQueen mentioning that there is more money in mohair than in being elected to a seat in the state legislature. We would like very much to have Bro. Wooley explain how much money there was in mohair prior to the present republican administration?

HARD ON DALY.

The Lake View Examiner of last week in its fair and impartial style takes occasion to show up Dr. Daly of that county who is out on the "citizens" ticket for congressman against Hon. Thos. H. Tongue. Owing to lack of space we are unable to print the entire article but will continue from week to week thus giving the people of this section an opportunity to know what kind of a man the citizens ticket has trotted out to do away with Mr. Tongue. As a man is judged at home so is he apt to be judged abroad. The Examiner says.

The Examiner may have occasion to criticize severely some of the candidates before the people, but it will endeavor to adhere to the truth at all times. It may have occasion to tell some truths that will make somebody wince, but a candidate for congress should be sufficiently hidebound to pass over the truth with a smile, no matter how bare faced the truths are. Of course it is the truth that hurts—a falsehood never.

We have it direct from Mr. Daly's subsidized press at home that his election to congress is a "foregone conclusion." Of course this is a matter with which the voters of the first district will deal absolutely. We all recognize Dr. Daly's ability as a business man. Did he not have ability in that direction he would not now stand as one of the wealthy men, big property owners, banker, and landlord that he is, and fusion nominee for congress. But after a service to the people in the capacity of representative and subsequently as senator in the Oregon legislature, we have not heard of him doing any great things as a law-maker—he has never been a man in the public eye for a moment—nobody has ever considered him "the man of the hour." Here in the sagebrush section of Oregon where he is best known he is not even considered a man of integrity. In the state's metropolis and among the solons at the state house Dr. Daly is known as the, suave, affable, genial, good fellow. He carries the same affability at home, grasps his fellowman by the hand with the grip that signifies "I, am your friend." But there is "method in this madness," for it is not Dr. Daly's nature to care a straw for his fellowman unless by showing an occasional act of kindness he can pave the way to make use of this fellowman sometime in the future, either in a political way or in a financial sense. It is uncertain whether or not Dr. Daly, fusion candidate for congress, is or is not a "gold-bug," but we who know him, know what a greed he has for gold. The same greed is in him for the silver shekels, and he is likewise credited with being a lover of the doctrine of Bryan and 16 to 1.

Dr. Daly has never yet publicly announced his opinion on the money question of the country, and as a candidate for congress it behooves him to let the people know upon what ground he stands on this issue. Heretofore, when he has shied his castor into the political arena, and made the campaign for state office, he has publicly avoided the issue. In making his house to house canvass for votes he has studiously avoided expressing himself on the money question to the good old honest farmer unless he had previously learned just how the good old farmer stood on the question, and he would form his own views to accord with those of the honest farmer.

Continued.

NOT IN FAVOR OF IT.

As it has been reported that O F Knox' candidate for county judge was in favor of a division of the county, a reporter took occasion to question Mr Knox the other day relative to the matter, with the following result which will throw some light on the matter.

Ques—Mr Knox, are you in favor of a division of Lane county?

Ans—No sir I am not for the reason that I do not think it would be to the best interest of the people of this end of the county.

Ques—Isn't it a fact that you worked for a division during the 93 term of the Legislature?

Ans—I did.

Ques—Why have you changed your mind since 1893?

Ans—Circumstances are quite different now from then. At that time Lane county had no court house, no rock-crushers and but few bridges in this part of the county and a great deal of bad roads. Since then we have been taxed to pay for all of those things and I propose now to help use them.

Ques—If you are elected to the office of county judge, what influence would you have in that matter?

Ans—I don't know that I would have any, as that would be a matter for the Legislature to deal with, and entirely out of my line of business.

Ques—Do you believe that there will be a move toward the division of the county at the next session of the Legislature?

Ans—I do not believe that any effort will be made, as it would be folly to undertake anything of the kind unless our senators and representatives would favor it, and I do not believe there is a candidate on either side of the ticket who would favor it.

Mr. James Hemenway, republican candidate for representative was also interviewed and he stated as follows. "While at one time I did advocate county division, I am positively opposed to it now. We have a good court house, a safe place for county records, and I see no necessity to divide the county. Yes you may say for me that I do not favor a division of Lane county."

The editor of the Leader compliments the Nugget man on his ability to write history. As a return courtesy we wish to say that while we may "shine" as a writer of history, the brother over the way is in a sense not unlike the brave admiral, Dewey—he has been a dandy at making history.
