### SITUATION IS VERY GRAVE

Kruger Asks the Burghers What They Wish.

#### THE BOERS LOSING HEART

It Is Fear That If Dutch Have In Excuse They Will Destroy the Johannesburg Mines.

London, May 29.—When Lord Roberts wrote his first dispatch on Transvaal territory yesterday, shortly before 2 o'clock in the afternoon, he was 51 miles from Johannesburg and 77 miles from Pretoria. His immensely superior forces had passed the Vaal river, their last great natural obstacle, at three points.

The Vaal has a curve of 80 miles on the west to Zand Drift on the east. The concave of the current is toward the Free State. Thus Lord Roberts, advancing along the railway, was in a position to strike any part of the crescent by shorter lines than those by which the Boers could reinforce the threatened points. The Boers retreated almost without a show of defense. General French and General Hamilton apparently did not fire a shot.

Of Lord Roberts' immediate force 11 men, belonging to the Eighth mounted infantry, were the first to ford the river. They came upon a Boer patrol looking at Vieljeon's Drift, and a skirmish lasting 10 minutes followed. Three hundred Boers tried feebly to hold the Vereeniging colliery, but were dislodged. Major Hunter Weston and Lieutenant Earl rode in advance of Lord Roberts 40 miles into a hostile country to try to cut the railway behind the Boers before the Vaal was crossed, but they were too late.

The Boer rear guard is at Moryton, 10 miles south of Vereeniging. Their main body is moving toward the Klip river hills that cover the south side of Johannesburg. While Lord Roberts' 30,000 infantry, 20,000 horses and 150 guns are moving on Johannesburg and Pretoria, through a parched and deserted country, the situation at the Transvaal capital, as it was last Friday, is thus described by an observer, who sent his message by private hands to Laurence Marques yesterday:

"The situation, both from a military and a political point of view, has become very critical. President Kruger yesterday admitted for the first time that matters are very grave. The Boer determination is to trust everything to a last stand on the Gaterand mountains, to the north of Potchefstroom, where 3,000 Kaffirs are digging trenches. To that point every available man and gun has been sent."

"The whole of the western border of the Transvaal from end to end is defenseless, and General Baden-Powell can march in when he likes. Lord Roberts, on the other hand, will encounter the greatest resistance. The Boer endeavor is to lure the British into appearing to threaten Johannesburg with attack, an excuse thus being given them for the destruction of property. The Transvaal government will not dare destroy the mines and property without an excuse. Much dynamite has been sent down the line, and 160,000 cases lie ready at Zurlontein, near Johannesburg."

"General Louis Botha and General Lucas Meier have pleaded for the preservation of property. Both are large landed proprietors and fear confiscation, but they have not received satisfactory replies from President Kruger."

#### Naval Station at San Diego.

San Diego, Cal., May 28.—Captain Field, of the United States steamer Ranger, has received orders from Washington directing him to make soundings in the bay and recommendations as to whether this is a suitable location for the establishment of a naval coaling station, and further to advise whether one is needed here. The work of surveying the harbor will be begun immediately. The minimum depth of water will be reported, and also the cost of the necessary land, if the government does not already own land near where the bunkers would be located.

#### The West Africa Trouble.

Accra, May 29.—It is reported that three European officers were killed and Captain Applin and 100 Hausers were wounded in a recent effort by the Lagoon Hausers to break the investing lines of tribesmen at Kumassie. Three hundred Ashantis are said to have been killed in a previous action. The rising is still spreading.

#### Paper Mill Burned.

Milwaukee, May 29.—The Flambeau Paper Company's mill and warehouse at Park Falls burned today, entailing a loss of \$300,000. The property is well insured. The town was without adequate fire protection, and at one time was thought would be totally wiped out. Assistance from Medford and Abbotsford prevented the spread of the flames beyond the paper company's plant. Included in the loss are two paper machines, valued at \$40,000 each.

#### The Tonga King Objects.

Anekelad, May 29.—The king of the Tonga islands objects to the clause of the treaty between Great Britain and the island government relative to the British protectorate. The king desires a protectorate only against foreign powers, and insists upon the kingship of himself and his descendants. Commissioner Thompson refuses to make any concessions and a deadlock is the result, but hopes are entertained that a solution of the difficulty will be found.

### WARNING TO CHINA.

Uncle Sam Says the "Boxers" Must Be Suppressed.

Washington, May 28.—The United States government has taken a hand in the suppression of the "Boxers" in China. Minister Conger has been instructed by the state department to inform the Chinese government that the United States government expects it to stamp out promptly and thoroughly this society, and to provide proper guarantees for the maintenance of peace and order, and the protection of the life and property of Americans in China, all now threatened by the operations of the "Boxers." There is no indication in the instructions as to the course that will be pursued by the United States in case the Chinese government fails to observe the warning conveyed in this communication. Mr. Conger is acting on parallel lines with the representatives of every European power at the Chinese court, but has not joined in any concert of action.

#### STRIKE SYMPATHIZERS.

Caused Another Riot in St. Louis—Attempt to Blow Up a Car.

St. Louis, May 28.—Sympathizers of the striking street car men were again the medium of a riotous demonstration today, and as a result another name was added to the long list of wounded. This afternoon, as a car on the Jefferson avenue line, running south, approached Sullivan avenue, it was attacked by a crowd of men and boys. Several shots were fired at the car. The policemen on the car returned the fire, and in all about 100 shots were exchanged. Peter Wells, a patrolman, who was riding on the front platform, was hit in the left arm pit, the bullet producing an ugly wound. It is not known who fired the shot, as the crowd scattered as soon as the men on the car drew their revolvers. It was rumored that two men in crowd were shot, but they could not be found by the police.

The differences existing between the management of the St. Louis & Suburban Railway Company and the union men in its employ were satisfactorily adjusted this afternoon and all danger of another strike has been averted, at least for the present.

Twenty-two miles of the Transit Company were in operation today, but few cars were running.

At 6 A. M. an attempt was made by somebody unknown to blow up a car on the Spaulding avenue line of the Transit Company. The wheels of the first car struck something that exploded with a loud noise, and lifted the car two or three feet into the air.

#### Looted the Charleston.

Seattle, May 28.—During the last voyage of the Chorraca from Aparri, according to the Manila Freedom, the steamer touched at the island where the Charleston was wrecked, for the purpose of taking on a number of beavers. Several American civilians were passengers on the ship and they seized an opportunity to go ashore. Ruins of a house larger and more durable than the cottages of the natives attracted their attention. While passing through the place they stumbled across the searchlight of the cruiser Charleston and numerous other articles, including a splendid case of surgical instruments, the property of the Charleston's medical officer. No arms were found among the loot, and the supposition is that if any of them fell into the hands of natives they were taken across the mainland where the rebels might use them.

#### Disorders in Isle of Jersey.

London, May 28.—Serious trouble is threatening between the British and French residents of St. Heliers, Island of Jersey, owing to the pro-Boer attitude of the latter. ### SYMPATHY FOR THE BOERS

Anglo-American Alliance in the Senate Again.

#### SENATOR WELLINGTON SPEAKS

Industrial Commission Accused of Being a Republican Campaign Machine—Said to Have Suppressed Testimony.

Washington, May 31.—In the course of a speech in favor of the adoption of a resolution expressing the senate's sympathy for the Boers today, Wellington referred to a secret understanding existing between the United States and Great Britain. When Lodge demanded proof that such an understanding existed, Wellington said that, under the circumstances, it was difficult to present tangible proof, but he believed the proof could be found in the secret archives of the state department. Lodge replied that under our form of government no such understanding could exist, and, as the secretary of state had emphatically denied the existence of any alliance or understanding, he believed the country would accept his statement as true.

The reading of the sundry civil appropriation bill was completed, but not all of the committee amendments have been disposed of. A lively debate was precipitated over the proposition to continue the life of the industrial commission until October 31, 1901. Charges were made that the commission was being used as a Republican campaign machine, and that important testimony had been suppressed. The committee amendment, however, was agreed to.

This was a dull day in the house, marking the near approach of final adjournment. The Alaska civil government bill was passed, and some odds and ends of legislation were cleaned up. Dulzell gave notice that the anti-trust resolution and bill reported by the judiciary committee would be considered Wednesday, Thursday and Friday of this week under a special order.

#### WORK OF OUTLAWS.

Assassinate Two Officers Who Are in Pursuit—Dead Men Unarmed.

Salt Lake, May 31.—A special to the Herald from Thompson, Utah, says: A cowardly assassination occurred about 50 miles north of here yesterday at noon. Sheriff Tyler, of Grand county, and Sam Jenkins, a cattle owner, were shot and instantly killed by outlaws on Hill creek, about 50 miles north of here.

The sheriff, Jenkins and Deputy Sheriff Day have been on the hunt for cattle rustlers for several days, in fact, ever since they killed George Currie on April 17. The posse had separated from Sheriff Preece, of Uintah county, and posse, early in the morning, the latter being about three miles away when the shooting occurred. The story of the killing, as told by Deputy Sheriff Day, who was only about 50 yards away when the shooting occurred, is as follows:

The officers came upon the outlaws' camp unexpectedly. As soon as they saw the outlaws they dismounted and advanced towards them. When within a few yards from the outlaws, Sheriff Tyler spoke to them, saying, "Hello, boys."

The reply made could not be heard by Deputy Sheriff Day, but immediately after it was made, Sheriff Tyler and Jenkins turned towards their horses, supposedly with the intention of leaving to get more assistance. As soon as their backs were turned, the outlaws shot them through the back, the bullets coming out of their breasts, killing them almost instantly.

#### KEMPFF AT TAKU.

Near the Scene of Trouble to Protect American Interests.

Washington, May 31.—A cablegram received at the navy department today stated that the Newark had been designated to act as flagship of the senior squadron commander, and that the vessel sailed from Nagasaki last Saturday and arrived at Taku forts yesterday. Rear Admiral Kempff is the senior squadron officer described in the dispatch, and his visit to Taku, the nearest point to Peking attainable for large vessels, has attracted much attention. It is understood that there is already a formidable fleet of European warships gathered at Taku, and since the withdrawal of the Wheeling the American fleet has been unrepresented at that point.

While prepared to act concurrently with, though independently of, the European powers in the protection of the life and property of foreigners in China, Admiral Kempff has not at present any intention of making a hostile demonstration in the Pei-Ho river. It is believed that he is at Taku solely for the purpose of getting as near as possible to Minister Conger and the American legation at Peking.

He had blown out the gas, and death from asphyxiation was the result.
