Many Who Were Comfortably Fixed Now Penniless-Territory's Official Census Statistics Had a Close Call.

Prescott, Aris., July 17 .- A scene of great desolation and a feeling of deepest gloom pervades this town today. All that remains of the principal business portion of the town is tottaring walls and piles of charred and burning debris.

The fire, which started at 10:45 o'clock last night, was not under control until 3 o'clock this morning, when the fighters went a considerable distance in advance of the flames and blew up the buildings on the south side of Goodwin street, preventing the fire from crossing that street. The most conservative estimates of the total losses are from \$1,000,000 to \$1,500,000. The burned district embraces five blocks, in which were located the principal mercantile houses, both banks, both telegraph offices, the three newspaper offices, four hotels, and every saloon and restaurant except one in the town, besides scores of private residences. To add to the (prevailing gloom, a high wind has prevailed all day, sending smoke, dust and burning embers in every direction, requiring the greatest vigilance to prevent another outbreak of the flames. Owing to the chaotic condition existing today, it is impossible to obtain an accurate account of the loss or individual insurance. From interviews with insurance agents, the total insurance does not exceed \$350,000.

At daylight this morning teams were at work hauling lumber to the public plaza, and this evening it is covered with tents and temporary frame buildings. The occupants will be ready for business tomorrow. Both banks have secured temporary quarters and will be open tomorrow. The Bashford-Burmeister Company will be open for business tomorrow in their warehouse, two blocks from the plaza.

Verde Copper Company, who was visiting the works at Jerome, wired a draft for \$500. All the sufferers from the fire are provided with food, shelter and clothing, and it is not thought any outside assistance will be required.

The only business houses remaining in the town are Goldwater Bros., A. Blumberg and Mrs. R. R. Blaine, dry goods; Joseph Dougherty, T. W. Otis and J. I. Gardner, grocers, and W. W. Ross and W. P. Covilland, drug stores. The express office and postoffice were both out of the fire limits, but the latter had a close call. All the mail and effects were ready to move at a moment's notice.

The office of the supervisor of census for the territory was located in the Prescott National Bank building, and contained all the official statistics of the consus of the territory, but they were removed to a place of safety.

The Western Union opened its office this morning in a grocery store, and the Postal has opened an office at the railroad depot. The electric light poles and wires were in the burned dis-

REPORT OF ADMIRAL REMEY

Three Thousand Friendly Chinese Offcials Ordered Killed by Prince Tunn -Minister Wu's Situation,

Washington, July 18 .- The navy dpeartment this morning received official confirmation from Admiral Remey of the reverse of the allied forces at Tien Tsin on the morning of the 18th. The dispatch is dated Che Foo, July 10, and save:

"Reported that the allied forces attacked the native city the morning of the 13th. Russians on the right, with the Ninth infantry and marines on the left. The loss of the allied forces is large; Russians, 100, including artillery colonel; Americans over 30; British over 40; Japanese, 58, including colonel; French, 25.

"REMEY." Consul-General Goodnow cabled to the state department from Shanghai under today's date that there is noth-

ing more to report since his cablegram of the 13th inst. The dispatch reported the attack on the legations at Pekin as about to beign. Mr. Goudnow's statement is in direct contradiction of the Shanghai story that all foreign consuls were informed Saturday by Sheng that the legations had fallen and the

ministers were killed. Without exception today the foreign representatives in Washington accepted as practically certain that the foreign legations and ministers at Pekin have been wiped out. The opinion is based on the accumulating unofficial data that the slaughter occurred about July 6 or 7. Even among the high Chinese officials hope has been about given up, cial information, and that they are as much in the dark as others.

The situation as a telling effect on the Chinese minister, who is under a nervous tension and agitation more severe than that of the American officials. He is seeking to show in the present acute crisis that no matter how bad conditions may be in China, he is not the less anxious to serve the American people and government, for he has taken great pride in the kindly personal relations between him and the people here. Minister Will declares unworthy of belief the cable report that Sheng, director of telegraphs and posts

at Shanghai, knew of the killing of the foreign ministers at the time he made a recent suggestion that foreigners be escorted out of Pekin it the allied forces would not advance. As a matter of fact, Minster Wu states that the Chinese officials have no better means of learning the truth of affairs in Pekin than the foreigners, as all the usual means of communication are suspended. But he points out that Sheng could not have known of the death of the foreigners, else he would not have made a proposal that the foreigners be escorted out of the city. This latter and the infant's body was is is is considered proof positive by Mr. - W.
