MOTHERS!

Don't Let Baby Suffer. THERE IS ONLY ONE THING KNOWN for aiding the teething process and slow growth in infants and children, and that is, for very obvious reasons, called ANTIPRET. It stops the fretting, restlessness, general feebleness, colic and diarrhoea. Prevents brain troubles and convulsions. Renders lancing gums unnecessary. It has been estimated that five millions of babies die annually for want of mothers knowing what to do. Dentition is the dangerous period of child life, far to serious to be dismissed with the careless remark "Baby is cutting her teeth." Your child needs some making material. ANTIPRET supplies this want. It is harmless, dissolves in milk and taken easily. One box will save your baby untold misery. Sent postpaid by return mail on receipt of 50 cents. Full instructions with each. Address: L. N. D. DR. CO., 254 Washington Street, San Francisco, Cal. Antipret certainly relieves teething babies that we will on all packages sold by mail refund the money by sending stamps in full for those returned within 30 days not over one fourth used.
