STOCK AND FARM.

Reports are now current that the ravages of the cut worms are now over. Much serious damage was done by them.

Eastern advices state that the peach crop has been so bountiful this year that the growers will hardly make picking money out of their crops. Eight car loads were sold in the Minneapolis market in one day at a price hardly sufficient to pay freight.

The Oregon Agriculturist and Rural Northwest very pertinently says: A car load of eastern eggs arrived in Portland last week. It will take a dozen car loads of Oregon wheat to pay for them.

It is said that the apple crop for 1900 is the greatest in the history of the country, and that the product is above the average in quality. The price, however, will be low.

During the civil war, as well as in our late war with Spain, diarrheoa was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found any thing that would give him such quick relief. It is for sale by BENSON DRUG CO., LYONS & APPLEGATE, DRAIN Druggists.

It appears to be the popular impression that the starting up of a creamery in a community means an immediate large increase in the amount of butter made in that community. This is not always the case. There is almost certain to be a little increase from the very start, but the principal gain comes from the raising of the average grade of butter produced in that community. If the creamery is properly managed and proves successful, there will be a big increase in the amount of butter made in the course of a few years. It is not to be expected that a large butter-producing industry can be at once established in a district in which the farmers have not been accustomed to keeping cows for dairy purposes. — Oregon Agriculturist and Rural Northwest.

Estimates of the shortage of the Pacific Coast salmon pack vary between 600,000 and 1,000,000 cases.
