W. H. Waldron, who lives about
five miles south of Salem, Oregon,
butchered a veal on Tuesday. He
fed the lights to a fine, large brood
sow, and the next morning he
found her dead. His neighbors
tell him they might have told him
so. The sow had nine fine pigs,
which had been weaned only the
day before, and so they were saved
from the wreck.—Pacific Home-
stead.

Take the Bohemia Nu-gget.

A MOTHER TELLS HOW SHE SAVED HER LITTLE DAUGHTER'S LIFE

I am the mother of eight children
and have had a great deal of ex-
perience with medicines. Last
summer my little daughter had the
dysentery in its worst form. We
thought she would die. I tried
everything I could think of, but
nothing seemed to do her any good.
I saw an advertisement in our pa-
per that Chamberlain's Colic,
Cholera and Diarrhoea Remedy
was highly recommended and sent
and got a bottle at once. It proved
to be one of the very best medicines
we ever had in the house. It saved
my little daughter's life. I am
anxious for every mother to know
what an excellent medicine it is.
Had I known it at first it would
have saved me a great deal of
anxiety and my little daughter
much suffering.—Yours, truly,
MRS. GEO. F. BURDICK, Liberty,
R. I. For sale by BENSON DRUG
Co., Cottage Grove, LYONS &
APPELLATE, Drain Druggists.

Griffin & Veatch Co. carry a full
line of Canton Clipper and John
Deere Plows. None better.

STORY OF A SLAVE.

To be bound hand and foot for
years by the chains of disease is
the worst form of slavery. George
D. Williams, of Manchester, Mich.,
says: "My wife has been so help-
less for five years that she could not
turn over in bed alone. After us-
ing two bottles of Electric Bitters
she is wonderfully improved and
able to do her own work." This
supreme remedy for female dis-
eases quickly cures nervousness,
sleeplessness, melancholy, head-
ache, backache, fainting and dizzy
spells. It is a godsend to weak,
sickly, run-down people. Cure
guaranteed, Only 50c. Sold by
BENSON DRUG Co., druggist.

hemia mining news, \$1 50 per year.

While journeying through Central
Indiana recently we shared a
seat in a railway coach with a noted
physician. As the train sped by a
file factory, he said: "There is an
industry that has hurt our pro-
fession badly." "How so?" we
asked. "Why," he replied, "the
drainage of the wet lands has re-
duced the sickness fully one-half,
and this, of course, means less work
for the doctor. Indiana used to
be known as a malarial district;
chills and fever were 'as common
as dirt,' an everyday affair in al-
most every household. Now they
are so rare that the younger
generation does not know what is
meant by 'ague.' The tilemaker
and those who have preached the
gospel of drainage are entitled to
much of the credit for this happy
condition." This is in the nature
of expert testimony, which we are
glad to record.—Drainage Journal,
Indianapolis.

NOTICE OF DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the co-part-
nership heretofore existing between Mrs. Jane
Benson and J. S. Benson under the firm name
of the Benson Drug Co., has this day been dis-
solved by the mutual consent of the parties, J.
S. Benson retiring therefrom.

The business will be continued in the firm
name under the management of Mrs. Jane
Benson, who assumes and will pay all claims
against the firm.

The accounts due the Benson Drug Co., have
been placed in the hands of J. S. Seidler, Esq.,
by the former partners with instructions to
collect the same in order that the business may
be settled up, said retiring partner still retain-
ing no interest therein.

Dated at Cottage Grove, Oregon, this 23rd
day of August, 1900.

Mrs. Jane Benson,
J. S. Benson.

In order to move off our old stock of
Wall Paper we will close out some
grades at cost and will make a smash up
in prices on balance. If you are going
to paper it will pay you to get our prices
before buying. We will not be under-
sold.

MARTIN & COCHRAN.

Griffin & Veatch Co. are agents
for the celebrated Canton Clipper
Plows, Harrows and Cultivators.

RICHER THAN EVER.

The Big Strike at Stock & Harlow's Far Exceeds the Former Reports.

Never in the history of Bohemia has
so many rich strikes been made in a
single year as in this, and from present
indications, the end is not yet. The
last important strike recorded was that
of the Stock & Harlow property, and
samples of the ore brought to this city
sparkled with gold. This week another,
or at least a more extended strike, was
made in the same mine, and the assays
from it gives such values that it is al-
most beyond belief, but nevertheless it
is a fact. Assayer Frank White gave
returns of \$13,500 to the ton, gold.

The big pay streak, however, is only
about three inches wide, but on either
side is ore for several feet that runs from
\$300 to \$400 per ton. It is not known as
yet what extent this strike is, but it is
said that since the discovery work has
been going on steadily and in place of
the pay streak diminishing it has not
only grown wider but thousands of dol-
lars to the ton richer.

At the Oregon Agricultural
College the discovery has been
made that two parasites are preying
on the cut worms in Oregon. These
parasites are distinct from that re-
ported at Salem. That was the
igneumon fly, while these are the
braconids, both being very de-
structive to the cutworm. The
discovery was made on worms in
Professor Cordley's breeding jars.
Professor Cordley was developing
the worms for the moths, in order
positively to identify the species,
and was pleased one day to find a
number of the worms affected with
the parasites. As a result, he,
though in no sense positive, is of
the opinion that the prevalence of
the worms in the state, at least in
great numbers, will not be perma-
nent, and that after another season
they may disappear.—Albany Her-
ald.

BRYAN'S '96 PROPHECY.

"I here make the following
prophecy: If McKinley is
elected and put in power for
the next four years, wages will
decrease, hard times will come
upon us, and over the land
the price of wheat will go
down, the price of gold will go
up, mortgages will be fore-
closed by the money lenders
and sharks, factories and mills
shut down; we will export no
goods, we will import all the
goods we use, and there will
be want and misery over the
land. Remember what I say."

Farmers if you want a good culti-
vator GRIFFIN, VEATCH Co. have
them.

'GRIFFIN & VEATCH,

COTTAGE GROVE, OREGON.

AT THE MUSICK.

The Oregonian.

I. H. Bingham, one of the di-
rectors of the Musick mine, who is
at the Imperial, says his company
is about to begin running a 3000-
foot tunnel to tap the ledge 1000
feet below the present levels.
Power drills will be used after a
certain depth has been reached,
and work will be prosecuted all
winter, as arrangements are being
made to have the men "under cover
going and coming.

The Musick mine is one of the
best known properties in the Bo-
hemia district, and for over a year
a 10-stamp mill has been operated,
day and night. The present opera-
tions are conducted at an elevation
of 5000 feet, and deep snows
usually render locomotion difficult
during the winter months. The
mouth of the new tunnel, which
will be 1000 feet lower and on the
west side of the mountain, will
escape considerable of the bad
weather which visits the present
dump and surroundings.

Twenty men are employed in the
mine and mill at present, and the
force will be increased when the
new operations are begun. A
large amount of rich ore is being
stoped at a depth of 400 feet from
the surface, and the ledge gives
every evidence of uniform value
and lasting qualities. When the
new tunnel is run, a fine body of
ore will be in sight, as the drills
will follow the ledge all the way.

It is announced that I. Verne Alder-
man, the young thespian, who wandered
this way a few weeks ago and received
the support of the leading amateurs of
this city in the production of the play
"Right Avenged," forgot to return some
\$12 worth of jewelry which he had
borrowed for the "occasion." H. C.
Madsen, one of Cottage Grove's leading
jewelers, was the unfortunate loaner,
and now he has it not. A warrant was
issued for Alderman's arrest on the
morning of his disappearance, and a
telegram was sent to the officers at Al-
bany to stop the "green goods" man,
but he could not be found on the train.
The jewelry probably adorns a pawn
shop by this time.

Wm. Cumming, who has been identi-
fied with the general merchandise busi-
ness in this city for some years, has
accepted a position with a leading house
in Grants Pass and has gone there to
assume his duties this coming week.

The Junction City Times reports the
wheat crop thereabouts a failure, and
states that the threshers are running at
a loss of from \$15 to \$30 per day.

J. N. Jones of Cottage Grove, made
his daughter, Mrs. F. R. Caspell, a
visit over Sunday. "Newt" is doing
well at the Grove and looks prosperous.
—Stayton Mail.
