FRIDAY, SEPTEMBER 28, 1900.

FOR PRESIDENT  
**WILLIAM MCKINLEY**  
OF OHIO

FOR VICE-PRESIDENT  
**THEO. ROOSEVELT**  
OF NEW YORK.

The 15th annual session of the Oregon Press Association was held at Ashland on Wednesday, Sept. 19. The attendance was small, but a representative body. The principal meeting was held in the parlors of the Hotel Oregon, consisting of the president's address, reports of committee, resolutions, receiving of new members, and election of officers, which was as follows: President, Rev. A. N. Fisher; 1st Vice-President, F. S. Harding; 2nd Vice-President, Arthur Conklin; Secretary, Albert Tozier; Treasurer, L. Couch; Sergeant-at-arms, the retiring president, James Stewart. Place of meeting for the next annual session was left with the executive committee. The secretary's report gives the number of state publications as follows: Dailies 19, weeklies 173, semi-weeklies 5, monthlies 44, semi-monthlies, 2, and one quarterly, a total of 244.

Last Saturday the business men of this city did a rushing trade, which was fully up to if not in larger volume than for any single day this fall. The streets were filled with teams which came in with wood, hay and farm produce and went out loaded with store goods. Joe Cole and the Pitcher brothers pulled out for Bohemia and the mines with their big freight wagons piled high with supplies for the dwellers in the hills. Many strangers were seen upon the streets and looking over the residence portions of this flourishing burg with an eye to future investment. Thus far the fall trade has been good and all signs indicate a continuance of trade. Money is in free supply and our people are not confining themselves to necessities alone, but are acquiring many of the little luxuries which elevate the taste, please the eye, and throw a charm and comfort about the domestic circle.

Advices from the north say that on Sunday night a terrific gale swept over the Gulf of Georgia on the Alaskan coast. The wind blew at the rate of 80 miles an hour and carried everything before it and the waters were lashed into fearful and furious waves. When a bad storm does strike that section the waters of the Gulf of Georgia become the most choppy, ugliest and most dangerous of all that coast, as the writer well remembers, for he came mighty nigh going to Davy Jones' locker on the old Hudson Bay steamer Otter in 1874.

The Roseburg carnival and street fair was an unqualified success. The enterprise was well conducted from its inception to the finish. It brought out the best that that enterprising city had and was fully appreciated by the many who went to see. Such exhibits are wonderful helps in pushing and holding trade and the business men of Roseburg deserve great credit for their public spirit and energy.

**THE LAW'S REALM.**

Judicial Oversight and Legal Technicalities Bring the Executive Officer in close Touch with the City Bastle.

Friday last was full of surprises in various directions and what might be called a red-letter day in local and legal official circles; a judicial edict from the justice court started the legal firmament to whirling and as its momentum increased it gathered into its enfolded net the constabulary and its auxiliaries, and by evening it had harpooned the innocent cause of the morning edict. Peace and brotherly love have for many moons held a charmed sway over this community, and the legal and official lights that are wont to search out the iniquitous places and things, have been renewing acquaintance with the primeval forest and mountain streams, communing with nature and taking on fresh inspiration to fortify them for the bread-winning trials when it would be necessary to stock the larder and fill the woodshed against the ices of winter. A metallic speck on the horizon had been gathering for some little time and by Friday last it had matured so far as to be in tangible shape and was sought after thusly: Recently action was filed for restitution of premises; case went by default; execution issued and ejectment attempted; overtures made to higher court; a sovereign citizen deputized and warrant issued to arrest the law's legal representative and his deputed accessory; speedy trial for trespass with several waives and hitches; hair-splitting quibbles by legal deciples; oil on the troubled and knotty kinks by the learned judge; a wet blanket on the minion of the law that tried to do his sworn duty in carrying out the mandate of the inferior tribunal, and a judgment for trespass and fine of the aforesaid official to the tune of one dollar and costs. All this tempest in a teapot or much ado about little arose through the inadvertent negligence of the lower court to affix its name and official rank to the order of execution delivered to the officer who attempted to carry out its provisions. It was an oversight that made the document void. Courts are not infallible and as a case in point the higher court sent out an officer that same afternoon with a subpoena that was not signed and had no seal attached and on which the witness refused to materialize, and which caused the adjournment of proceedings to an evening session, out of which nothing decisive was reached and the trial went over into Saturday forenoon to reach its successful closing. Out of this case several others grew and caused no little agitation in the law's realm during the earlier part of the week.

A document was filed at Roseburg Monday which conveys a five-sixth interest in much valuable property in the Bohemia mining district to Isaac H. Bingham and others. John W. and Christina Cook are the grantors, and \$60,000 is given as the consideration. The document is ornamented by \$60 worth of revenue stamps, and there is no question that the sale is bona fide.—Oregon Mining Journal.

Proselyting by the Mormons in Ohio is attended with much bodily harm. The other day two missionaries got off the train at Mansfield and were immediately taken in hand by a mob, marched to the buggy works, stripped naked and painted from head to foot with a tar-like substance; it was matted in their hair and no part of their bodies escaped but their faces. They were then partly robed and driven out of town. The people of Ohio are determined that polygamy shall not take root in or be recruited for in their state.

TAKE THE NUGGET.

**BOHEMIA'S WEALTH**

A Few Facts Concerning One of the Leading Properties.

The following letter from A. B. speaks volumes for the dawning of a bright and lasting future for Bohemia, and the figures given surpass in magnitude the wildest flights of values ever attributed to the ores of that, soon to be known world-wide, mineral belt. Think of it! \$249,806.30 to the ton:

BOHEMIA, Ore., Sept. 24.  
EDITOR NUGGET—Dear Sir: If you will allow me space in your valuable paper I should like to furnish some data regarding the Stocks, Harlow & Brush property.

The first rich strike was made about July 1, 1900, the ledge being 3 feet wide and the general assay was \$450. If it would only continue, people said, it was a good thing. It continued. For 30 or 40 feet this shute extended, and its terminus could only be ascertained by the intersection of another shute which was far richer in the yellow metal, and its assay value was \$13,600. My! but if it would only continue it would be a daisy, but it went, so some of the prospectors said; but it did.

Mr. Editor, inclosed please find a certificate of assay from J. W. Cook, assayer, of a picked sample of ore from the famous Stocks, Harlow & Brush property which assays \$249,806.30, and it still continues.

The owners of this fine property are now fitting up their 5-stamp mill with a view of making a fall run. But for the lack of fuel this mill would, no doubt, make the hills and woods resound with the noise of its continuous pounding.

Snow has begun to fly and it is hardly likely that fuel can be obtained this fall. Could the mill run continuously (which it could but for the lack of fuel) no doubt 20 or 30 men would find employment at this mine. Five men are now employed on this property and there are 60 tons of ore in the ore bin. The outcome of this fall's run is hard to estimate. A. B.

R. A. Millet of Saginaw was in town this week and made a pleasant call at Nugget office.

W. H. Moon of Jefferson is in town on the lookout for a business proposition. It is hoped he may find something to suit him and in the future be one of the useful adjuncts to this fast growing city.

Charles Destel of the Areturus mine in Bohemia has been in town several days and now departed for Portland on business. He has been pushing development work on his mine all summer and has two tunnels in some 60 feet each which will tap the ore body about 100 feet below the surface. The work shows up very fine and he is highly elated over the future of his property.

**LORANE ITEMS.**

James Hartley went to Corvallis Saturday where he will attend the O. A. C. the coming year.

Stanley Lockwood is home from Bohemia.

Messrs. J. Atkinson and Frank Crow Jr., went to the Black Butte mines Monday where they will remain for a time.

Mr and Mrs William Ogle from Washington, are visiting Mrs Ogle's brother P. F. Davis and family.

David Hartley went to Southern Oregon Tuesday where he will spend the winter.

William N. Crow and son Eliza went to Eugene Friday. Mr Crow returned home Saturday but Eliza remained to attend high school at that place.

Mr and Mrs I. P. Ioman went to Eugene Thursday and returned Friday.

Our public school began Monday with Mrs. J. C. Powell in the chair and a large attendance.

Born to Mr and Mrs Joe Schneider Sept. 22, 1900 a daughter, Dr. Snapp was in attendance.

**MOTHERS!**

Don't Let Baby Suffer.  
THERE IS ONLY ONE THING KNOWN for aiding the teething process and slow growth in infants and children, and that is, for very obvious reasons, called ANTIFRET. It stops the fretting, restlessness, general feebleness, colic and diarrhoea. Prevents brain troubles and convulsions. Renders lancing gums unnecessary. It has been estimated that five millions of babies die annually for want of mothers knowing what to do. Dentition is the dangerous period of child life, far too serious to be dismissed with the careless remark "Baby is cutting her teeth." Your child needs home making material. ANTIFRET supplies this want. Is tasteless, dissolves in milk and taken easily. One box will save your baby untold misery. Sent postpaid by return mail on receipt of 50 cents. Full instructions with each. Address INLAND DRUG CO., 2341 Washington street, San Francisco, Cal. Antifret so certainly relieves teething babies that we will on all packages sold by mail refund the money by sending stamps in full for those returned within 30 days not over one fourth used.

**Lurch's** WE HAVE RECEIVED ALL OF OUR WINTER GOODS AND THE SAME WILL BE SOLD AS CHEAP AS ANY PLACE IN THE VALLEY. Such as Ladies' Jackets and Golf Capes Misses' Jackets and Golf Capes Children's Jackets and Golf Capes

THEY ARE ALL MADE THE LATEST STYLE

**Lurch's**

**DR. DARRIN.**  
Can be Consulted Free at Sherwood Hotel, Cottage Grove, to Oct. 6 and May Remain to 15th.  
More Cases Cured.  
Mr. Editor: For 20 years prior to going under Dr. Darrin's treatment in Portland five years ago, I had been badly afflicted with catarrh of the stomach and bladder. I was terribly bloated with dropsy and dyspepsia I had given up all hopes of relief, but thanks to Dr. Darrin I was cured of all the above mentioned diseases, and I still enjoy the best of health.  
I reside at Coos City, six miles from Marshfield, and will gladly answer any questions by letter or in person. I heartily recommend Dr. Darrin.  
C. C. PRATT.  
TOTAL DEAFNESS RESTORED.  
MR. EDITOR: I wish to state for the benefit of the public what Dr. Darrin has done for me. For 35 years prior to going under Dr. Darrin's treatment for deafness, I have been totally deaf in my right ear, and partially so in the other. With one month's treatment by Dr. Darrin and his new method of cure by electricity, I am rapidly gaining and can hear a watch tick in an adjoining room which I have not heard for 35 years. I most earnestly commend Dr. Darrin.  
I am employed as plumber at Churchill & Wolley's hardware store, Roseburg, and can be referred to by letter or in person.  
J. A. MEIER.  
Mrs. R. H. Humphrey 432 L St., Portland, cured after nine doctors had failed, of painful menstruation and womb trouble in every conceivable way, general debility, pain through the heart and lungs.  
To the public: I will say Dr. Darrin has about cured me of a long standing rheumatism, liver, kidney and bladder trouble and believe I will be permanently cured by electricity and medicine.  
March 3rd, 1900.  
CYRUS POWELL.  
All paying cases will be treated at half former prices. Batteries and belts furnished at half the price sold by other firms. Correspondence solicited. Circulars and question blanks sent to any address. The treatment of female diseases a specialty, as well as seminal weakness, varicocele, stricture and lost manhood.  
W. H. Cole, ex-assessor of Douglas county, writes as follows concerning Dr. Darrin:  
Dr. Darrin, Dear Doctor:—Yours of the 17th received. In reply will say that my eyes got all right in a few days and my ear is improving.  
W. H. COLE.  
The poor treated free except medicine. Patients can be cured by home treatment after one visit to the doctor's office.  
MILLINERY OPENING.  
Mrs. J. S. Medley desires to announce that she will have her usual Millinery Opening on Saturday, September 29th, 1900. The ladies are most cordially invited to call and examine her fine display of latest designs in fall and winter millinery.  
John Orrell has removed his household effects to Eugene and will reside with his family there this winter.
