What to Wear!

When women see a stylish, handsome jacket, you often hear them say, "Oh dear, I wish I had one like that, but I'm sure it costs so much."

Now it's the surest thing in the world they're not familiar with the PALMER GARMENT. They're absolutely correct for style—none made any more perfect as to that, and the price is within reach of any woman's pocket-book.

My! if every one could see them, how easy it would be to settle the question of WHAT SHALL I WEAR?

Eakin & Bristow.

Mines and Mining

Devoted to Bohemia Notes and Items of general interest to Mining Men.

The weekly summary of mining notes that usually occupies this space in the Nugget was omitted last week on account of matter that could not well be held over and also to await fuller and more complete details in reference to the recent uncovering of the rich strata of ore in the Stocks, Harlow & Brush property, and other very valuable strikes in other portions of that vast mineral region called Bohemia.

Since several weeks ago when the lucky owners of the Stocks, Harlow & Brush property ran into the body of ore which assayed \$13,600 per ton, they have steadily followed the vein about 40 feet and have now run into a crosscut slute which goes \$249,806.30 to the ton. This streak is about two inches wide on the hanging wall and the gold in it literally holds the rock together. The whole width of the drift is splendid milling ore. Experts who have gone to look at it say that it is the richest ore they ever saw. The last authentic reports from the mine was that there was then in sight and taken out over 4 tons, which would be over \$1,000,000 in hand. It is told that the owners of the Vesuvius mine, which adjoins, offered to make a deed of their valuable mine for two car loads of this rich ore, which offer was refused. As the work goes forward the ore body increases and the values are retained. This property a month ago could have been purchased for something like \$100,000, but today it is not for sale at any price. It is understood that the 5-stamp mill on this property has been put in thorough repair and started up on the ore already in the bin, of which they have on hand about 60 tons of high grade. When the gold product of this mine begins to come out the mining world will be in a flutter and many eyes will be turned toward Bohemia.

Graber & Ziniker of the Vesuvius mine are energetically driving their tunnel, which is in a large body of ore that assays \$128 to the ton. The work in progress will be continued all winter, and when a length of 250 feet is attained they will have tapped the ledge at a depth of 300 feet or more.

A few days since the famous old Musick ran into a mineral body of galena ore which is of high grade. This property has had considerable fluctuation. Since it was first offered for sale at \$65,000 it has produced over \$130,000 and today it is a grander and more valuable piece of property than it ever was. As development goes ahead it is proving its worth and stability day by day.

At the Helena mine two more slutes of splendid ore have been encountered. At the end of the drift in the old workings a body of base ore was come upon which is 4 feet wide and averages \$80 to the ton. A new drift has been started further up the hill and fine free milling ore is being taken out and stored, which is of high grade and will be worked later on. The mill is running steadily. The accumulated concentrates are being piled up to hold for future shipment. The additional 5 stamps that were recently hauled in are being set up as rapidly as possible and the new rock breaker is being put into position. Everything is taking shape for the future enlarged working of this valuable property, and the Helena will render a good and full account of herself ere long.

E. S. Lovelace of North Dakota, Brockman Holm and J. E. Ostrander have organized the Sunrise Company out of a group of mines on Adams mountain. Stock has been printed to the amount of 1,000,000 shares and Mr. Lovelace has gone east for the purpose of disposing of a few blocks of it. This company has done much development work and have several tons of ore on the dump which will assay \$40 a ton. Three men are steadily employed and will hammer away in the tunnel all winter, as ample provisions and mine supplies have been taken in. Mr. Lovelace is the gentleman who bought out the Jordan interests recently which joins on to the Sunrise Company.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says M. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines but to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by Benson Drug Co., Cottage Grove, Lyons & Applegate, Drain Druggists.

Charles Wright has completed a fine addition to his house. His wife has been quite sick but is now mending fast. William F. Canady, through sickness, has severed his connection with the Hotel Eugene, and is now at home trying to get well. Mrs. M. C. Smith and her daughter Chloa made a visit to Cottage Grove last Saturday and were entertained at the home of C. C. Coffman.

For sprains, swellings and lameness there is nothing so good as Chamberlain's Pain Balm. Try it. For sale by Benson Drug Co., Cottage Grove, Lyons & Applegate, Drain Druggist. Subscribe for the Nugget—all the Bohemia mining news, \$1.50 per year.
