How is ground?

The May lede or lode is about 30 feet wide where it crops out with two good pay streaks; one on the hanging wall with an average width of about 4 feet, the other on the foot wall, but it is not crosscut yet, so I can not say how wide it is only from the surface, where it appears to be between 2 and 3 feet wide. The ore on the hanging wall assays all the way from \$27.00 to \$58.00, while the base filling between the two streaks assays from phate of iron, but there is very free gold and some of it will go druggist. better than \$20.00 per ton without the concentrates.
