FRIDAY, MAY 31, 1901.

The Cottage Grove boys never said they could play ball—so there! just thought so.

Some insect is playing all sorts of pranks with the foliage of the fruit trees in this section of late. The leaves are curling up and dying.

Slugs and cutworms are doing no small amount of damage to the early gardens in this vicinity. Corn and beans are, in some instances, being striped as fast as it comes through the ground.

Farmers should not let the creamery question get out of sight. It is successfully operated throughout the state today, and there are few communities in the state of the population of Cottage Grove and vicinity, that are not doing a flourishing creamery business.

A trip through the valley will convince one that the business houses of Cottage Grove have nothing to complain of in the matter of trade. All along the line you hear comments about the dull times. Here in Cottage Grove, while business is not as brisk as at certain times in the year still the trade has kept up wonderfully well.

There is a time in almost every young man's life, says a wise observer, when he imagines he is really a warm number. When he grows older and, by experience, accumulates a store of good common horse sense, he views the same class of boys with disgust. He meditates on his past, and wonders if he was ever such a fool. A smart Aleck is about the most despicable mortal that ever drew breath, but the law forbids killing them, and people have to grin and bear his presence in the community.

We read a great deal about "pigeon shoots." It is told how so and so captured first honors with the score of 93 out of a possible 100 kills. The seven birds supposed to have escaped are, as a rule, wounded in such a way that they can pass the enclosure to meet a worse fate, that of being killed by small boys. If the pigeon was a harmful bird instead of a pretty, harmless creature as it is, these cruel persons who call themselves sportsmen, might be excused. The slaughter of pigeons go on year after year, with constantly more followers. And our easy government goes on putting down the pastime of cock-fighting in Cuba and the Philippines.—Guard.

Did any of the farmers say they would like to hear a lecture on the creamery subject? If so speak a little louder. If a number of those interested in the subject will express a desire to learn a little something about the industry, by giving voice through the columns of the Nugget, the columns of which paper are always open to the discussion of subjects calculated to be of benefit to the public, this paper will use every possible effort to secure the services of a gentleman thoroughly conversant with the business, and who can tell us more in fifteen minutes than we could otherwise get after many hours of research. We cannot well afford to let this opportunity slip, and the advantage should be taken at once. Every day the creamery proposition is put off every day do we invite a certain amount of capital to remain out of our hands. The industry means much to this community and all we have to do is to reach for it and it is ours.

NOTICE TO TAX PAYERS.

The 1900 assessment rolls will be closed June 15th. W. W. WYNNIS, Sheriff and Tax Collector.

Good and Bad Eggs

There are eggs and eggs; the egg of yesterday looks, feels, measures and weighs like the egg of last year, but there's a slight difference in another respect, and that difference is worth money. It's just so with printing; the difference between the good work and the poor is slight to the unpracticed discernment, but it's a difference that counts every time. It costs money but it makes more—its difference that changes the printing bills from an expense to an investment We do good printing—it may cost you a little more than poor work, but it is worth double or treble the difference.

DIVIDE ITEMS.

School closes May 31st. Basket dinner and large program last day of school. Mr. Tucker has returned from his trip down the valley. We heard that a girl was born to Mr and Mrs Jacob Gewitz Monday morning.

Roy Coffin has sold his property in Eugene and intends to make his home here. John Robinson and Roy Coffin went to Eugene last Saturday returning Sunday. Mr and Mrs James Mackey were up from Hudson visiting Mr and Mrs Tramel and family the first of week.

Miss Hattie Canady of Yellow Creek was visiting her friend Miss Lilly McDaniel of Buckhorn Prairie last week. Richard Tapp attended the meeting of Echo Lodge at Cottage Grove Friday night and was initiated. He says their kindness and hospitality would be hard to equal.

THREE PARDONS.

Governor Geer has up for practically final consideration three cases of application for pardon.

A very strong case has been presented in favor of Lührman sentenced from Baker county for killing a man, and there is no objection from any source. In the case of Robert Jordan of Malheur county, sentenced for larceny of a cow, there is no opposition and he will probably go free.

The application for the pardon of treasurer Morris of Linn county is backed by nearly everybody in that county. During his second term a shortage of \$3800 was discovered but there was no evidence that he ever got a cent of the money, or that the loss was due to his negligence. If a suit of his bondsmen in the supreme court was decided, the Governor would feel inclined to pardon him.—Salem Journal.

TO HAWAIIAN ISLANDS.

Mr. and Mrs. E. C. Smith and daughter, Miss Winifred, leave Saturday afternoon for San Francisco, at which place they will embark on the steamer City of Pekin, June 6th, for the Hawaiian Islands, arriving in Honolulu on June 13th. From thence the party will go to Hilo, Hawaii, to visit at the home of their son Carl, who is circuit judge of the fourth judicial district of Hawaii. They expect to remain in the Islands until the middle of September.—Eugene Register.

Helmet Lodge, K of P of Eugene, is arranging for a field day meet at Bangs' park in the near future. The various lodges in the Willamette valley will be invited to participate, and a general good time is looked forward to by the knightly band.

TELEGRAPH LINE.

Telegraphic communication will soon be established to Wendling. Eight carloads of telegraph poles and a carload of other supplies have been received at Springfield, and as soon as possible this line will be erected and an operator placed at Wendling.—Guard.

In the spring time gentle Annie
There's a swell in the back yard
And an odor in our city
That hits the stranger hard,
It's an argument for sewerage
But there is another plan:
You can go to the New Era Drug Store
And you may buy a can of Chloride
of Lime.
It's very fine
Take it in time
Don't lose a dollar
To save a dime.
Call early and avoid the rush.
