Mines and Mining

Devoted to Bohemia Notes and Items of general interest to Mining Men.

Oregon last year produced \$690,000 more of gold than did its sister state of Washington, and yet Washington has three smelters in operation and Oregon none at all.

F. J. Hard, secretary of the Oregon Mining Stock Exchange, recently made a tour of the Bohemia district, and in a letter to the Daily Mining Record describing his trip, says that sylvanite has been found in Fairview mountain.—Oregon Mining Journal.

The Jennings Bros. owners of the Helena and Helena No. 2 gold mines, Bohemia district, Lane county, Oregon, say that they would gladly contract to send 500 tons of ore daily to a Portland smelter—and no smelter here to accept the offer.—Pacific Miner.

The Granite Hill consolidated mines, situated on Louse creek, about eight miles north of Grants Pass, were bonded this week to Colonel J. Wiggings, of Minneapolis, for \$75,000, by Messrs. Booth, Mangun, et al. The first payment on the bond is due September 1. The balance to be paid within eighteen months at intervals of ninety days. This is a placer and quartz mine combined, the placer having been worked for several years, while the quartz mine has a five stamp mill on it. A force of men was sent out this week to begin development work, and next week it is the intention to put on a larger force.

J. D. Meyer, of Portland, returned to that city from Buffalo on Thursday, and in an interview with a reporter of the Telegram said: "There is not another mineral display in the exposition that can surpass that of Oregon. Southern and Eastern Oregon mines are well represented, although Eastern Oregon has the best collection of the two mining districts. Specimens from every mine are plainly marked, and the whole is tastefully arranged. Fred R. Mellis, of Baker City, is a hustler, and is booming the mines of this state in an energetic manner. He was the only one in the mineral building who was enterprising enough to give away samples of ore. He placed several specimens in pasteboard boxes and distributed them liberally where they would do the most good. In short, the mineral display of Oregon is one of the features of the Pan-American Exposition."

State News.

The wheat harvest will be begun in Umatilla county June 25, or at the usual time. The season has been cold and unusually moist, yet the grain appears to have matured about as early as in previous years.

The Dusty postoffice near Harrisburg was entered by robbers Friday night and \$35 in 2-cent stamps were taken. The miscreants went in at the front door, and it is thought they had a key to fit the lock.

Monmouth has again been visited by fire. Sunday morning about 9 o'clock the Normal book store was discovered on fire. The alarm was given but owing to lack of water, and the great headway already gained by the flames, which soon spread to the postoffice adjoining, little could be done. Two dwellings south of the postoffice burned to the ground, as did also the barber shop and dentist's office. This is the third bad fire Monmouth has suffered in the last few years, besides numerous smaller ones, and it seems that a good water supply is necessary. The business houses were all insured but the contents of all were a total wreck.

DIDN'T MARRY FOR MONEY.

The Boston man, who lately married a sickly rich young woman, is happy now, for he got Dr. King's New Life Pills, which restored her to perfect health. Infallible for Jaundice, Biliousness, Malaria, Fever and Ague and all Liver and stomach troubles. Gentle but effective. Only 25c at Bessos Drug Co's drug store.

The S. P. R. Co. will make extensive improvements on their Oregon lines this summer. As soon as practicable the steam shovel will be moved to the river pit at Harrisburg and will re-ballast their entire main line, placing about 18 inches of gravel upon the roadbed. This will place the roadbed up to the standard of Eastern roads.

The Medford merchants have signed an agreement for Sunday closing of their respective places of business and "further agree, for the sake of religious privilege and bodily rest to encourage a quiet Sunday within the borders of their city." A fine not less than fifty dollars is adjudged on each and every offender of the agreement, said sum to be paid into the city treasury.

Black Horn, a Umatilla Indian, was found in a canyon of the Blue mountains Tuesday forenoon desperately wounded by two rifle shots. He was shot from ambush and whoever did the shooting left the Indian to welter in his own blood. Black Horn was out on bail on the charge of attempting to murder Chief of Indian Police Brisbow Saturday night. It is charged that Black Horn was shot under secret orders from Brisbow.

A TERRIBLE EXPLOSION.

"Of a gasoline stove burned a lady frightfully," writes N. E. Palmer, of Kirkman, Ia. "The best doctors couldn't heal the running sore that followed, but Bucklen's Arnica Salve entirely cured her." Infallible for Cuts, Corns, Sores, Boils, Bruises, Skin Diseases and Piles. 25c at Bessos Drug Co's.
