THE BEST REMEDY FOR STOMACH AND BOWEL TROUBLES.

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by Benson Drug Co., Cottage Grove. Lyons & Applegate, Drain.

SHE DIDN'T WEAR A MASK.

But her beauty was completely hidden by sores, blotches and pimples till she used Bucklen's Arnica Salve. Then they vanished as will all Eruptions, Fever Sores, Boils, Ulcers, Carbuncles and Felons from its use. Infallible for Cuts, Corns, Burns, Scalds and Piles. Cure guaranteed. 25c at Benson Drug Co's.

BURNING OF SLASHING.

Slashing will burn on the property of P. A Lindstrom, situated in section 11, township 21 south, range 4 west in Douglas county, Oregon, on or about July 29, 30, 31, 1901.

Warning is hereby given to owners of adjacent property to protect the same.

A. SODERSTROM.

WHITE MAN TURNED YELLOW.

Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by Benson Drug Co. Druggist.

A GOOD COUGH MEDICINE.

Many thousands have been restores to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial for it is certain to prove beneficial. Coughs that have resisted all other treatment for years, have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by Benson Drug Co., Cottage Grove. Lyons & Applegate, Drain.

SOUTHERN CALIFORNIA.

Notably among the pleasures afforded by the Shasta Route is the winter trip to Southern California and Arizona. Renewed acquaintance with this section will ever develop fresh points of interest and added sources of enjoyment, under its sunny skies, in the variety of its industries, in its prolific vegetation and among its numberless resorts of mountain, shore, valley and plain.

The two daily Shasta trains from Portland to California have been recently equipped with the most approved pattern of standard and tourist sleeping cars, but the low rates of fare will still continue in effect.

Illustrated guides to the winter resorts of California and Arizona may be had on application to

FARMING BY MAP.

The following interesting article from the Oregonian will be of worth to our farmer friends who look forward to securing one of the maps when they are issued:

A soil map, printed in colors, will soon be issued by the Department of Agriculture, the object being to make known to the farmer, wherever he is located, in the most lucid manner possible, just what crops will bring him the most certain and profitable returns. The map is to cover the entire area of the United States, and will be on such a scale that every ten-acre patch will be represented by one-eighth of an inch square. Each farmer will be able to procure a chart of his own locality on a larger scale, so that he can arrange his planting in accordance with the suggestions made. The work is first done by townships, and these are joined to make counties, which are finally combined into states. The result will be, not to make farming easy, since work is the tribute which nature exacts of those who would convert her domain to the uses and needs of man.

But it will make returns from agricultural labor more certain and profitable. It is explained that hitherto the business of farming has been to some extent guess work. The farmer formed a surmise as to what crops his lands would produce most abundantly, and proceeded on this basis with his planting. From a study of this map, it is supposed that experiment will be largely eliminated from agricultural and horticultural work. Prune trees will not be planted in soils where in the very nature of things they will not thrive; lands suited to certain grasses will not be wasted in the vain attampt to grow cereal crops that will not properly mature or return a profitable yield of grain, and so on throughout the agricultural calendar.

To enlighten farmers properly on the subject, this map will call attention to certain conditions of soil which have been subjected to thorough chemical analysis. One of these is acidity—a property that has often been recognized by observant tillers of the soil, who have yet lacked the knowledge to correct or utilize it. Another is excess or deficiency of certain elements of plant growth, which can be corrected or supplied by fertilizers, and yet another is alkali. For the last science has ascertained both the source and the remedy. With the latter the agriculturist is chiefly concerned, and it is held to consist in underdrainage to wash out the alkali and to prevent the acumulation of seepage water in the subsoil. So it goes on—this land for cotton, that for wheat; this for garden truck, that for corn; this for grasses of one kind, that for those of another; this for hops, that for flax, or perhaps both will flourish side by side and can be so grown as a diversity of products.

Truly, if the farmer is not the most successful of all citizens of this republic, it will be because he prefers plodding to planning, and neglects to study the book of knowledge which science and a generous government has opened to him. The old idea that boys could engage in farming successfully simply because they were boys, and that no special instruction in the vocation beyond acquiring the art of running a straight furrow was needed, has fallen into line with the other idea that every girl or woman, because of a simple generic fact, was able, without special instruction, to cook and perform household work generally. And it may be added both are obsolete, except where common sense still struggles in an environment of ignorance which science in more enlightened places has penetrated and dispelled.

Of course, men are still found who still plant their potatoes in the moon, as did ther great-grandfathers, and women still abound who, under the belief that their daughters are born housekeepers, send them out into the world of domestic service wholly unacquainted with the details of the vocation, but these are being evolved from practical life as fast as agricultural colleges, soil maps, farmers' institutes and cooking schools can do it. Let the good work go on, even though in prosecuting it there are frequent stumblings, and many ludicrous and costly mistakes.

IT DAZZLES THE WORLD.

No Discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. It's severest tests have been on hopeless victims of Consumption, Pneumonia, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. Coughs, Colds, Asthma, Croup, Hay Fever, Hoarseness and Whooping Cough it is sold by Benson Drug Co. who guarantee satisfaction or refund money. Large bottles 50c and $1.00. Trial bottles free.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hope of recovery. I took a bottle of Chamberlain's Colic, Cholery and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. Sold by Benson Drug Co., Cottage Grove. Lyons & Applegate, Drain.

Cottage Grove Real Estate
AGENCY
Improved Farms for Sale.
Valuable Town Property, consisting of Business Houses and Splendid Residences.
Lots on the principal business streets.
Mining Claims in Bohemia.

Abstract of title secured and guaranteed.
Information as to the laws governing the disposal of government lands,
How to secure homesteads, timber lands, mining claims, etc.
Property for sale published weekly.

COTTAGE GROVE is the second city in Lane county, Oregon. Has a population of about 1,200. The center of the four points of the compass when it comes to ingress and egress. Bohemia with its vast mining resources only thirty-five miles south east, with a good wagon road leading from the S. P. R. R. depot right here in town. Prospective railroad to the mines. The Coast Fork of the Willamette river, on which is situated the Black Butte quicksilver mines, sixteen miles south, flows through the center of the city furnishing abundant water facilities. It is only a mile and a half to its confluence with Row river, the outlet of the great timber ranges to the south east. Westward toward the coast range is an inexhaustable supply of timber, interspersed with numerous rich farming lands well improved and cultivated.

North or south from here on the S. P. railroad you can reach either Portland or San Francisco and be in touch with the whole world on short notice.

Water works in full operation. Electric lights and telephone system complete.

☞ The best agricultural lands in Lane county lie in the vicinity surrounding Cottage Grove on either side, fit for farming or stock raising.

Correspondence solicited.

A Few of our Bargains:

Good and Bad Eggs

There are eggs and eggs; the egg of yesterday looks, feels, measures and weighs like the egg of last year, but there's a slight difference in another respect, and that difference is worth money. It's just so with printing; the difference between the good work and the poor is slight to the unpracticed discernment, but it's a difference that counts every time. It costs money but it makes more—its the difference that changes the printing bills from an expense to an investment : . : : : : : We do good printing—it may cost you a little more than poor work, but it is worth double or treble the difference.
