## TO OPEN RESERVATION.

Bids to be Advertised for Survey of the Quinalt Reserve.

Olympia, Wash., Aug. 1.—Surveyor General Kingsbury has received instructions from Commissioner Binger Hermann, at Washington, D. C., to advertise for bids for the survey of the Quinalt reservation in Chelalis county. The reservation, when surveyed, will be about 10 townships, or between 225,400 and 250,000 acres, which is to be thrown open for settlement, presumably in homesteads, after the survey is completed and approved.

For several years various people have been working by petition with the federal government to have the reservation thrown open, but the order for its survey comes somewhat as a surprise, it not being expected so soon. On this reserve there are about 200 Indians, and each one of these will be allotted 80 acres for a homestead. All the rest will be open for settlement through the United States land office at Olympia.

It will, in all probability, take several years for the completion of the survey and its approval by the United States general land office at Washington. Bids will be advertised for at once, and let during the month of August, after which, according to Surveyor General Kingsbury's intention, work will be rushed so that as much as possible will be finished this summer. The minimum time in which the survey will be completed is placed at 18 months, with a maximum of three or four years.

## TRAIN WAS HELD UP.

Five Masked Men Stopped Passenger Near Chicago—Failed to Find Treasure.

Chicago, Aug. 2.—The Baltimore & Ohio passenger train from the East, which was due to arrive at the Grand Central station, Chicago, at 9 o'clock last night, was held up by five masked men at 8 o'clock last night, between Edgemoore and Grand Calumet Heights, Ind., 31 miles out of Chicago. One of the mail cars, which contained no money, was dynamited and wrecked. The attempt at robbery was made after the two mail cars had been detached from the train and run a quarter of a mile ahead. The failure of the robbers to make a rich haul was due to the fact that the express car, which contained the train's treasure, was in an unusual place. After wrecking the mail car and obtaining no booty the men disappeared in the darkness without attempting to rectify their mistake. The only loot they carried away with them as a result of their adventure was the gold watch of the engineer. The train was the New York and Washington vestibule limited. Most of the trainmen were shot at and had narrow escapes from bullets. No person was injured, either by firearms or dynamite.

## REWARD FOR LORD ROBERTS.

English House of Lords Votes Him a Snug Fortune for Work in South Africa.

London, Aug. 2.—In the house of commons today, proposing a resolution granting Field Marshal Lord Roberts £100,000 for his services in South Africa, J. Balfour, the government leader, in the course of his eulogy of the field marshal, said that there was no doubt that but for Lord Roberts' daring and strategy, and the rapidity with which his plans were carried out, Kimberly and Mafeking would have fallen, 11,000 British would have been starved into submission at Ladysmith, and there would have been a general rising of disloyalists in South Africa. The Liberal leader, Sir Henry Campbell-Bannerman, concurred in the motion. John Dillon, Irish Nationalist, strongly opposed the vote. He declared Lord Roberts had shown the greatest inhumanity in South Africa, and said he had employed barbarous methods and had proved himself a dismal failure. Mr. Labouchere, Radical, and Mr. Kier-Hardy, Socialist and Independent Labor, also strongly opposed the measure. Swift MacNeil, Irish Nationalist, said he considered Lord Roberts' operations were conducted with a maximum of cruelty and a minimum of humanity, and that his farewell speech at Cape Town was horrible hypocrisy and blasphemy. After further debate Mr. Balfour moved the closure, which was carried. The resolution was adopted by a vote of 281 to 73.

## GENERAL WOOD ON CUBA.

He Says the Americans Can Settle Up and Get Out Within Eight Months.

New York, Aug. 2.—General Leonard Wood, military governor of Cuba, who is now on board the dispatch boat Kenawha preparing for a cruise along the coast of New England, said today, in discussing Cuban affairs: "Cuba is a totally undeveloped island, and has a great future before it. Yellow fever, in another year, will cease to be epidemic. We have not had a single case of yellow fever in Havana this summer, and none in Eastern Cuba for two years past. Cuba's resources require time for development. The last enormous sugar crop was raised on 8 per cent of the entire sugar producing lands. Only this small percentage is under cultivation. "We have \$1,500,000 in our reserve fund, and can pay all our debts and get out of Cuba within the next eight months. We have established 3,600 flourishing schools. Two years ago we were obliged to provide about 100 orphan asylums to protect the destitute children. Since then we have abolished 60, and expect to be able to close more before we retire from the management of Cuban affairs. Our health compares favorably with that of the troops in this country, showing that the island is healthy."

Should such a hitch occur the signing may be indefinitely postponed.

## LOOKING FOR WAY OUT.

San Francisco Employers and Labor Leaders Confer—Strike May Be Called Off.

San Francisco, Aug. 5.—Conferences have been held today with a view of bringing the pending local strikes to a close. While no appreciable result has been gained, Mayor Phelan, who is laboring hard to bring about an adjustment, expresses confidence that the controversy will end within a week. Labor leaders and prominent merchants are alike hopeful that tomorrow at the latest will see peace restored, and the striking workmen will return to their former employment.

Mayor Phelan has in his possession a letter from the City Front Federation asking for more light upon features of the terms of peace upon which the employers insist. This letter will be laid before the Employers' Association and numerous conferences held. Whatever decision is reached will not directly affect the striking iron workers, who are not included in the City Front Federation of unions.

The new features of the day involved Oriental labor. The Japanese Labor Union voluntarily called upon Japanese employed on the water front to stand in with the strikers, and the Chinese crew of the steamer Coptic was prohibited from working ashore by the Federal authorities, in pursuance of the exclusion act. In response to a protest by labor leaders that the Chinese crew of the Coptic was doing work ashore, Chief Chinese Inspector Dunn received instructions from Assistant Secretary Taylor and Commissioner Powderly to order the crew back to the Coptic and to prevent and further infractions of the law.

Eight or nine vessels were working on the water front today, an increase over yesterday. At the Pacific mail dock the remainder of the freight and baggage was placed aboard the Coptic, and she left on schedule time.

## TO UNITE ALASKA AND SIBERIA.

Report of Big Concern Backed by French and American Capital.

St. Paul, Aug. 6.—The Pioneer Press says: Robert Barbier, manager of the Russo-China bank, of Peking, representative of the Russia government and manager of the Manchuria railway, who is at present in St. Paul, is said to be connected with a tremendous scheme of railway construction destined to unite Alaska and Siberia and furnish rail and water connections between Circle City and Vladivostok, the eastern terminus of the trans-Siberian railway, at a cost of \$200,000,000.

The enterprise, it is stated, has the backing of the Bank of France and powerful money interests in the United States. It is to be essentially a French-American undertaking, for which capital is already in sight should it prove feasible.

The length of the proposed railroad from Circle City to Behring sea will be about 2,000 miles, and on the coast of Siberia to Vladivostok is 1,800 miles. If the concessions are secured from the United States and the protection afforded the property of the company is adequate the primary survey will commence shortly. M. Barbier, it is stated, is in the United States for the purpose of obtaining information as to the probable attitude of the government towards the proposed line.

## THE MOUNTED PATROL.

First Step on the Part of China for the Protection of Travelers.

Washington, Aug. 6.—The state department has received, through Mr. Squieres, secretary of the legation at Peking, a note from Li Hung Chang, describing the regulations for the control of the mounted patrol, which it is proposed to establish along the road between Ching Ting and Pao Ting Fu.

Mr. Squieres says this is the first step on the part of the Chinese authorities toward the protection of foreigners traveling through the disturbed districts of the provinces of Shan Si and Chi Li. The regulations are quaintly expressed, but in substance they provide for the establishment of military posts at nine stations on the road, the commanders of which are to furnish escorts for travelers. The escort is to keep within 12 feet of the traveler, whose pace must set theirs. It is to disperse people who gather about the traveler and are boisterous, and its members are not to accept any pay from a traveler under pain of dismissal. A post will be forwarded every two days.

## THIRD MAN NOT NAMED.

No News Given Out Regarding the Schley Court of Inquiry.

Washington, Aug. 6.—Acting Secretary Hackett had expected to be able to announce the name of the third member of the Schley court of inquiry today, but could not do so up to the time the department closed. Nevertheless, it is surmised that he has heard from at least one of the rear admirals he has addressed on the subject, and that he has communicated the result to Secretary Long, and will await his pleasure before making any announcement. Secretary Long has specially delegated the task of making a selection to Acting Secretary Hackett, but as a matter of courtesy, it is probable that he will be made acquainted with the choice before it is made public.

## Will Manufacture Arms and Ammunition.

Tien Tsin, Aug. 6.—The governor of Shan Shun, Yuan Shi Kai, is constructing arsenals in that province for the manufacture of arms and smokeless powder. He is engaging experts who were formerly employed in the arsenals here. The Chinese are also manufacturing arms and ammunition at Pao Ting. Trade is improving, but the attitude of the Chinese is sullen and defiant.
