

A MINISTER'S GOOD WORK.
 "I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." ASTONISHED THE EDITOR.
 Editor S. A. Brown, of Bennettville, S. C. was once immensely surprised. Through long suffering from Dyspepsia, he writes, "My wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and after using four bottles, she was entirely well, can eat anything. It is a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles its a positive, guaranteed cure. SOUTHERN CALIFORNIA.
 Notably among the pleasures afforded by the Shasta Route is the winter trip to Southern California and Arizona. Renewed acquaintance with this section will ever develop fresh points of interest and added sources of enjoyment, under its sunny skies, in the variety of its industries, in its prolific vegetation and among its numberless resorts of mountain, shore, valley and plain.
 The two daily Shasta trains from Portland to California have been recently equipped with the most approved pattern of standard and tourist sleeping cars, but the low rates of fare will still continue in effect.
 Illustrated guides to the winter resorts of California and Arizona may be had on application to
C. H. MARKHAM, G. P. A., Portland, Oregon.

HORSE SENSE—EVIDENCE THAT HORSES REASON.
 A remarkable instance of equine sagacity was exhibited recently which is testified to by several reliable witnesses. Thomas Drummond, a teamster of Janesville, Wis., as related by the Gazette of that city, owns a horse which has been afflicted with lameness for two or three weeks. One morning Mr. Drummond turned him out upon the common, hoping that fresh air and exercise would benefit the animal. Upon gaining his liberty the crippled horse hobbled along on three legs direct to the blacksmith shop of William Edger, entered the shoeing department and stood there holding up his injured foot, with his head turned and his eyes intelligently fixed upon Mr. Edger. This peculiar act upon the part of the animal attracted Mr. Edger's attention and induced him to examine the foot held invitingly up for inspection. The result of the examination was the discovery of a long nail driven into the frog, the cause of the lameness, which Mr. Edger removed. Mr. Drummond generally had his horses shod at Edger's shop and the suffering brute undoubtedly reasoned that this was the place for him to go for relief. Equine intelligence, according to the common acceptance of the term, is not so rare.

QUEEN OF MONEYMAKERS.
 (From Profitable Advertising)
 The American hen has to a certain degree come into her own. By the poultry press she has been crowned the "queen of money-makers." Statistics of the most imposing kind have been piled up in great array to demonstrate her earning capacity. While the census bureau has not attempted to collect poultry statistics as thoroughly as it might, and while the statistical bureau of the national agricultural department has not attached the importance to the industry which those most interested in it think it deserves, still, there is sufficient reliable data at hand to show that the poultry products of the United States reach very nearly the \$300,000,000 mark annually. Every year the setting hen and the busy incubator, between them, turn out 3,500,000,000 chicks which live long enough to reach the market in one form or another, while the annual egg crop is fully 13,000,000,000 dozen.

BUTTER AND CHEESE.
 Farmers are Making Money on Products of the Dairy at the Present Time.
 Butter having sold for about 17 cents a pound all summer, shows a good, healthy tone in the market generally, although at times it has been a trifle lagging. At this figure it is said creamery and dairy men can make money by the "barrelful," as one commission man remarked today. While he may be a little off on the barrel proposition, it is generally contended that farmers producing butter at 17 cents a pound do much better than on wheat at an average price. The demand, too, for Oregon butter has been and continues very good throughout the north and east and on the average of 24,000 pounds are handled weekly through Portland. This speaks volumes in favor of diversified farming, a subject now being given considerable attention by farmers in the Willamette valley. Cheese is also a commodity meeting with ready demand, and manufacturers are pleased with the outlook.

CLOVER FOR STOCK.
 If one could raise good crops every year of clover and corn, there would be little difficulty in providing stock with suitable food, says a Michigan farmer. Clover I regard as a double ration, taking the place really of hay and grain. It is possible to winter horses and stock on clover alone without producing any ill effects or reducing them much in

weight and strength. This I would not advocate except as an experiment or in an emergency. What our stock needs is variety, and while clover might supply both hay and grain constituents there would be the possibility of inducing sickness and poor appetite from the lack of variety. Clover, of course, produces a direct beneficial effect upon the soil and adds to it more than the corn take away. Persistent cultivation of corn on any field must in time reduce the soil fertility to such a low point that succeeding crops will suffer. With clover as a part of a rotation there would be little chance of such soil degeneration.

What most people want is something mild and gentle, when in need of a physic. Chamberlain's Stomach and Liver Tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by **BESSON DRUG CO.**
