

FOOTBALL ON SATURDAY.—

The second team of the Eugene High School came to the Grove on Saturday last to mix up on the gridiron with our local Coming Men of America. The Eugene boys came in large force to witness the game and the town was just full of boys of high degree. Our boys were much outclassed and lost the game, but they put up a strong front and the lads from the county seat early in the struggle discovered that they had to play ball and keep right at it. Our lads ranged from 14 to 17 years and the visiting team lined up from 17 to 20. It was an exciting game and held the interest of a large crowd of spectators throughout the play. When the play was over the boys from Eugene were pleasantly entertained by the lads and lassies here and all had a merry time.

REVIVAL MEETING.—

Rev. Baker, the Texas evangelist, is holding protracted meetings at the Presbyterian Church nightly. In point of numbers to attend the reverend sky pilot seems to have his share of novitiates who hope eventually to climb the golden stairs. Thus far but few sinners have sought the stool of repentance, but those on the anxious seat are momentarily expecting the spirit to move. Rev. Baker is hurling hot shot into the devil's ranks and eagerly waiting to pour the anointing oil of salvation over the repentant sinners. A moral wave hit the town pretty hard a year ago and quite a number got in out of the wet slough of despond, but some of them backslid. Once again the gates are open and all are invited to come into the fold.

FINE MINERAL DISPLAY.—

One of the handsomest displays of ore in town can be seen at the Benson Drug Store. It is all taken from the 1000 foot tunnel of the Musick mine under old Bohemia mountain. The character of this fine ore is base and its assay value is away up in the hundreds. Doc Patterson has given up nearly all of one of the big show windows of the store to this splendid display of specimens and all who like to look at fine rich ore can now have an opportunity to feast their eyes.

GETTING READY.—

During the past week J. W. Cook has ordered and had shipped to the Musick mine large invoices of supplies, thus more than doubling the usual quantities provided for winter consumption in past years. It is not decided just when a force of men will be put to work on the mine nor how large a force, but provision is being made for an event of that kind and it is not at all unlikely that active and energetic work will follow in the near future.

HELENA ORE.—

On the return trip from the Helena mine this week Joe Cole brought out 4500 pounds of base ore from the new chute recently opened up through the lower tunnel. This ore goes \$339 in gold, besides silver, copper and lead. The freighters will continue to bring out return loads of this splendid ore until a car is filled for shipment.

WIRE CONNECTION.—

J. L. Jones has secured the right of use to string a wire between his ranch and the old Major Chrisman property four miles from town recently purchased by him. He has built and now has in use a fine two-story building and will make many other improvements in that direction. When he gets things fixed as he has planned he will have a model dairy farm.

THE FUNNY FOUR.—

The colored troupe known as the Funny Four held down the stage at the Opera House on Tuesday evening. They did not attract much of an audience, but they gave a much better show than several larger troupes that have visited this town. Their performance was clean and continued without waits from start to finish and was well received by the audience present.

GONE HUNTING.—

Early Sunday morning last a finely equipped outfit passed out of the east limits of town headed for the Johnson Meadows and the wilds beyond Bohemia. The guiding spirits that accompanied the caravan were Mayor Robert Veatch, Councilman W. C. Johnson, R. W. Veatch and George Comer. They are hooked up for bear, wolves and deer and expect to be gone over a week. When they get back there will be a new set of wonderful adventures put on the market.

Since the above was put in cold type these doughty hunters have returned. They got as far as the Musick mine in Bohemia, from whence they intended to pack. At this point they ran into a snow-storm; the weather was mighty forbidding and there was no telling how long it would last so the hunt was abandoned and they regretfully took the back track. Their friends are much disappointed for it has cut off the supply of yarns that were relied upon to enliven the coming winter evenings.

THE CRYSTAL CON. CO.—

Through the intercession of H. D. Scott the Crystal Consolidated Mining Company has been placed upon the lists of the Portland Mining Exchange. This move will give the stock of that company a prestige in eastern markets where the bulk of the stock will eventually be placed. From this point of view there is but one sentiment, and that is the mines are all and more than their promoters claim for them. This property is being handled by men of integrity and of worth and standing in this community and the representations they make for this property are honest and truthful and must carry that weight which will bring success. Work on these properties is being systematically prosecuted and results are being attained far beyond the hope of the promoters. Investors in the stock of the Crystal Consolidated Company will in the future have cause to congratulate their foresight.

LLOYD'S HORSE FOUND.—

Some four months since the fine riding animal belonging to George W. Lloyd one day suddenly disappeared while he was saddled and bridled and left at the foot of Hardscrabble. Search was made for the animal in every direction, but he had completely vanished and not a trace of him could be found. Last week Billy Higgins and Ben Curry were on a deer hunt beyond the Adams mountain and discovered the horse down in a deep ravine and very sadly emaciated. There was some five acres for him to feed on but not a drop of water until the recent rains. The horse must have slid off the trail into the ravine, for there is no way of getting him out. Mr. Lloyd, Billy Higgins and Ben Curry have gone to the rescue of the poor animal and will bring a trail and get him out of his prison ravine.

THE FISCHER-VAN CLEVE SHOW.—

S. Guy Hirsch has billed Cottage Grove this week for the entertainment you will read about in another column. If the show is as lively and up-to-date as the agent, it will be a good thing. You have all to gain and but a paltry sum to lose and if the aggregation pans out all right you can congratulate yourselves that you have entertained angels unawares. If Mr. Hirsch is not the biggest liar on earth his show will be a joy to the entertained and a financial success to the entertainers. He gave us season tickets and we shall see his show and if there is any hocus-pocus about it we will let the people know. If S. Guy Hirsch is a fair sample of the show, we say take it in and you will be glad you went.

PARLOR ORGAN FOR SALE.

The Knights of Pythias have a second-hand parlor organ for sale which is in good condition. For information apply to Ben Lureh, J. S. Modley or Dr. Wall.

LADIES' GOLD WATCH FREE.

EAKIN & BRISTOW.

Personal Paragraphs.

George Lea has gone to Blue River to do the work of assessment on some fine claims he owns near the Lucky Boy.

R. W. Tompkins and family of Fairfield, Iowa, arrived in the Grove this week. He is a brother-in-law of J. L. Jones.

J. L. Jones and family returned this week from their extended visit to La Plata, Missouri, the home of his boyhood. They had a pleasant visit.

Miss Mertie Robert of Los Gatos, California, is on a visit to her uncle and aunt, Mr. and Mrs. Charles Van Denburg. She will remain here for some two weeks.

Charley Henderson and wife were in the Grove this week from Leona. They came by private conveyance and renewed acquaintance with their many friends here.

Ed Wilson and Harry Martin will make a hunt on the East Fork next week. Their initial point will be Amos and was betide the bear, cougar, wolves and other varmints in that section.

C. F. Mitchell was down from Bohemia this week on business and went back to the mines. Charley did not forget to have the Nugget follow him so he can keep in touch with events going on in the valley.

John Cochran, while working with the cut-off saw at the Booth-Kelly mill No. 1 last week, nearly severed his second finger of the right hand. Dr. Joh dressed the wound and that finger will be good as ever soon.

John Barker and Walter Baker came back on Sunday from their hunt on the head waters of Mosby creek. They had fairly good success, had a good time and brought back a quantity of venison for the delectation of their friends.

Bern Veatch this week brought to the Nugget office two splendid Bartlett pears as specimens of the second crop grown on his trees this year. It is not every country that can raise a second crop of such delicious fruit.

Joe Van Ness an old-timer in these parts but who for some time past has been mining in Southern Oregon, not far from Merlin, on the Jump-off Joe creek, is back again in the Grove and renewing fellowship with his old friends.

Ed Heland came up this week from Yoncolla. He has taken his old place for a short time in the store of L. Lureh. His many friends here are pleased to see him back again, and his smiling face will lend an added luster to the goods he will offer you when you call.

John Harms has got back from the Oregon-Colorado mine, after delivering the last load of supplies for winter use at that property. He brought out a load of sacked ore which will be shipped to F. J. Hard at Portland. This ore is of high grade and is a fair average of the ore that is now being taken out of that property.

P. J. Jennings was down this week for a couple of days from Portland. He went out over the line of survey of the Cottage Grove and Bohemia Railroad for some seven miles, took in the situation as it grows, and by his advice and consultation stimulated the endeavors of all. He is much pleased with the progress thus far made.

J. W. Cook came down from the Musick on Wednesday. He says there was some four inches of snow mantling the treasure vaults of Bohemia and the white covering of the "beautiful" extended down the mountain to near Hardscrabble road. J. W. was in the pink of health and good-spirits and looked as bright as a new coin just out of the mine.

B. C. Marcus, owner of the Utopian group of mines which are located between the Adams and Elephant mountains in Bohemia district, was in town this week on business and returned to his property. During the past summer Mr. Marcus has built traps, a good cabin and blacksmith shop and done much work on each of his claims, and his groups at the present time is in fine shape and showing up to his entire satisfaction.

I. J. Taylor was in town from his ranch near the Divide this week and brought to the Nugget office half a dozen of the finest Baldie apples ever seen in this section, and also one Bonanza Baldwin which is more than double the size of the others. They are faultless in appearance, with smooth, bright skins and not a blemish on them or a worm hole. Many thanks Mr. Taylor and we will keep them to hang on the New Year tree.

F. J. Hard, the efficient and energetic secretary of the Portland Mining and Stock Exchange, made a flying trip to the Grove on Thursday. He was looking after his interests in the Oregon-Colorado property. This splendid group of mines is fast coming to the front and its development is being systematically pushed forward. Next week Mr. Hard will go east in the interest of Oregon mines and will not be back until the holiday season.

Scott Chrisman was this week called to Central Point to attend the funeral of his stepmother, Mrs. Louinda Chrisman. She was but three days short of 95 years old. The interment was at Riddles, in the old family plot where rests the remains of his own mother. She had for many years made her home with Mrs. Ann Beall of Central Point, having lost her husband in 1885. She will be sincerely mourned by a large circle of friends and relatives.

A TELEPHONE LINE.—

Parties are now here from the east with the object in view of constructing a telephone line into Bohemia. The project is taking shape in real earnest and it is not at all unlikely that in a few days arrangements will be concluded whereby operations in that direction will be put in a practical shape. Things are moving all along the line now and the ground-floor people are getting a hustle on.

Valuable mining property in Bohemia for sale. Jerome Knox and Co.

Local Breveties.

Buy your grass seed of Eakin & Bristow.

Get doughnuts, hot buns and rolls for supper at Brown's bakery.

When you need medicine to alleviate the suffering of yourself or those of your loved ones go to the Benson Drug Company's store and get the best.

FOR A SOCIAL CLUB.—

Steps have been taken and an organization effected for the establishment of a social club for men, to contain a reading room, bath house and an up-to-date gymnasium. If the proper amount of enthusiasm and financial encouragement is met with this new enterprise will be inaugurated in the near future and will be located in the building now occupied by Jenkins & Lawson on Fifth street. This is a move in the right direction and will redound to the betterment of social conditions in our thriving town. When a more mature stage is reached in the affairs of this new departure a minute detail will be given our readers.
