Nothing-New in That.

"You can't dispute the miracles in the Bible, man, why just consider the raising of Lazarus!"

'Humph! I've seen people raised that have been dead longer than Lazarus. Why my wife raises Cain every day!"-Denver Times.

Dogs of Alaska.

The dogs of Alaska are called mala-They are a cross between a dog and a wolf and work in harness soon after birth. They do not bark, but have a peculiar howl. They have long hair and can sleep in the open with the thermometer 60 degrees below zero. Their usual food is fish and seal blubber. They are led once a day, usually at night.

Brooklyn, N. Y., Nov. 18th. A Medical authority says: "In many families throughout the world tiarfield Tea often takes the place of the family physician, for practically everyone suffers at times from disorders of stome b, liver, kidneys or bowels. Certainly from no other modicine can such good results be obtained. This Herb remedy makes people well, thus preatly increasing their capacity for enjoying life. It is good for young and old.

'FINESTLAND OUT OF DOORS."

Millions of Acres of Canadian Terri-tory So Described by Travelers. L. A. Hamilton and Land Commissloner Griffin have arrived in Winnipeg after a three weeks' drive through 500 miles of what Mr. Hamilton says an American would call "the finest block of land that lies out of doors." This taskiwin through Battleford east, north to the Vermillon Lakes, across into the Blackfoot Hills, then to the Saskatchewan River, from there south to the Trapping Lake district and east again to Sankatoon

"The object of our journey," said Mr. Hamilton, speaking to a Free Press reporter, "was to note the resources and progress of this district for intending settlers. Mr. Griffin had not been over this ground before and it was to bim a trip of great value on this account. What we saw confirms the view I have taken that here lies one of the richest tracts of land in the world. We found that settlers have pushed their way in and are located not only on land all along the rallway, but 10 miles on each side of it. The soil in all parts we saw is of the richest, and timber and water plentiful, except an eastern tract lying south of Eagle Hills, where timber is scarce. In the Battleford district, lying 120 miles from the railway, we found excellent fields of grain being grown, but in the majority of the farthest districts cattle raising is the chief industrys Bettlers are pushing their way out from Calgary and Edmonton east as far as the Buck Lakes, 100 miles from the rallway."

Game throughout this district, Mr. Hamilton states, was very pientiful-Long live the King! The King is In fact, too plentiful, "We were told Wisard Oll; Pain his enemies, whom that the prairie chickens were so thick." said Mr. Hamilton, "that disease among them had developed and they were dying off in thousands. This I am told, occurs about every seven years, when the ravages of the disease are much more destructive than that wrought by the hunters after feathered game. There is no searcity of fresh ments, however, and in many of the farming districts or ranching properties the owner has his own game preserves.

"On this tract of 25,000,000 acres there is no reason," concluded Mr. Hamilton, according to the Winnipeg Free Press, "why 500,000,000 bushels of wheat could not be raised and this will be the case some day not far dis-

FOOTBALL STAR MARRIES.

New Jersey society was greatly interested in the wedding of Miss Elizabeth Sill to William Heath Bannard. Every Princeton man who has watched Billy" Banuard, the best halfback who ever wore the Tiger stripes of old Nassau, make his twenty-five yards around the end toward the Yale goal line will congratulate him upon winning one of

ELIZABETH BANNARD.

the prettiest of the younger society set of New Jersey.

She is a graduate of the Woman's College of Baltimore and a member of the Gamma Phi Beta, a leading woman's college fraternity. The bride is tall and graceful, with chestnut hair and dark eyes. Her college popularity followed her when she came home from Baltimore and made her debut two seasons ago.

Turned the Tables.

A lecturer was once descanting on the superiority of nature over art, when an irreverent listener in the audience fired that old question at him; "How would you look, sir, without

your wig?"

"Young man," instantly replied the lecturer, pointing his finger at him, you have furnished me an apt illustration for my argument. My baidness can be traced to the artificial habits of our modern civilization, while the wig I am wearing"-here he raised his voice till the windows shook-"is made of natural hair!"

The audience testified its appreciation of the point by loud applause, and the

speaker was not interrupted again.

A Real Weeping Willow. One of the curiosities of an English residence of nobility is a weeping willow made of copper, and so dexterously fashioned that at a distance it resembles a real tree. It is actually a shower bath, for, by pressing a secret button, a tiny spray of water can be made to burst forth from every branch and twig, to the discomfort of any who may be under it.

Nearest Approach to the Poles. Explorers have approached within 238 miles of the north pole, but the nearest approach to the south has been 772 miles.

When a man quits abusing his rival it is a sign that he has his rival down.
