

# Catarrh

Is a constitutional disease. It originates in a scrofulous condition of the blood and depends on that condition. It often causes headache and dizziness, impairs the taste, smell and hearing, affects the vocal organs, disturbs the stomach. It is always radically and permanently cured by the blood-purifying, alterative and tonic action of

## Hood's Sarsaparilla

This great medicine has wrought the most wonderful cures of all diseases depending on scrofula or the scrofulous habit. Hood's Pills are the best cathartic.

### Relics of an Age Long Past.

The petrified forests of Arizona were recently examined anew under the direction of the general land office. The silicified logs lie in the greatest abundance within an area of eight square miles in Apache county. In some places they lie more thickly than they could have stood while living as trees, and it is thought they must have been carried there by a swift current of water in the mesozoic age.

### Dogs Work in Relays.

The 1,980 miles between Skagway and St. Michaels, Alaska, are covered by 600 dogs, working in relays of 25 miles, in four and one-half days. Between White Horse and Dawson, 140 horses are kept going day and night in relays.

### FITS Permanently Cured.

Dr. Roswell Park, one of the physicians who attended President McKinley, is a son of the Rev. Roswell Park, D. D., who founded and was the first president of Racine college, Racine, Wis.

### Present of Philippine Products.

President Roosevelt was recently presented a handsome cane and several pieces of cloth manufactured in the Philippine islands by A. Abren, a Filipino merchant traveling in this country to get a knowledge of American mercantile methods.

### Piso's Cure cannot be too highly spoken of as a cough cure.

The magistrates of Madrid, at a recent meeting, voted the sum of 250,000 pesetas for the erection of eight statues of Lope de Vega, Murillo, Moratin, Ventura-Rodriguez, Goya, Arqueles, Quevedo and Salamanca.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable, science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

### Fire Escape Instructions.

A descriptive article on Norway contains some striking instructions for the use of fire escapes taken from a local hotel, of which the following lines are part: "The plaited snorter shall be found in every room. To increase the hurry, let down the body one by one until all shall be left. The cord shall put out the ground from the shoulder thereunder."

### Nationality of Our Presidents.

President Roosevelt is the second president of Dutch ancestry, Van Buren being the first. Of our other chief executives, 14 have sprung from English stock, five from Scotch-Irish, three from Scotch and one, Jefferson, from Welsh.

### Never Sick, Weaken or Grip.

"But none of the other girls seem to admire my new dress." "Is that so?" Turn around. I didn't realize it was so pretty as that."—Philadelphia Bulletin.

## A CIVIL WAR HEROINE.

### Story of Jennie Wade, Who Was Killed at Gettysburg.

Jennie Wade's grave, which is located beside her parents' in the Citizens' Evergreen cemetery, adjoining the Philadelphia National cemetery, is now marked by a monument erected by the Women's Relief Corps of Iowa. The pedestal is of American gray granite, the four sides of which are highly polished. Surmounting the pedestal stands a fine Italian marble statue of Jennie Wade. On the sub-base, in large raised letters, is the name "Jennie Wade." The inscriptions on the monument are as follows: "Jennie Wade, aged 29 years 2 months, killed July 3, 1863, while making bread for the Union soldiers." On the opposite side: "Erected by the Women's Relief Corps of Iowa, A. D. 1901."

On another side, "Whatever God willeth must be, though a nation mourn." On the side opposite this, "With a courage born of loyalty she bathed done what she could." The committee in charge of the erection of the monument, after receiving bids from various sections of the country, had placed the contract in Gettysburg. It is modeled after the design selected by Mrs. G. W. McClellan, a sister to Jennie. It is said that the figure and features of the statue present a good likeness of the heroine. The cost of the monument is about \$1,000 and it stands over ten feet high.

JENNIE WADE AND HER HOME.

The house in which Jennie Wade lived at the time of the battle is apparently a one-story double brick house, as viewed from the outside. However, on entering it is found to have two rooms on the first floor on each side of the house, and a stairway in the rear room leads to a second floor, where two plastered rooms are found, each having a small window in the end of the house, the sides of the house being alike.

At the time of the battle that neighborhood possessed fewer houses, and this one, being located on high ground, was in full view of the Confederate sharpshooters, who deemed it as a possible headquarters of the Union army and thus it was that this house was a mark for many bullets. The marks of over a hundred which struck the house have been counted. The holes through the small window panes, sashes and doors are plainly visible, and apparently as if made but yesterday. The house at the present time is used as a museum and among the numerous relics displayed is shown the six-inch shell that passed through the upper part of the house, entering the roof, passing through the middle wall and dropping on the outer side of the house.

The positions of the doors and the windows of the house are as they were on July 3, 1863. A number of bullets passed entirely through the two window sashes. The marks of these bullets display the position of the windows and the doors at that time. The door, as seen through the back window, displays a number of bullet holes which were as clearly pierced as if made by an snger. The bullet that proved fatal to comely Jennie Wade, who was then 20 years of age, passed through the panel of the outer door and through the door between the rooms, which was opened at the time, and pierced the breast of the heroine, who had been performing her household duties at the time.

Her married sister lay sick abed in the room adjoining at the time, and she, too, had a narrow escape from death. Curiously it was that at almost the same moment a Confederate colonel fell near the place that Jennie had fallen. The Confederates were occupying the grounds just then. They had taken care of the dead colonel's body and had constructed a rough coffin for his interment, but later a Federal column took possession of the grounds, the rude coffin was secured and used for the interment of the heroine Jennie. Later her body was removed to the Citizens' Evergreen cemetery, which adjoins the National, where it now rests. Every memorial day, says the Philadelphia Record, her grave is decorated with flowers and the small American flag placed thereon by the G. A. R. post.

### Blind People in Russia.

There are more than twice as many blind persons in Russia as in the whole of the rest of Europe. They number 190,000, which is equivalent to two in every 1,000 of the population. In Great Britain and France the proportion is not quite 1 per 1,000. It is believed that blindness in Russia is so prevalent because of the length of time which snow lies on the ground, and also owing to the uncleanly habits of the people.

### Manner.

Manner is one of the principal external graces of character. It is the ornament of action, and often makes the commonest offices beautiful by the way in which it performs them. It is a happy way of doing things, adorning even the smallest details of life.—Self Culture.

## To Mothers of Large Families

In this workaday world few women are so placed that physical exertion is not constantly demanded of them in their daily life. We make a special appeal to mothers of large families whose work is never done, and many of whom suffer, and suffer for lack of intelligent aid. To women, young or old, rich or poor, we extend an invitation to accept free advice. Oh, women! do not let

Mrs. Carrie Belleville.

your lives be sacrificed when a word of advice at the first approach of weakness, may fill your future years with healthy joy. Address a letter to Mrs. Pinkham's Laboratory, Lynn Mass., and you will not be disappointed. "When I began to take Lydia E. Pinkham's Vegetable Compound I was not able to do my housework. I suffered terribly at time of menstruation. Several doctors told me they could do nothing for me. Thanks to the Pinkham advice and medicine I am now well, and can do the work for eight in the family. "I would recommend Lydia E. Pinkham's Vegetable Compound to all mothers with large families."—Mrs. Carrie Belleville, Ludington, Mich.

Mr. Astor cannot be a peer of England because the law prohibits naturalized subjects from attaining to that dignity. Mr. Astor has tried so hard to get away from his fur and felt ancestors that he has brought it to the notice of all the world, and got nothing else for his pains except disappointment. It is a wise son who accepts his own pedigree.—Pittsburg Times.

## WOMEN OF THE UNITED STATES

Regard Peruna as Their Shield Against Catarrh, Coughs, Colds, Grip and Catarrhal Diseases.

Mrs. Belva A. Lockwood, Late Candidate for the Presidency.

Mrs. Belva Lockwood, the eminent barrister of Washington, D. C., is the only woman who has ever been a candidate for the presidency of the United States. She is the best known woman in America. As a pioneer of her sex in the legal profession she has gathered fame and fortune. In a letter to the Peruna Medicine company, she says:

"I have used your Peruna both for myself and my mother, Mrs. Hannah J. Bennett, now in her 88th year, and I find it an invaluable remedy for cold, catarrh, hay fever and kindred diseases; also a good tonic for feeble and old people, or those run down, and with nerves unstrung."

Yours truly,  
**Belva A. Lockwood.**

Peruna cures catarrh by removing the cause, inflamed mucous membranes. Dr. Hartman, the compounder of Peruna, once said in a lecture to women: A great number of women consult me every year. I often have occasion to say to these patients: 'I fear you have catarrh, madam.' They will generally reply, 'Oh, no, I never had catarrh. My nose is perfectly

clear, and my breath is not bad. I am not troubled with coughing or spitting, or any other disagreeable symptoms of catarrh.' 'But you may have the catarrh all the same. Catarrh is not always located in the head. You may have catarrh of the lungs, or stomach or liver, or kidneys, and especially you may have catarrh of the pelvic organs.' The doctor went on to say: 'I have been preaching this doctrine for the last 40 years, but there are a vast multitude of women who have never heard it yet. Catarrh may attack any organ of the body. Women are especially liable to catarrh of the pelvic organs. There are one hundred cases of catarrh of the head. Most people think because they have not catarrh of the head, they have not catarrh at all. This is a great mistake and is the cause of many cases of sickness and death.'

Mrs. T. Pelton, 502 St. Anthony venue, St. Paul, Minn., writes: "Peruna has done wonders for me. It has cured my headache and palpitation of the heart; has built up my whole system. I cheerfully recommend Peruna to all sufferers afflicted with catarrh. My mother is never without Peruna."

When one is tired and generally out of sorts, if Peruna is taken it immediately removes that tired feeling. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of the Hartman Sanitarium, Columbus, O.

Mrs. T. Pelton.

**SYRUP OF FIGS**  
IS AN EXCELLENT FAMILY LAXATIVE—  
REFRESHING TO THE TASTE  
AND ACTS PLEASANTLY AND GENTLY.  
IT ASSISTS ONE TO OVERCOME HABITUAL CONSTIPATION PERMANENTLY

With many millions of families Syrup of Figs has become the ideal home laxative. The combination is a simple and wholesome one, and the method of manufacture by the California Fig Syrup Company ensures that perfect purity and uniformity of product, which have commended it to the favorable consideration of the most eminent physicians and to the intelligent appreciation of all who are well informed in reference to medicinal agents.

Syrup of Figs has truly a laxative effect and acts gently without in any way disturbing the natural functions and with perfect freedom from any unpleasant after effects.

In the process of manufacturing, figs are used, as they are pleasant to the taste, but the medicinally laxative principles of the combination are obtained from plants known to act most beneficially on the system.
