N. E. Elsea & Son.

City Electrical Co., Nattle Creek, Michigan,

WHY DO WOMEN FRET?

For some reason it is noticed that ports at the same time. the women do not take as kindly to the work incident to the care of their homes as men do to the work their homes as men do to the work ship, and without those blessings plements in the fields to rust .- a deal if you overlook this. instance there will be ten times as Learn to love your books, for there much kicking and jawing about is pleasure, instruction and friendwashing the dishes and the like among a lot of girls as there will be among boys who have much is pleasing to books. Go to church, for the church helps to ease the pains of life, 4 isten to music whenever is a state of the church helps to ease the pains of life, 4 isten to music whenever dirtier work to do in caring for the stock on the farm. Men put more enthusiasm into their work, no matter if it be hard, drudging and every way unpleasant, while so many good women seemingly resent the fate which compels them to perform the drudgery of the home. Why cannot women accept their limitations and invest homemaking and home keeping with the same enthusiasm that men put into their business? One reason is is that so few girls are ever taught how to care for a home in a businesslike and intelligent manner. and so work all their lives at a disadvantage, doing work in the hardest way and ignoring a hundred economies and methods which would make their work easier and more pleasant. We will put it this way-the average American girl is allowed too much liberty, is not sensibly and practically trained and is taught that the chief end of her existence is to secure some man who will take care of her and provide for all her wants. Reform on these lines is needed, not only for the sake of the woman herself, but for the sake of her husband and children.

You can buy any preparation at J. P. Currin's that is advertised in any paper. Remember we make a specialty of family receipts.

BOOTH-KELLY LUMBER CO. Take the Lohemia Nugget.

The five splendid properties comprising the mining claims forming this company are located in the great Bohemia Mining District in Lane and Douglas counties, Oregon. These properties have had much work done upon them, so that now they are embryo mines with an assured future. The stock of this company is now upon the market. Its par value is \$1 It is non-assessable. Its principal office is in Cottage Grove. For development purposes a limited amount of stock has been authorized to be sold at 3 cents per share. Two of the claims-the Mountain Lion and El Calado-

are on the now famous Helena lode. These two claims have had over 600 feet of tunnels run on them and the face of the tunnels are now in solid ore,
