KNOWLEDGE IS WEALTH!

Do you know

That a Railroad is being constructed from Cottage Grove to the Bohemia Mining District through one of the finest timber belts on the Pacific Coast?

Do you know that the ore now being transported by wagon from the Bohemia Mining District to Cottage Grove is the same character that made Cripple Creek famous?

Do you know that this ore from the Helena Consolidated Mine contains values from Four to Eight Hundred Dollars per ton, and is being shipped to the Omaha Smelters through Long & Bingham's warehouse.

Do you know that the present population of Cottage Grove will double in the next eighteen months?

Do you know that the fine, high, slightly tract of land adjoining Cottage Grove (formerly owned by G. W. Long) has been platted in lots and acreage and is being offered on terms that will enable you to double on your investment in a very short time?

The above is a few of the facts with which we can make you acquainted if you will call upon us or write.

HARVEY K. HINDS.

Harvey K. Hinds, the noted pioneer writer and historian and distinguished Methodist preacher died in Portland last Sunday morning, January 19, aged about 73 years. He was a native of Herkimer county, New York, and came to Oregon in 1852. He has been an influential preacher of the Methodist church for nearly fifty years and has been active in the upbuilding of the state. He is the author of a history of the northwest, a large and interesting volume in which the lives and deeds of many of the early settlers are recorded, preserved for future reference. More than twenty years ago he was the republican nominee for representative in congress but was defeated by the democratic candidate, ex-Governor John Whiteaker of Eugene. His second wife was Mrs. Jenkins of Eugene. Few preachers have served longer or exerted a wider influence in Oregon than H. K. Hinds.—Journal.

THE TEACHER'S FAULT

School teachers sometimes ask their pupils queer questions, if one may believe a story told by the youngest member of the Withington family.

His mother one morning discovered a shortage in her supply of pies, baked the day before, and her suspicions fell upon Johnny.

"Johnny, she said, 'do you know what became of that cherry pie that was on the second shelf in the pantry?'"

"Yes, ma'am," he replied; "I ate it. But I had to."

"You had to!" exclaimed his astonished mother. "What do you mean, child?"

"The teacher asked yesterday if any of us could tell her how many stones there are in a cherry pie, and I could not find out without eating the whole pie, could I? There's just a hundred and forty-two."—Youth's Companion.

GOOD-BYE, TELEGRAPH

Illinois Central Proposes to Substitute "Hello" Service.

Telephones will soon supplant the telegraph on the entire Illinois Central system. Contracts have been let for the equipment of the railroad's 5000 miles of lines with the new service.

The management plans to abandon the telegraphic means of communication in favor of the voice-carrying wires. All train orders and messages of every sort are to be transmitted by the long-distance apparatus instead of the telegraph key.

The Illinois Central railroad owns and operates more than 5000 miles of road. To equip this with the new system will cost about \$100 a mile, or \$500,000 for the entire task.

THE ROOT OF ALL EVIL

A remark fraught with wisdom was uttered under tragic circumstances by a New York physician a short time ago. He was called to the bedside of a young man of a fine family who had just ended his life by putting a bullet through his heart. The doctor was a family physician and had known the youth for years. He shook his head sadly as he raised the lifeless hand and let it drop.

"He was a boy of brains," he said, "but he had too much money ever to amount to anything."

That was the root of the evil in this case, as it is in so many others. The young man had a settled income. It turned his mind from work. He led the life of an idler.

He had no ambition, no pride. He dawdled here and there, he became a lounge about the theaters, he picked up acquaintances who were a damage to him. And finally, when he tired of it all, he resorted to the revolver and brought the worthless game to an end.

"He had too much money ever to amount to anything," said the family doctor, and it is a remark rich in moral warning.—Cleveland Plain Dealer.

MILK IN POWDER FORM.

London Mail.

At the last monthly meeting of the Swedish Agricultural Society, Dr. M. Eckenberg, a well-known chemist, made an important communication which is of great interest for the dairy industry. The professor has discovered that the substantial essence of milk can be reduced to a fine powder. If this powder be dissolved in a certain quantity of water it becomes again ordinary milk, with all its nutritive qualities, its taste and smell. Experiments with this milk powder were entirely successful, and the discovery, as is so often the case, was a pure accident, which has given the most extraordinary results: The milk powder, or flour, is rather like ordinary flour, and can be packed in wood or tins, or even in sacks or paper bags.

THE WASTE OF TIMBER.

St. Paul Pioneer Press.

Lumbering has been going on in Minnesota for over fifty years, during which time it is probably safe to say that \$120,000,000 worth of pine has been cut. Of this amount perhaps \$20,000,000 worth was granted to railroads. How much has the United States received for all this pine? Beginning with the year 1849 and up to October, 1897, the exact and total amount that the United States has received for all lands sold in Minnesota—agricultural as well as timber lands—was just \$7,280,599.40. If these splendid pine forests had been managed on forestry principles the general government would have received many more million dollars, and Minnesota herself would have been in a much better situation.
