

LECTURE BY PROF. HAWLEY

A large and appreciative audience greeted Prof. Hawley at Martin's Hall, last Friday evening. The Professor showed himself to be master of his subject: "The Speaker of the House of Representatives and his Powers." He clearly demonstrated that the House Speaker possesses more power in his legislative capacity than any similar officer in the world. The growth of this power was traced through history to the autocratic representative of today, and as ex-Speaker Reed has said "some one must have a policy and a plan and who is more fitted to enforce one than the Speaker?" The method of appointing the committees and outlining the work of each, the instructions as to what and when they shall say, was plainly presented and the reasons why he holds such power, was explained. The great power of the committee on rules, the arbitrary recognition of a member, the reference of bills, counting quorum and the methods adopted to prevent filibustering, were detailed with great care. This power, as used by Speakers from both old parties, has grown through necessity from the time of Henry Clay, and is occasioned by the introduction of so many bills, making it necessary for some one to select those of most importance and bring them to a vote. On this point Prof. Hawley aptly said that "had all bills introduced received attention at the last session of Congress, but 18 minutes would have been allowed for each." The lecture was one of the most instructive and entertaining ever delivered in Cottage Grove. The next lecture will be by Prof. French of the State Normal, on "Europe," illustrated by the stereoscopic. This is a course of lectures that no one in town should miss.

MAY GET A FORTUNE

From present indications Wm. Landess, of this city, is apt to strike a streak of good luck in the immediate future. He is in receipt of news that he is one of several heirs to the famous Cronkite estate of Holland, the heirs of which have been extensively advertised for in the leading papers of the United States for the past four years. The estate is said to be worth \$80,000,000, and Mr. Landess is one of about 300 heirs. He left here this week for Portland where he will make a search for some family records in possession of his uncle, who resides in that city. Mr. Landess' friends wish him all possible success and trust that he may live many years to enjoy his share of the great estate.

GOOD FOR BRICK

C. E. Harwood, of Florence, Lane county, Oregon, has been experimenting with the beach sand, with the view of making brick from it. Mr. John Brund of Bohemia, who has been visiting on the coast for a number of weeks, and who returned here this week, tells a Nugget man that the experiments of Mr. Harwood have thus far been highly satisfactory, and that he has several samples of "glass brick" which are superior to anything Mr. Brund has seen in the brick line. Mr. Harwood is satisfied that he has discovered a process by which he will be able to produce a brick at comparatively the same cost, that will far exceed anything of the kind yet placed upon the market.

St Valentine's Day, February 14, was the twenty-fifth anniversary of the wedding of Mr. and Mrs. B. Lurch of this city. Some very beautiful presents were left with them along with hearty congratulations and well wishes for many returns of the day. The day was also the anniversary of the birth of Miss Lillian Lurch, making the evening all the more enjoyable.

UNFORTUNATE ACCIDENT

Mrs. Julia Wood, formerly of city, now cooking at Helena No. 2, Bohemia, met with an unfortunate accident Monday morning. While splitting kindling she chopped one of her fingers off. A phone message was sent to Dr. Job, who responded at once, arriving there that evening. He found it necessary to amputate the finger at the nuckle joint. At last accounts the lady was resting easily.

LOOK OUT FOR THEM

The town is being over run with a number of photo solicitors. This class of people are a cheap set, and they should not be patronized. They take the money out of the town and leave the photographers, who are a fixture here and who are doing their part to maintain the town "holding the sack," as it were.
