NOTICE FOR PUBLICATION.

United States Land Office,
Roseburg, Oregon, Feb. 7, 1902.
Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Mrs. Alice LaRaut of Saginaw, County of Lane, State of Oregon, has this day filed in this office her sworn statement No. 2027, for the purchase of the SE 1/4, of Section No. 20, Township 21 South, of Range 3 W, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish her claim to said land before the Register and Receiver of this office at Roseburg, Oregon, on Wednesday, the 7th day of May, 1902.

She names as witnesses:
Stephen A. LaRaut of Saginaw, Oregon, George Riggs of Mabel, Oregon, James Lee, Daniel H. Brumbaugh, of Cottage Grove, Oregon.
Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 7th day of May, 1902.
J. T. BRIDGES, Register.

Mines and Mining
Devoted to Bohemia Notes and Items of general interest to Mining Men.

CABINET BUREAU

At a meeting of mining men held Thursday at Portland in the hall of the Oregon Mining Exchange, in the Chamber of Commerce building, resolutions were passed endorsing a bill now in congress to create a cabinet bureau representative of mining interests. A committee was also appointed to secure representation from all mining camps in the state to form a State Miners' Association. The object of the association is to foster the mining industry, to secure the enactment of such laws as will be found desirable, and to create the position of mining inspector. The resolutions adopted by the meeting, copies of which will be forwarded to the Oregon delegation in congress were as follows: Whereas, The mining industry of the United States has become, and now is one of the greatest sources of wealth to the nation; and Whereas, This industry is co-extensive with the limits of our national boundaries, and afford fields of investment and labor in every state and territory in the nation, employing capital and furnishing labor equal to any other industry; and it is important to all classes of our people that the mining industry be fostered and encouraged; and

Whereas, A bill has been introduced in our congress providing for a cabinet department in a national administration, representative of mining interests; therefore, be it

Resolved, That the mining interests of the State of Oregon, represented in this convention by practical miners, mine-owners and investors of capital, respectfully urge upon congress the importance of house bill 7195, and ask that it pass and become a law of the nation

Mr. E. T. Rich, writing in the National Banker says, "There is as much money invested in mining as in banking, and the former pays a much handsomer dividend. The

prejudice against mining, like an hereditary taint, still clings to the ultra conservative, the timid and the less ambitious. Such notions and ideas on mining, though well intentioned, are based upon the theory that some one lost money in either the mining proper, or in mining stock speculation." Mr. Rich simply states what all conservative, level-headed men know to be a fact. The fact that money has been and is lost in wild cat mining schemes is not the fault of mines, but of the same class of leeches that are found everywhere and in every class of business. But, fortunately for Bohemia District this class of work-working the people—has not yet begun and it is hoped will not. The investments are here and are perfectly legitimate as investigation has shown those who are now stockholders in the many first class properties of the Bohemia District.

The Le Roy Mining Company sent down from the mines this week three hundred pounds of fragmentary ore that is especially rich and attractive. It has been placed on exhibition at the mining company's rooms and is exciting quite a crowd of visitors daily. The company has lately struck an exceptionally hard vein of quartz, which when broken through will no doubt develop an extremely rich ore chute. A large shipment of supplies were sent into the mines a few days since and work is being pushed rapidly.

A meeting of the Board of Directors of the Le Roy Mining Company was held April 8. Considerable business was transacted. The price of stock has been fixed, until further orders, at 10 cents. Pay day for the company has been fixed for the first Tuesday after the first Monday of each month. A very favorable report from the mines regarding progress of development is at hand.

SOMETHING NEW.

Mining men turned to doctors through the influence of an Indian woman. W. J. Dyson was given up to die by prominent doctors with rheumatism and Bright's disease and was cured sound and well after having C. B. Montgomery, an educated chemist, to investigate the medicine with instructions as to how much of each root and plant it would take to make the medicine. We have applied for our patent and received a certificate for the same, and we are now ready to supply the public with the most wonderful kidney and blood purifier that has ever been introduced in the world. It is manufactured strictly out of roots and herbs only. There are no chemicals of any kind. This we guarantee. This valuable medicine is manufactured by none other than W. J. Dyson and C. F. Mitchell in Cottage Grove. In the near future we will be able to turn out 1000 bottles per day. We also have quite a number of good, reliable citizens to give us testimonials. This is a home production and the root and herbs are confined to the state of Oregon. This is one of the mildest and best remedies for female complaint on earth. There is no gripping pain whatever.

NOTICE FOR PUBLICATION.
