Mines and Mining
Devoted to Bohemia Notes and Items of general interest to Mining Men.

JUDSON ROCK MINING COMPANY
The Judson Rock Mining Company is duly incorporated and organized under and by virtue of the laws of the State of Oregon with a capital of \$150,000, divided into 1,500,000 shares of the par value of 10 cents per share, fully paid up and non-assessable. The principal office and place of business being at Cottage Grove, Oregon.
The property of this corporation consists of what is known as the Judson Rock group of mining claims, situated on the western slope of Fairview Mountain, in the Bohemia Mining District, in Lane county, Oregon and directly on the line of the famous Musick lode, with an elevation of 3000 feet and extending down to Fairview creek where mill sites are located and giving a vertical depth of 1000 feet below the apex. Said group consists of nine claims, viz: The Ouray, Denver, Three Brothers, Blue Jacket, Pueblo, Black Jack, Oversight, Homestake and Pilot Boy, and are all contiguous and can be developed from one common point or level.
The development work done on said claims consist of over 500 feet of tunnels and shafts and has been made at an expenditure of about \$3000, which shows free milling ore in many places, carrying gold, silver, copper and lead in large paying quantities.
The assays thus far obtained on this group of mines runs from \$10 to \$30 per ton in gold. There is an abundance of water and timber for these mines for mining and other necessary purposes, and said group is accessible to the wagon road and about two miles from the terminus of the proposed Cottage Grove-Bohemia Railroad, and are yet about 2000 feet below the summit of the mountains and consequently the snow line.
600,000 shares of the capital stock of this corporation have been set aside as treasury stock and can

only be used in the development of the properties of the company.
The stock of this corporation is fully paid and non-assessable.
There is a group of nine claims, all showing good values, owned by this company.
A railroad will tap the district within two miles of the properties of the company.
Samples of the ore from these properties can be seen on application to any of the officers of the company.
In the new tunnel on the Pilot Boy which is only 33 feet in there is five feet of ore in the face which assays \$10.50 in gold, and 6 per cent copper. This tunnel will be run 400 feet on the ledge and a crosscut will be run cutting the other two ledges so that six claims can be worked from this one tunnel. Which when the apex of the mountain is reached, will be about two thousand feet under ground. This mine has three large ledges all showing good values and is destined to be one of the great mines of the camp. The treasury stock of this mine is now on the market, only enough of which will be sold to vigorously prosecute the work of developing the mine. There is none of the common stock of the mine for sale anyone wishing stock should apply to any of the officers of the company.
A Nugget man dropped into the Le Roy Mining Company's office yesterday and found its secretary quite busy issuing stock to eager purchasers at 10 cents per share. Every mail brings orders which prove that the company's property is already becoming quite famous.
NEW STRIKE
Word came in Sunday that the Le Roy Mining Company had struck another vein of fine galena ore three feet wide. This company is striking it rich in every new tunnel they open up. This makes five fine strikes made on the company's property and there are "more to follow."

SOMETHING NEW.
Mining men turned to doctors through the influence of an Indian woman. W. J. Dyson was given up to die by prominent doctors with rheumatism and Bright's disease and was cured sound and well and after having C. B. Montgomery, an educated chemist, to analyze the medicine with instructions as to how much of each root and plant it would take to make the medicine. We have applied for our patent and received a certificate for the same, and we are now ready to supply the public with the most wonderful kidney and blood purifier that has ever been introduced in the world. It is manufactured strictly out of roots and herbs only. There are no chemicals of any kind. This we guarantee. This valuable medicine is manufactured by none other than W. J. Dyson and C. F. Mitchell in Cottage Grove. In the near future we will be able to turn out 1000 bottles per day. We also have quite a number of good, reliable citizens to give us testimonials. This is a home production and the root and herbs are confined to the state of Oregon. This is one of the mildest and best remedies for female complaint on earth. There is no gripping pain whatever.
