One would think to read the democratic papers regarding the chances for success of their nominee for governor that the republican party was in the minority in the state. Thus far the democratic party only claims the following republican counties: Multnomah, Marion, Linn, Lane, Douglas, Josephine, Polk, Jackson, Clatsop, while in their magnanimity, they concede that Benton is "in doubt." The democrats have ever been mighty good talkers before election, and in the matter of prevarication are prolific in the extreme; but when it comes to polling votes they are few potatoes find of the small sort. It is a foregone conclusion that the democrats hate Mr. Furnish the republican candidate for governor, and for no other reason than that of having sense enough to leave the ragged path of democratic inconsistency, and come over into the smooth road of republican prosperity. They would attempt to turn the earth over to insure Mr. Furnish's defeat. But there is no reason nor excuse for republicans to draw the support of a single vote away from Mr. Furnish. When he came to the republican party, he came as one of the country's rescuers, from a financial fate, today appalling to many of even the influential democrats. At that time the republicans were proud of Mr. Furnish and the class of men like him, who had stamina to desert old party ties when a keen sense of duty called them. If we as republicans were proud of him then we should be and are doubly proud of him today; and by virtue of the good vote of the republican party of Oregon he will be the next Governor of the state by the largest majority the state has ever rolled up.

Last week one of the Nugget's exchanges, in a somewhat slurring way made mention of the fact that the Nugget had made another "periodical change" referring to the purchase of a half interest in the paper by Mr. Henry. To assist that exchange in keeping track of the changes that are taking place in the Nugget, this paper will give notice of any changes as they may occur. This week attention is called to the fact that the Nugget is enlarged with this issue from a six-column quarto to a seven-column quarto, increasing the reading and advertising space of the paper about twelve columns. The only explanation necessary is the statement that our business makes the change absolutely necessary.

The chances for the election of the entire republican county ticket were never more promising than at present and if a man on the ticket goes down to defeat something wonderful must happen between now and election. Our ticket is an exceptionally good one and harmony prevails quite generally in the ranks of the party.

TO OUR PATRONS.

At the head of these columns appears the firm name of Howard & Henry, editors, publishers and proprietors of Bohemia Nugget, Mr. Henry having purchased a half interest in the plant as announced last week.

From the first, each issue of the Nugget has grown in matter of circulation, advertising patronage and influence; and, as one of our exchanges has said, has had "periodical changes" in size, always growing larger instead of smaller. At times, the founder of the paper has had an uphill road to climb, but thanks to the kind encouragement of good friends and true, for all of which the old and new management alike is grateful, the paper has pulled over the hill of uncertainty, and today stands third in size, third in circulation and third in advertising patronage of the papers of Lane county, while its friends and readers are scattered north, south, east and west, establishing for the paper the fact that it is one of the best advertising mediums in the Willamette valley.

It is the aim of the management to make, first of all, an up-to-date local paper, devoted, and classifying its columns as fast as possible, in the interest of the various enterprises and industries in this section of Oregon.

Politically the paper will be republican, not of the chastising, personal stripe, but from a broader view, believing that the republican party is best calculated, by virtue of sound platform principles, to preside over the destinies of the country; but, at the same time, exercising the same charity in the matter of individual political opinion, as it asks for itself.

Again the management thanks the patrons for the support received in the past, and solicits a continuation of the same, wherein, in the estimation of its patrons, the paper is deemed worthy.

Yours in friendship, HOWARD & HENRY.

In discussing Senator Jones' defeat in Arkansas, the New York World says that his loss is democracy's gain, as the event will bring about new leadership in the party. "If this change," it says, "in the direction of the National Committee shall be accompanied with the restoration of David B. Hill to the leadership of the New York State Democracy, the poor old party that has been floundering leaderless through the Slough of Despond for the last six years, fed chiefly on west wind and rainbow dust, will have a mighty good chance to recover its footing and put up a hopeful fight for the control of the next House." In commenting on the above the Salem Journal says, "While no doubt leadership is very important, and that the Democratic party is sadly deficient in this respect is plain, yet this is not Democracy's great need—she needs issues upon which to stand before the people and a settled policy that will command the confidence of the people of the country. The return of the Democratic party to power in the near future is not at all likely. The people must be given a chance to forget the recent history of the party, and that will require some time."

The Guard takes Dr. King, the republican nominee for coroner of Lane county, to task for having voted the straight republican ticket all his life, and then says that most men would be ashamed of such a record. No doubt the Guard bases its assertion purely upon a democratic standpoint. If a man had nerve enough to vote the straight democratic ticket all his life, why, he should, of course, be ashamed of his record as a voter; but voting the straight republican ticket is a horse of another color. No man should be ashamed, nor should even democrats expect him to be ashamed, of voting the straight ticket of a party that has made this country what it is to day—that rescued it from democratic bankruptcy and placed it on a financial, commercial and industrial standing never before attained by any country on the face of the earth. It is a record to be proud of. While the democratic party may be guilty of nominating men for office of whom the voters are secretly ashamed, it must be borne in mind that the republican party does not do things that way. It nominates men of whom the party is proud and of whom it has no occasion to be ashamed.

THE BOHEMIA RAILWAY

Two Rousing Meetings Held by the Citizens.

NEARLY \$3000 SUBSCRIBED.

At a meeting of the citizens of this city held at Martin's Hall last Friday night with the view of raising a bonus for the Oregon & Southwestern Railroad Co. to be used in securing a right of way for the company's proposed line to Bohemia, C. J. Howard was chosen chairman and Frank D. Wheeler, secretary. Upon motion a committee of six was appointed by the chair to secure subscriptions to the proposed right of way.

The action of the meeting was stated and Manager W. F. Morphy made a statement to the effect that the cost of the right of way would approximate \$2,000 and then asked the citizens donate at least \$2,500.

The citizens present took kindly to the proposition and the chair was instructed to appoint a committee of six to solicit subscriptions. The committee was appointed as follows: Mayor B. R. Job, Darwin Bristow, F. D. Wheeler, C. H. Burkholder, Alfred Johnson and Earl C. Cotton.

Upon motion it was carried that one-third of the subscription should be collected and paid over to the company at the end of thirty days, another third when the road shall have been completed for ten miles, and another third at the completion of twenty miles of road.

During this time Secretary Wheeler, assisted by Attorney Ely drew up a subscription paper and the fun then commenced. A stream of those present came up, and down went their names all the way from \$10 to \$500, and before the meeting adjourned over \$2400 had been subscribed.

The meeting adjourned to meet last Tuesday night, at which time the First National Bank was authorized to collect the subscription money as it fell due and to turn over the specified payments to the company.

At this meeting it was found that \$2500 had been subscribed and several others were expected to subscribe. The young men of the city deserve great credit for their patriotic interest in the matter and the liberality of their pledges. In fact many of them contributed more liberally in proportion to their means, than any other class.

Following is the list of subscribers and the amount subscribed:

The Portland Journal states that the demand for Chamberlain pictures and buttons has been something wonderful and seems to think it an indication of his election, yet we don't take it that way. It simply indicates that he is going to take a far journey, (up Salt Creek), and the people desire to retain something by which to remember who opposed Gov. Furnish in the year 1902.

"A neighbor ran in with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when my son was suffering with severe cramps and was given up as being high in his profession. After administering three doses of it, my son regained consciousness and recovered entirely within twenty-four hours," says Mrs. Mary Haller, of Mt. Crawford, Va. This Remedy is for sale by Lyons & Applegate, Druggists, Benson Drug Co., Cottage Grove.

SOMETHING NEW.

Mining men turned to doctors through the influence of an Indian woman. W. J. Dyson was given up to die by prominent doctors with rheumatism and Bright's disease and was cured sound and well after having C. B. Montgomery, an educated chemist, to investigate the medicine with instructions as to how much of each root and plant it would take to make the medicine. We have applied for our patent and received a certificate for the same, and are now ready to supply the public with the most wonderful kidney and blood purifier that has ever been introduced in the world. It is manufactured strictly out of roots and herbs only. There are no chemicals of any kind. This we guarantee. This valuable medicine is manufactured by none other than W. J. Dyson and C. F. Mitchell in Cottage Grove. In the future we will be able to turn out 1000 bottles per day. We also have quite a number of good, reliable citizens to give us testimonials. This is a home production and the root and herbs are confined to the United States. This is one of the mildest and best remedies for female complaint on earth. There is no gripping pain whatever.
