

# MORE MONEY FOR BOHEMIA.

ENTERPRISES PLANNED BY \$4,000,000 CORPORATION.

Tunnel 1-4 Miles Long To Connect Champion Basin With Musick Mine—To Cost \$100,000.

In the recent purchase by P. J. Jennings, for an eastern syndicate, of a group of 21 mining claims in the Bohemia Mining District, there is projected one of the largest mining enterprises of the Pacific coast. Even the Cottage Grove Bohemia railroad means no more to the Bohemia District, although it was the assistance of the construction of this road that made possible the gigantic enterprise just announced.

The properties purchased by Mr. Jennings for his eastern associates are the Champion group of 16 claims, the Mitchell group of two claims, and the Graber group of two claims and the "Half" property consisting of a single claim. All of these properties lie between the head of Champion basin, the terminus of the railroad under construction, and the Musick mine. They were paid for in gold.

Upon Mr. Jennings' return to the east, he expects to leave in a few days, there will be incorporated by the purchasers of this property the Calpouna Mining & Tunnel Company, with a capitalization of \$5,000,000. One-half of this will be set aside as treasury stock and \$100,000 is already in the treasury for the commencement of operations.

It is the purpose of the company to drive a tunnel from the head of Champion basin, near the famous Helena mine, through the mountains to the Musick mine, a distance of a mile and a quarter, or nearly 7000 feet. Through this tunnel, which will be 788 feet in the clear, the company expects to open not only all of its own properties, but also those of other mine owners whose claims will be cut. A depth of 1400 feet will be obtained, and the large size of the tunnel will permit of the transportation through it of the ore from all the ledges that may be tapped. The estimated cost of this tunnel is \$24,000,000, or \$175,000, and it will take about 16 months to complete it.

Still another enterprise projected by the \$4,000,000 corporation and a necessary adjunct to the tunnel project, is the erection of a power plant to cost \$100,000. This will be located on Row River, about 16 miles from the terminus of the railroad. Power and lights will be furnished by this plant for the prosecution of work on the large tunnel and for mining purposes in the Helena, Champion, Musick and other west by mines. The plant will be of sufficient capacity to provide all the mines in the vicinity with light and power the year round.

Air compressors and machine drills will be employed in driving the long tunnel connecting Champion basin with the Musick mine, and not less than 100 men will be employed as soon as the tunnel and power plant enterprises are launched.

Mr. Jennings, the promoter of the corporation, had his plans for just such a project, while working on the railroad enterprise in the east last winter. He was so thoroughly enthused over the certainty of large profits on the investment of interesting capital. Among those interested with him are several New York millionaires. Having quietly bought up the properties required for the enterprise, Mr. Jennings is now going east to transfer the deeds and assist in the organization of the corporation. He expects to return about June 15, when he will be accompanied by the company's own engineers and electricians, who will take immediate charge of the work. Although having authority to proceed with the tunnel project himself, by reason of the importance of the large interests involved, Mr. Jennings prefers that the corporation place its own engineer in the field.

WON'T FOLLOW ADVICE AFTER PAYING FOR IT.

In a recent article a prominent physician says: "It is next to impossible for the physician to get his patients to carry out any prescribed course of hygiene or diet to the smallest extent; he has one remedy left, namely, the drug treatment." When medicines are used for chronic constipation, the most mild and gentle obtainable, such as Chamberlain's Stomach & Liver Tablets, should be employed. Their use is not followed by constipation as they leave the bowels in a natural and healthy condition. For sale by Benson Drug Co.

**SOOT WITH A 25**—While out practicing with a 22 rifle Wednesday evening the 12 year old son of Jake Mulligan of Saginaw received a bad flesh wound in the thigh from a rifle in the hands of a playmate, Johnnie Gray. The wound is a very painful one extending four or five inches through the fleshy part of the leg but Dr. Wall, who was called, says it will heal nicely within a week. Another lesson for those who are careless with a rifle because it is small.

**MAMMOTH PARSE.—**J. H. Crow was over from Lorraine last Saturday and while in town made this office a pleasant call. Mr. Crow isn't much of a hunt to tell big stories but took time to tell us of a parson that he dug on his place that measured four feet and ten inches in length. How is that gentle reader? Of course that isn't considered much of a vegetable in this country but send this man out to less productive countries and see what they think about it.

**LOCATING CLAIMS.—**T. C. Knizer and A. P. Farrer were down from Bohemia last Monday and made this office a pleasant call. These gentlemen are well acquainted with the district and are men of considerable experience in mining. They declare themselves as firm in the belief that a great future lies in store for Bohemia and that it is now destined to become one of the great gold mining districts of the world. New claims are being located by these gentlemen every week and many strangers are coming into the district.

**GEO. F. CHAMBERLAIN SPEAKS.**—Quite a crowd assembled at Martin's hall last Friday afternoon to hear Geo. F. Chamberlain, the democratic nominee for governor, speak on the issues of the day. The meeting was about as enthusiastic as democratic meetings are now-a-days. Mr. Chamberlain came in on the 10:30 train and was met at the depot by a delegation of local democrats headed by the band. Everything possible was done to make Mr. Chamberlain feel comfortable and at home while here, but "the next governor" addressed a Cottage Grove audience Wednesday afternoon.

**YOUNG OWENS KILLED.**—The following dispatch to the Portland Journal of May 1st from Roseburg will be of special interest to Cottage Grove people from the fact that the boy that was killed formerly resided here and was in town only a day or two before his death. "Acting Deputy Marshal Frank Reed fatally shot T. C. Owens in the back of the head Saturday morning. Reed recognized Owens as the description of a man wanted at Eugene in the late of an overcoat. In attempting to escape Reed shot toward Owens with fatal results. Owens died at once this forenoon without regaining consciousness. A post-mortem examination will be held this afternoon. Owens was formerly a school teacher at Myrtle Creek, aged about 21 years and married. Reed, who surrendered to the sheriff, says he did not mean to kill Owens, but shot toward the ground and the bullet glanced upward, striking Owens in the back of the head." The man who stole the overcoat at Eugene was arrested at that place last week, found guilty and sentenced.

## Local Brevets.

Jack Klufenstein is up for a few days from Blue river. If any of our readers know of a good surveyor that is not busy now please let us know. Last Saturday was a beautiful day and Cottage Grove was full of people and as busy as could be. Do you want to sell your property? We will do it for you. Cottage Grove Investment Co., Room 2, Finn Bld. A bear was killed near Elmira one day last week by Robert and Henry Herbert whose hile measured 6ft. 4 inches by 7ft. 2 inches. Cottage Grove and the great Bohemia mines are all the talk throughout Western Oregon just at present and people are looking this way from all over the west.

Sufficient stock has been raised at last among the business men of Eugene for the building of a \$30,000 opera house. It will be 100 feet by 160 feet and two stories high. Last Sunday evening the M. E. church was crowded to the doors and many were unable to gain an entrance to hear the celebrated Menely Quartet which gave a fine song service.

If there is one thing in this world you should be careful of, it is the medicine you take. Medicine is a Godsend to man only when properly prescribed, properly compounded and properly taken. You undoubtedly have faith in your family physician. You can use your own judgment, when it comes to taking it, but in the filling of the prescription, be sure that it is done at the old reliable drugstore, Benson Drug Co.

## DIED.

**NELSON PIPER, MRS. NOLA C.**—At her home in this city, Tuesday, May 6, 1902, aged 30 years, 4 months and 14 days.  
Mrs. Nelson was the daughter of Mr. and Mrs. S. R. Piper, and was born in Washington county, Tennessee, Sept. 20, 1871. She came to Oregon with her parents who settled in this city in 1880, and was married to A. Nelson July 4, 1895.  
On the day of the railroad celebration, a week ago Wednesday, Mrs. Nelson was on the street in her usual good health. She caught cold however, which brought on a complication of troubles resulting in her death in less than one week.  
She was a most lovable woman, having the respect and love of all who knew her, and her sudden death leaves her the hearts of not only those who were bound to her by bond and blood, but those who had known her the many years she had lived in this city.  
Rev. L. D. Beck of the C. P. church officiated at the home and also at the cemetery, many friends and intimate associates gathering.  
A loving husband, whose ambition seemed to be centered in devotion to his wife, a little golden haired boy, a father and mother, sister and brother, pour out their grief for her whose death casts a shadow over their lives.
