

BOHEMIA NUGGET.

HOWARD & HENRY, Proprietors.

G. J. HOWARD, Editor. LEO W. HOFF, Associate Editor and Business Manager.

Entered at the postoffice at Cottage Grove, Oregon as second class mail matter.

Subscription price, \$1.00, in advance. Advertising rates made known upon application.

THIS PAPER is kept on file at E. C. Drake's Advertising Agency, 54 and 56, Merchants Exchange, San Francisco, California, where contracts for advertising can be made for it.

FRIDAY, AUGUST 1, 1902.

In this issue of the Nugget will be found a notice inviting and soliciting the citizens of Cottage Grove to attend a meeting Friday evening with the view of talking over the method of procedure in the matter of securing literature necessary to give our particular locality recognition in the several states where the literature of our sister towns is so soon to be circulated through the medium of the advertising bureau, represented by Mr. McKinney, who visited this city some time ago. It will be remembered that no money consideration was asked by the bureau manager. He simply extended a courteous invitation to provide his bureau with whatever literature we desired that our town and vicinity might have as a representation along with other towns. We must take into consideration that every town and locality of any consequence in Oregon is enthusiastic in this matter and that they have agreed to furnish from 50,000 to 150,000 pamphlets, according to the size of the town, and that in some instances the matter is already in the hands of the printer, and that if we do anything toward showing the good people of the middle west that we are alive and on earth, we must get at it as soon as possible. This is an opportunity that comes to a state upon rare occasions, say nothing of a community, and the best should be made of the opportunity. It means the rapid growth of the state—of every community in the state. It means the introduction of wide-awake and progressive citizens of every state, who represent in the aggregate thousands of dollars in money. It means money to develop the various enterprises, some of which have been started in a way, only to be cast aside for want of capital, while others were only dreamed of. Let us respond and get in and secure our share of the great flood of immigration sure to follow the broadcast spread of Oregon literature. It is coming to Oregon, and if we do not get it will be because we have not enterprise to reach out for it, and in that event we do not deserve it. Let every one come out and do their part.

Continued from page 1.

500; 1896, \$27,000; 1897, \$45,000; 1898, \$50,000; 1899, \$75,000; 1900, \$123,000; 1901, \$200,000; total \$576,400.

Most of this ore was treated by stamp mills and concentrating tables. The activity in the district has increased from year to year and some very rich strikes have been made during the last 12 months. Conservative estimates place the value of the ore on the dumps and in the mines awaiting transportation facilities as over \$5,000,000.

The ores that have been sent out to the smelters have mostly been concentrates. These ores were hauled by wagon to Cottage Grove at a cost of \$10 per ton. There are smelters at San Francisco, Tacoma and Everett. Tacoma has received most of the ore. The cost of hauling on the railroad and treatment at the smelters has averaged about \$15 per ton, making a total cost from the mines of \$25 per ton. It has, therefore, been impossible to ship direct from the mines, with concentrating, ores running less than \$30 per ton. This, of course, will be obliterated when the railroad is completed. It will then be possible to ship the crude ores that run \$22 per ton, and leave a small margin for the owner. This will be a great boon to many who cannot afford to put in concentrating plants.

There is a fine opportunity for capital to put in custom mills. Three or four of them in various parts of the district would pay handsomely. Arrangements have about been completed for erecting a smelter on the line of the new railroad, 16 miles from the district. Bohemia presents marked advantages over the average mining camp for economical mining. The hillsides are steep and nearly all of the claims can be developed by driving tunnels directly on the ledges and gaining great depths. It is frequently the case that on a single claim a depth of 100 feet can be gained by driving a tunnel on the vein from the lower end of the claim. There is an abundance of timber and water and frequently sufficient power can be obtained on the claim from the water to run all the machinery required for the mine and mill.

The disadvantages are the heavy fall of snow in the winter on the mountains and the rain in the valleys. The snow is often eight to ten feet on the level and lays on the ground usually until the first of June. There is a scarcity of wagon roads

in the district at present; therefore, the mode of transportation between the various sections of the district is by horseback. With the coming of railroad these wagon roads will be built. The travel in the district will keep open these roads during the winter and all the ores can be hauled to the cars on sleds.

The Bohemia District is in the western part of the state. Oregon itself is about 360 miles in length east to west and about 200 miles north to south, and contains an area of 96,030 square miles, being over 11 times the area of Massachusetts. Its population is about 500,000.

Oregon has a great variety of minerals. Placer gold is found along the river courses between the various ranges and spurs. Quartz gold is mined in the eastern, western and southern sections of the state. Silver is found coextensive with the gold. Copper and lead are frequently found. Cinnabar exists in paying quantities near the headwaters of the Willamette river in the western part of the state. Iron exists in the northern part of the state. Coal is found along the coast in various places.

It is a well known fact that Oregon is today taking front rank among the mineral producers of the United States. And those who know her best predict that she will outstrip Colorado in the production of gold within the next ten years, while as for the Bohemia Mining District I believe it is the most promising I have ever seen and I predict a most brilliant future for it.

Will Buy.

I wish to buy a good improved farm. Address Lock Box 65, Cottage Grove, Ore.

IMPROVED FARMS WANTED.—We have a few cash buyers for improved farms. Also city property. PHILLIPS & WHEELER.

STORES CONSOLIDATED.—U. S. Martin and Whit Gowdy have consolidated their furniture stores and this week removed their stocks to the new building on First street owned by Martin, Jenkins & Lawson.

NEW BAR AND FIXTURES.—Messrs. Barker and Perman, proprietors of the Exchange saloon, are busy this week with their entire force as well as carpenters and painters overhauling their rooms on Main street, and replacing the old bar and fixtures with new. The new bar is a beauty and will compare with the best in Lane county.

INSANE.—Chas. S. Settle, was locked up Thursday by Constable Bert Lawson charged with insanity. He has had trouble with one of his neighbors, and although said to be imaginary, it seems to have preyed on his mind until he lost his reason. Sheriff Withers was notified and came up on the afternoon train and took the unfortunate man to Eugene for examination.

YOUNG HUNTER.—Allen Baker, the twelve-year-old son of Mr. and Mrs. John W. Baker, of this city, has proven himself a very promising hunter, already this season. While at the Baker ranch on Mosby creek this month he hiked into the woods with a 38 Winchester and soon was up against a big buck. At a distance of 75 yards he took an off-hand shot at the deer and dropped him in his tracks with a bullet through his heart.

TEMPORARY DEPOT.—Wednesday the warehouse belonging to Long & Bingham was refitted for the temporary depot of Southern Pacific. Agent Ansbrey has received instructions to vacate the old depot by August 1, and he seems to be prompt to take time by the forelock. Work will commence immediately and it is predicted that Cottage Grove will have one of the most complete and modern depots of any town of its size within six weeks.

M. E. S. S. PICNIC.—At 11:30 Wednesday morning about 150 M. E. S. S. scholars and teachers filed up to the O. & S. E. railway grounds where two nicely decorated and well seated flat cars awaited them and got aboard. They were bound for a days outing at the end of the track, with the view of spending a happy noon hour in the England grove. A bounteous feast of good things including ice cream and cake was in evidence and the day was passed most pleasantly.

IMPORTANT MEETING.—There will be a meeting of the business men and citizens of Cottage Grove this (Friday) evening at Johnson & Eby's law office to discuss the subject of issuing advertising pamphlets for the city and surrounding country in accordance with the plans of the advertising committee of the Harriman R'y system. This will be an important meeting for those interested in the future growth and progress of Cottage Grove and should be freely attended.

THE SAW MILL.—Work on the Long & Bingham saw mill is progressing as fast as the adjustment of heavy machinery will permit. Mr. Long states that logs will be loaded on the Oregon & Southeastern line from the Mack England place and the Dave Baker place next week. J. B. Manning, the mill manager, who has been identified with large milling interests on the sound for many years now financially interested with Messrs. Long & Bingham and

who has and will have when the mill is completed direct charge of the plant, expects to be ready to put the mill in full action by the 10th of August. At present the mill will cut 30,000 feet, but it is confidently expected that the plant will be increased to 60,000 in less than one year, in fact the mill foundation was built with this in view.

NOTICE FOR PUBLICATION.

United States Land Office, Roseburg, Oregon, July 11, 1902. Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Thomas A. Campbell, of Mohawk, County of Lane, State of Oregon, has this day filed in this office his sworn statement No. 3030, for the purchase of the S 1/2 NE 1/4, NE 1/4 SW 1/4 & NW 1/4 SE 1/4 of Section No. 32 Township 22 S of Range 2 W, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before Marie L. Ware, U. S. Commissioner at Eugene, Oregon, on Thursday, the 25th day of Sept., 1902. She names as witnesses: C. M. Young, Jasper L. Goin, A. J. Shoemaker, of Eugene, Ore., Hugh Reeves, of Cottage Grove, Ore., and any and all persons claiming adversely to the above-described lands are requested to file their claims in this office on or before said 25th day of Sept., 1902. J. T. BRIDGES, Register.
