Parents beware! Neglect of children entails upon them a bitter heritage through life. Many a child is unjustly termed dull and indolent and accused of defective intellect when defective vision is the sole cause of trouble. Dr. Lowe has for 16 years made a specialty of fitting glasses to children's eyes.

The Nugget man would like several cords of wood on subscription. We are not particular whether it is hard or soft wood if it is cut into stove lengths. Should the price amount to more than you wish to pay on subscription, we can rattle a few "plunks" with which to pay you the difference in cash.

Curtis Veatch killed another fine young black bear on Annapolis burn a few miles west of town last Tuesday. Wednesday he brought it to town where the carcass was taken charge of by Bartel & Veatch, butchers, who dressed it and put some of the choice steak on the market.

The miners and mining men are beginning to arrive from Bohemia having finished their summer's work in that camp. However many will remain there during the entire winter, as quite a number of the leading camps will continue development work regardless of winter and its deep snows. Supplies are being rushed in every day for the winter.

There is no doubt in anyone's mind that our little city and the Bohemia Mining District are attracting more attention this fall than ever before in their history. A glance at the hotel registers and a stroll about our streets will convince anyone that the town is full of transient people nearly all the time, many of whom are more than travelling men making the usual rounds. Some days as many as fifty are fed at each of the two leading hotels and half as many at other places in town, all transients.

The autumn days are here. The sun swings southward as he piles his course across the dome of azure and flings down, his golden kisses on the fleecy veil that nature stretches 'twixt the earth and sky to hide from view the tears that constant fall in autumn season and the winter through. And nature changes its coat of green for one like a noble's with many colors—patches of yellow, there of gold, and streaks of brown—a crazy quilt designed, artistic, such as He alone can make who weaves in nature's loom.—Eugene Register.

The basket stool given by the daughters of Hebeckah at the banquet last Saturday evening was not so much of a success as was desired owing to the Odd Fellow's secret session, which hung fire until a late hour, during which time the weary ones went home. However, we predict that the next attempt will be a flattering success.

These gentlemen believe firmly in printer's ink and our readers will hear from them through our columns in the months to come.

## Caught A Faker.

A great big double fisted, well fed duffer called at the "Central Bar" saloon Wednesday morning and asked of the genial, whole-souled proprietor Jan. Crowley, the necessary coin to purchase something with which to appease the hunger of a "poor cripple," exhibiting the stump of an arm to make his request more impressive. Of course John started to "dig up" but something about the fellow caused John to be a bit suspicious and he proceeded to investigate the matter. The husky individual objected, but John persisted, with the result that the fellow was found to be the possessor of two good stout arms and also legs which he made use of by "biking" through the woods, where he made his disappearance. Every day or two the town is "worked" by somebody and no investigation is made as to whether the unfortunate is a fake or a fact. Let us all profit by John's experience and be sure we are giving to some deserving unfortunate.

McDowell, Man, Logan county, W. Va. Several other very remarkable cures of partial paralysis have been effected by the use of this liniment.
