Devoted to the Mining, Lumbering and Farming Interests of this Community, to Good Government, and Hustling for a Grub Stake.

VOL. IV

COTTAGE GROVE, OREGON, FRIDAY, NOVEMBER 29, 1902.

NO. 46.

Mines and Mining

Devoted to Bohemia Notes and Items of general interest to Mining Men.

LeRoy Co. Moves Headquarters, OREGON AND SOUTH-EASTERN

The LeRoy Mining company has removed its headquarters from the room formerly occupied by them in the Flun building to the room in the same building formerly occupied by the Oregon & South-Eastern R. R. in the rear of the building. Ralph Whipple, the newly elected secretary, has been duly installed and is attending to business in his new quarters and obliging manner.

At the mines things are progressing in the most satisfactory manner to the officers and stockholders of the company.

The main tunnel, upon which the new air shaft is now at work, is about 400 feet with the full face of the drift in quartz. Progress is being made at the rate of from five to ten feet per day and the new LeRoy drift is coming fully up to the expectations of the company.

One of the greatest recommendations of LeRoy stock at the present time is the fact that all of the employees of the company are investing the surplus of their earnings in stock of the company at prevailing prices. This fact speaks volumes for the company's property for no one knows better than employees, how a property is being managed or how well it is doing. Many of the employees are old, experienced mining men and their recommendation is worth more than anything else could be, when we take everything into consideration. If they are willing to stake their hard-earned dollars on LeRoy stock, the average investor certainly should not hesitate in doing likewise.

We predict another rise in LeRoy stock within a very short time, due to many causes.

The Sunrise Mining Company

John B. Eggen, foreman of the Sunrise Company, came out this week, and will return to his old home in Canada for the winter. He carries with him some beautiful specimens of milling ore taken from the long tunnel of the Sunrise property, which tunnel has recently been securely timbered. For over two months the full force of the men employed have been at work building a broad and substantial wagon road from the company's mill site down the mountain about three miles to connect with the new railroad when it reaches the nearest point to the property at the warehouse. This road is now almost completed, and the finishing touches will be put on it the first thing in the spring, so as to facilitate the passage of the heavy machinery to be put up for the reduction of the immense bodies of ore now brought to light by the operations of this company. The greater part of the company's work will be closed down from now until early spring, when the new concentration plant will be installed, and active and energetic work will be begun and kept continually going. When, in another season, this company gets into full swing, it will be but a short time thereafter when dividends will accrue to the fortunate shareholders in this excellent property.

Important Notice.

Any person hiring a single seat buggy and allowing more than two persons to ride in same at one time will be charged double price and pay all damages to the buggy. The above applies to all hacks, carriages or spring wagons. Only two persons allowed to ride in one seat at a time.

DRAIN NORMAL VS. C. M. A.

Cottage Grove Boys Clearly Outclass The Coming Schoolboys.

The Central Normal School football eleven, of Drain, was gloriously defeated by the local C. M. A. eleven in a red-hot game at this place last Saturday to the tune of 17 to 0, before an enthusiastic crowd of about five hundred people.

This was the second game of the season between these two teams, the first being played at Drain some time ago and resulting in a score of 6 to 6. The State Normal team arrived on the one o'clock train and were met at the depot by a delegation of the C. M. A. boys who conducted them to their quarters at the Sherwood hotel where they proceeded to adorn themselves in the proper regalia for the coming contest which was billed for 2:30 o'clock.

Promptly at two o'clock, headed by the Marguerite Fischer Co's excellent uniformed band, the crowd proceeded to the grounds which are located on the vacant lot four blocks southwest of the school house where they waited impatiently for the contest to commence. The teams appeared upon the field immediately and proceeded to go through the usual preliminary practice which occupied the time until the game was called. Tom Medley was chosen as referee of the game.

Drain kicked off to the local team and the scrimmage commenced in earnest. The teams seemed to be quite evenly matched and the ball was kept near the center for a short time but the C. M. A. boys were not long in finding a weak spot and proceeded to advance the ball rapidly by end runs of Blair and Jackson, soon scoring a touch-down by putting Jackson through the line for a fifteen or twenty yard run, and goal was kicked by Hill.

The ball was again put in play, soon falling into the hands of the C. M. A. boys, who, by a brilliant series of end runs succeeded in securing another touch-down by Bobby Blair, who made a fifty yard sprint around Drain's left. This goal was a difficult one to kick and Hill missed it. Thus ended the first half score 11 to 0 in favor of the C. M. A. team. The second half was just as hotly contested as the first and the boys all did their level best. In line blocking they seemed to be quite evenly matched although Drain outwitted our boys by several pounds. At one time the ball was within three yards of Drain's goal line but was lost on a fumble and punted out of danger. However the most brilliant play of the game was made when but sixty seconds remained. Drain punted to the C. M. A.'s fifteen yard line where the ball was caught by Jackson and a long run made around the end for a touch-down. In order to make this play he ran around the entire Drain team, amid the wildest cheering of the assembled crowd. Hill again kicked goal. There was but forty seconds remaining when the ball was once more put in play and time was called with the ball on Drain's ten yard line and in the hands of the C. M. A. boys, who would doubtless have secured another touch-down had there been another minute to have played. The final score of 17 to 0 does not tell the whole story, as at the end of both halves the ball was in the hands of our boys and within a few yards of Drain's goal. Time alone saved them about ten or twelve points. At another time the ball was within six feet of Drain's goal line but was lost on a fumble. At no time was the C. M. A. goal in the slightest danger, the ball being in Drain's territory nearly all of the time. The game was a good one and clearly shows that our boys have one of the best teams of their weight in the state and no mistake. A reception was given Drain at the Masonic hall in the evening at which quite a large crowd was present and helped enjoy the occasion. The entertainment consisted of a short program, refreshments served by the C. M. A. girls and a general good time by everybody.

Not only will this railroad afford the only outlet for a district remarkably rich in natural resources, and amply able to support a longer and much more expensive line, but the traffic now in sight will be materially increased with the enlargement of business interests tributary to the line incident to the furnishing of railroad facilities, estimated at not less than 20 per cent per annum. It will also be noted that the net earnings are entirely out of proportion to the fixed charges and cost of operation. The road is bonded for a little over \$8,000 a mile and interest charge on bond issue amounts to but \$15,000 annually, as above. This yearly charge will be continually reduced through the redemption of these bonds by investments from the sinking fund, under which some of the bonds have already been cancelled and retired, and there will be a steady and corresponding increase in the value of the line of the preferred and common stocks.

We have personally visited the Bohemia District and identified ourselves with this railroad project after the most careful examination, believing that it will commend itself to conservative investors. We recommend this stock as a perfectly safe and exceptionally profitable investment.

HUGH & NAYN, Principal office, 135 Broadway, New York. Branch office: 44-45 Day building, Worcester, Mass.; 100 Exchange St., Portland, Maine.

STEPPED AGAINST A HOT STOVE. A child of Mrs. Geo. T. Benson, when getting his usual Saturday night bath, stepped back against a hot stove which burned him severely. The child was in great agony and his mother could do nothing to pacify him. Remembering that she had a bottle of Chamberlain's Pain Balm in the house, she thought she would try it. In less than half an hour after applying it the child was quiet and asleep, and in less than two weeks was well. Mrs. Benson is a well known resident of Keller, Va. Pain Balm is an antiseptic liniment and especially valuable for burns, cuts, bruises and sprains. For sale by Lyons & Applegate, Drain. Benson Drug Co., Cottage Grove.

FOR A BAD COLIC. If you have a bad colic you need a good reliable medicine like Chamberlain's Cough Remedy to loosen and relieve it, and to allay the irritation and inflammation of the throat and lungs. For sale by Lyons & Applegate, Drain. Benson Drug Co., Cottage Grove.

BEAUTIFUL CLEAR SKINS. Herbine exerts a direct influence on the bowels, liver and kidneys, purifying and strengthening these organs, and maintaining them in a normal condition of health, thus removing a common cause of yellow, mothy, greasy skin, and more or less of pimples, blotches and blackheads. 50c at New Era Drug Store.
