John S. Bilby, of Quitman, is a man whose name doesn't often appear in the newspapers, but if any newspaper man was shrewd enough to get him to talk he could write an interesting story about the old man. There is hardly a soil than any other individual in America. He owns at least 35,000 acres of highly valuable land in Nodaway and Atchison counties, Missouri. He has 10,000 or 15,000 acres in Nebraska. He has a big tract, embracing 35,000 or 40,000 acres, in Arkansas. He owns land in five other states. Still he is not satisfied. Recently he has been getting control of some immense tracts in the Indian Territory. The Fairfax Forum says he has leased 95,000 acres there already, and that he is deter-mined to add 30,000 more to the sum On a conservative estimate, he already owns or has leased 180,000 acres, and he expects to have more than 200,000 acres before he closes pending deals. There are, of course, ranch companies and syndicates which can make a bigger showing than this, but probably
