Bohemia News.

The recent strike in the Lefroy mine in Bohemia has caused widespread comment in some instances excitement not only in Cottage Grove, but in other places as well. Since the news of the strike were first given out the company here has been deluged with letters asking for authentic information regarding the strike. The company drilled 300 feet, and then crossed 104 feet to the foot wall. Sixty-four feet of the 104 feet is concentrator ore, with 30 feet very heavy, the last four feet of which is solid galena and copper. The drift has already been commended on the foot wall, a full crew being steadily at work. The management states that the report recently circulated to the effect that a large body of free milling ore was struck in this drift is an error. The company has struck a splendid vein of free milling ore in levels Nos. 1 and 2, but not in this level, and it is the desire of the management that any false reports that have been circulated be corrected, feeling that the company can stand on its real merits. The Le Roy has enjoyed a phenomenal success since the organization of the company. At no time has confidence been shaken in the property, and the condition of the mine at this time warrants the confidence bestowed.

The Pacific Miner, published at Portland, is after F. J. Hard, secretary of the Oregon Mining Exchange. It makes some rather bold charges, embodied by letters from several brokers in Portland. The Nugget knows nothing of the affairs of the Exchange which the Journal gives the book, but does know that in many ways Mr. Hard has done much for the mining interests of Oregon, and that he is quoted in many papers, whose importance in the mining world is far beyond the possible expectation of the Journal. In view of the fact that the Telegram is called in to question and that the patronage Mr. Hard has seen fit to give the Telegram seems to be the weaker, one would infer that the Journal—this on the basis that the allegations of the Journal are true—might be willing to open its columns to Mr. Hard, and that the Journal's editor would change a little of his hard earned money that way. It appears that there is a law governing fraudulent enterprises in Oregon as well as other states, and if the allegations made through the Journal are correct, Mr. Hard and his Exchange can be put out of business in short order, and in view of the money consideration alluded to between Mr. Hard and the Telegram it would reflect greater credit on the part of the Journal had the matter been legally taken up. Again the Telegram is hardly the paper to countenance any fraud, notwithstanding the Journal's assertion.

A Chicago dispatch under date of January 6 states that David Thompson, one of the best-known prospectors in the Black Hills over which country he has hunted gold for 37 years, struck a ledge of great richness, and after 10 minutes demonstration of delight fell dead, says a dispatch to the Tribune from Bouck, S. D. An examination made later by physicians showed a blood vessel in the brain to have been ruptured.

Articles of incorporation were filed in Eugene Jan. 6 by two new mining companies to operate on properties acquired in Blue River Mining District known as the Sunset group. The name of the new organizations are the Cuba Mines Co. and the Obston Promoting Co. T. S. Cogswell, Otto Obston and C. A. Hardy are the incorporators. The capital stock of the first named is \$1,000,000 and the other \$225,000.

The Grizzly Mining Company have this week opened up the company's headquarters next door to Wilson's restaurant, where they are already transacting business. The company owns some of the best ground in Bohemia and will be looked after by mining men who have any acquaintance with the district.

NEW YEAR'S FESTIVITIES.

How the Churches Honored the Event
—Interesting Program and Watch Parties.

M. E. CHURCH.

While no watch party was held at the Methodist Episcopal church New Year's eve, the service on the evening of the first day of the twentieth year more than made up for any discrepancy on the eve. Dr. Ford delivered a splendid lecture on "Methodism and The New Oregon," which was highly appreciated by a large audience. A program consisting of instrumental music, songs and recitations was also rendered, after which a bountiful supper was served.

CHRISTIAN CHURCH.

At the Christian church a large audience of old and young gathered on the eve of the eventful day, to watch the old fellow go and the boy of '03 step into the well worn path of eventful years—yea centuries of them. Miss Dolly Hawkins had her staff of Juniors there who were well drilled in a cleverly prepared program that furnished amusement for all.

CUMBERLAND PRESBYTERIAN.

A fine dinner was spread on New Year's day and Rev. Beck led in an able address commemorative of the day. A program participated in by the best talent in the church sogners was rendered and nearly the entire afternoon was taken up in its rendition and in short addresses by the members.

Aren't you all glad you live in Oregon? While the blizzards rage and are freezing to death in the east, flowers are blooming in the yards and our blackberry patch is white with blossom, and by the way we had strawberry shortcake the other night for supper. Who wouldn't like to live in Oregon?

Reduced Rates From The East.

Under date of December 10th, the Southern Pacific sends out a circular letter to their agents which reads as follows:

It has been decided to place in effect on February 15th, 1903, continuing until April 30th, inclusive, the same one-way second class Settler's rates to all Oregon Line points, and north, we were in effect during months of September and October last, viz:

\$25.00 from Missouri River points—Sioux City to Kansas City inclusive.

\$30.00 from St. Louis.

\$31.00 from Peoria.

\$33.00 from Chicago.

Rates to be no higher from intermediate stations.

The rates will apply via all routes through Portland, but will not apply via Sacramento. Tickets routed via Union Pacific Oregon Short Line, O. R. & N. to Portland, will be allowed stop-overs not to exceed ten days, at all points west of Portland, and in order to enable intending settlers to look over the Willamette Valley and Western Oregon thoroughly Company will allow as many stop-overs as desired at stations intermediate to final destination of the ticket, each stop not to exceed ten days.

This announcement is of special importance as it leaves the necessary cheap rates and arrangements to bring a large immigration to Western Oregon next spring. Please have your newspapers give it publicity, as no doubt a great many of our people who have already moved to Oregon from the middle states and the east will advise their friends and relatives who will take advantage of the low rates to visit Oregon.

Yours truly,

W. E. COHAN, G. P. A.

JOSEPHINE A. CARDWELL,
DELLA CARDWELL,
ROSA B. WILLIAMS.

The habit of drawing piling timbers through the city streets over the several crosswalks is not conducive to the best financial interests of the city. It costs money to put in said crosswalks and keep them in good repair, and nothing is more wearing upon them than the shaking of such timbers over them. Several dollars can be saved the city each year by restricting the traffic to certain crossings and designating a certain place on each crossing for the transit, or exacting that the timbers be hauled on trucks.
