

MRS. M.J. BRINK FIRST STAGE OF CATARRH

Wadhams & Kerr Bros., packers, Portland, Ore.

young Mr. Slasy, with some heat,

uses of Purina according to directions on the bottle, and the cold is sure to pass away without leaving any bad effects.

Unless this is done the cold is almost sure to end in the second stage of cutarrh, which is making so many lives miserable. If Post many lives miserable if Post many lives miserable.

so many lives miserable. If Perima was taken every time one has a cold or cough, chronic catarrh would be practically an unknown

would be practically an unknown mass,
Miss Ellimbeth Uber, No. 57 Bannett street, Albany, N. Y. writes:

"I have always dreaded insettled weather because of his extreme limits to catch cools, when a catarrial trouble would quinkly develop through my entire system which it would take weeks to drive away. I am thankful to say that since I have taken FERU-NA I do not have any reason to dread ribs anymore. If I have been at all expected to the damp, wet or cold excellent. I have a done or two of PickUNA, and it throws out any hist of eichness from my system. —Miss Ellimbeth Uber.

A Serious Mistake Which
Thousands are Making.

The first stage of catarrh is what is commonly known as "catching cold."
It may be in the head, nose, throat or lungs. Its beginning is sometimes so severe as to cause a chill and considerable fever or it may be so slight as to not hinder a person from his usual business. In perhaps a major its of gases little or no attention is

usual business. In perhaps a major, its fine health. —Mrs. M. J. Hrink.

Ity of cases little or no attention is paid to the first stage of catarrh, and bence it is that nearly one-half of the people have chronic catarrh in some form.

To neglict a cold is to invite chronic catarrh. As soon as sny one discovers the first symptoms of catching the cold not bein me and cough remediate the first symptoms of catching the cold not bein me and cough remediate all no

STARVATION DIETS.

Boiled Rope, Seaweed, Raw Boots and Barnacles Have Saved Lives

The hardest fare that six strong men the dally menu of the Windover's survivors, who were cast upon the Irish coast near Kilsegg a few weeks ago They lived for sixteen days on stewed rope-yarn, without a crum of anything else to help digest it, except water; and, though it made them ill, they kept alive on it and did not waste away

The Windover was a back carrying salt between Spain and the States, with an English crew, and she was dismasted and abandoned about a thousand miles out on the Atlantic Three of the crew were killed by falling masts, and two others were washed overboard; but the other seven took to the whalehoat and set out for Britsin. Being in too much of a hurry they took too little food, but three large butts of water, besides the tank the boat already held. The result was they are up the provisions in four days, but had water enough for a month, and, after starving two days more, they tried boiling lengths of tarred hemp rope into a pulp and swallowing They had a keg of paraffine wax, and, though it made them very ill at first, they eventually contrived to live one day asking some children queson the boiled homp, the tar, boiled to a jelly, adding to the neurishment of the rope. They landed in comparatively good health.

Two men who went to a small island.

off the Irish coast a little while ago till a sharp urchin stood up and said:

a diet almost worse. The days on "Please, sir, on the cover" a diet almost worse. They landed in a boat, which was smashed by a wave a boat, which was smashed by a wave on their trying to relaunch her, and they were left on the bare, recky island, which has only a slight scalp of coarse turf, without food. Forunately there is a spring on the island, but nothing in the way of food but gulls, which they could not catch, and nothing to make a fire with as a distress signal. There are not even research. signal. There are not even any shellfish, as there is no beach, and the pair had to subsist for the ten days on cold, raw seaweed washed up by the tide. For two days they starved, but after that they tackled the seaweed, making three meals a day off it, until rescued. When taken off they were a good deal ema-
