In the Grizzly Mining and Reduction Company's office in this city is a fine display of ores from the properties owned by the company. A map drawn by A. D. Whittier and a pink knot showing the company's group of claims is also on exhibition. The window presents a very pretty appearance, and gives to the passer-by a good idea of the richness of Bohemia.

BLUE RIVER.

Saturday the Oriental Mining Company filed articles of incorporation in the Linn county clerk's office. The incorporators are Neal V. Murray, J. H. Wyatt, J. Otto Lee, J. H. Roberts, J. F. Vanner and C. Sullivan. The articles of incorporation recite that the capital stock of the new company is \$1,000,000, divided into one million assessable shares, valued at one dollar each.

The company has just purchased three of the best mining claims in the Blue River Mining District, the Arctic, Vermont and Oriental.

The affairs of the corporation are to be managed by a board of five directors or trustees. The principal office of the company is in Albany.

The Great Northern Mill and Flume Company has also been incorporated by W. W. Toke, W. A. Templeton and J. H. Glass. The articles of incorporation state that the capital stock is \$120,000, divided into shares of one dollar each. The principal office is at Brownsville. This company also operates in the Blue River District—Grand.

The United States supreme court is hearing argument in a case involving the question whether or not granite shall be considered a mineral. This is in the case of the N. P. Railroad vs. J. A. Soderberg of the State of Washington, defendant having located a granite quarry on railroad land. The railroad people are endeavoring to prove that granite is not mineral, with what success remains to be seen.—Mining and Scientific Press.

The following estimate has been made on the values in the ores of the great copper mines of the country: The Calumet and Hecla, ore carries 5 per cent copper, the Quincy 1.5 per cent copper; the Tamarack 1.5 per cent copper; the Oceola 1 per cent copper; the Wolverine, 1.1 per cent copper, and the Atlantic, a little more than one half of one per cent copper. These Michigan mines yield no other mineral, in considerable quantities, and the ores from these properties do not equal, in copper values, the ores from our western copper mines. Our western copper mines have also big values in lead, gold and silver. The Anaconda carries about 4.5 per cent copper, the Copper Queen, about 8 per cent copper; the United Verde, 7 per cent copper. The Mountain Copper company in California produces an 8 per cent copper.—Mining and Engineering Review.

New York, Jan. 21.—George Ware, of the firm of Denny & Bros., of Dunbarton, Scotland, who are building the Shamrock III, arrived today on the steamship Bohemia. He is on his way to San Francisco, speaking of the new Challenger, he said she is being built in secret, under the direction of Mr. Fife. Steel and not bronze or aluminum, he said, is used in her construction. When he left she was about completed, and the opinion in England was that she stands a good chance of winning the cup. It was possible, he said, that the Shamrock II will be brought over to try out the new boat.

Thus did the Oregon State Legislature record itself on the first ballot for united States senator today. The ballots were taken by the two separately, beginning at noon. In the senate the process required only the length of time necessary for the clerk to call the roll. There were no nominating speeches. As soon as the result was announced the senate adjourned.

In the house 50 minutes were required for completion of the ballot. To the 28 votes recorded for Fulton add his own vote and his total strength at the present time is 29, 27 of which constitute practically the number expected, and the democratic strength of Wood is all there. Multinomial members, according to programme, divided; but each voted for a Multinomial man. On the whole, today's ballot may be said to have developed nothing unexpected.

CHURCH NOTES.

On last Friday evening the Endeavor Societies of the Christian and C. P. churches met in Woodman hall, and amid the best of Christian spirit and good feeling organized a Local Union with the following officers: President, A. H. King; vice pres., Thos. Aubrey, sec., Miss Darwood; treas., Louise Newland. Meetings are to be held once a month alternately between the two churches.

The new addition to the M. E. parsonage is about completed and will be a great convenience when finished.

Rev. Beck's subject for Sunday morning at the C. P. church is "Admonish the Disorderly; Encourage the Faithful; and Even- ing 'The Bible its Own Confirmer."

PASTIME WHIST CLUB.—The whist club held their regular semi-monthly meeting at the Woodmen hall Tuesday evening and enjoyed an unusually interesting and enjoyable session. Refreshments were served by Misses Stewart and Baker committee on same to which all did ample justice and the session was pronounced one of the most enjoyable since the organization of the club.

The prize was won by Mrs. L. W. Henry and the consolation by Miss Roby Baker. Guests of the club were Mr. and Mrs. Wood and Harry Clarke. At the session two weeks previous of which no mention was made in these columns Mrs. Morphy carried off the honors and Mrs. Johnny Aiken the booty.

A WANDERER HONORED.—G. L. Huston, formerly engaged in business in this city, who arrived here in company with his wife from Merced, California, on a visit with his wife's mother, Mrs. E. J. Miller, a few days ago, has again blossomed out into a gay man. It will be remembered that he left his first wife in this city, and report has it that his treatment prior to final separation was anything but consistent with the part of a well meaning husband. Now, so his second wife says, he has become smitten with the charms of a Salvation Army girl at Merced, Calif., and from the letter, which his wife and her mother took from him a few days ago, it would appear that his beneficence is not worth living unless he can be in the presence of the sweet face under the Salvation Army banner. Huston left, presumably for California, when his wife confronted him with the letter and has not been heard of since. The letter in question was addressed to Lena Faulds, and was filled with all sorts of sweet expressions, intended for the fair charmer. He also sets forth the intelligence that he was cloaking in a store in this city at \$4 per day, and that he has left his wife and does not expect to ever see her again. He will no doubt now become a follower of the Salvation Army, dealing out salvation at no more, per.

Reduced Rates From The East.

Under date of December 10th the Southern Pacific sends out a circular letter to their agents which reads as follows:

It has been decided to place in effect on February 15th, 1903, continuing until April 30th, inclusive, the same one-way second class Settlers' rates to all Oregon Lines points, and north, as were in effect during months of September and October last, viz:

\$25.00 from Missouri River points—Sioux City to Kansas City inclusive.
\$30.00 from St. Louis.
\$31.00 from Peoria.
\$35.00 from Chicago.

Rates to be no higher from intermediate stations.

The rates will apply via all routes through Portland, but will not apply via Sacramento. Tickets routed via Union Pacific, Oregon Short Line, O. R. & N. to Portland, will be allowed stop-overs not to exceed ten days, at all points west of Pocatello, and in order to enable intending settlers to look over the Willamette Valley and Western Oregon thoroughly this company will allow as many stop-overs as desired at stations intermediate to final destination of the ticket, each stop not to exceed ten days.

This announcement is of special importance as it insures the necessary cheap rates and arrangements to bring a large immigration to Western Oregon next spring. Please have your newspapers give it publicity, as no doubt a great many of our people who have already moved to Oregon from the middle states and the east will advise their friends and relatives who will take advantage of the low rates to visit Oregon. Yours truly,
W. E. COMAN, G. P. A.
