ARE UNJUST MEASURES.

Mr. W. C. Cowgill, of Baker City, interested in the mining business and city editor of the Morning Democrat, while in the city Thursday on business, was questioned by the Nugget as to the position of the mining men on the petition of referendum on the corporation tax and portage railway bills passed at the last legislature. In reply Mr. Cowgill said:

Those of us who have examined this matter believe that the state is not justified in imposing an extraordinary capital stock tax on all mining companies, incorporated cattle, mercantile and real estate firms for the mere privilege of having a name, and then in the face of a \$500,000 appropriation for the Lewis & Clark fair, turn around and throw \$165,000 squeezed out of the companies endeavoring to develop the resources of the state into a portage railroad at the Dalles which will require \$500,000 to build, equip and put in operation and which the promoters admit is only a temporary make shift, and which will take three more legislatures to complete, when by that time the federal government will have finished the canal and locks at that point already commenced, and which is the only true solution of Columbia river transportation. Why not use common sense, when the state is already taxed to the limit?

John C. Havemeyer is out in a long harangue about patriotism in which he ridicules the people of today for their version of the term. Among other unnecessary remarks he says: "The teaching of patriotism in public schools is illogical and harmful and will lower the tone of citizenship with the coming generations. The salutation offered a piece of bunting called the flag is a form of idolatry." This sounds queer in America, a liberty loving country. Such sentences are calculated to make such men as Washington, Lincoln, Patrick Henry, et al., turn over in their graves with a groan. Incidentally, patriotism seems to have cut quite a figure in this country. Again, patriotism and loyalty to that "piece of bunting called the flag" has made it possible for blather-skites to insult the insignia of American patriotism and manhood, and get off short of the rack.

The annual edition of the Daily Mining Record, of Denver, Colorado, is one of the most complete editions yet published. It practically covers the mining fields of the United States in every detail. Bohemia has nearly two pages, thanks to the pen of F. J. Hard, of the Oregon Mining Exchange, Portland, Oregon.

Hamlet is being tried in mock court by some college students back in Iowa for the murder of the king. The defense sets up the plea of insanity. Poor Hamlet, he's in a tight place; wonder if he'll hang?

Governor McBride of the State of Washington is showing his opponents that he is something of a goer. He is vetoing their pet bills right and left.

SAVE THE LOVED ONES!

Mrs. Mary A. Villet, Newcastle, Colo., writes: "I believe Ballard's Horehound Syrup is superior to any other cough medicine, and will do all that is claimed for it, and it is so pleasant to take. My little girl wants to take it when she has no need for it." Ballard's Horehound Syrup is the great cure for all pulmonary ailments. 25c, 50c and \$1.00 at New Era Drug Store.

COTTAGE GROVE

The Little City, Nestled Among the Foothills of the Calapooia Mountains, Destined to be the Metropolis of Central Oregon.

Cottage Grove is a beautiful little town of 1500 inhabitants 144 miles south of Portland on the Southern Pacific Company's Oregon and California line, in Lane County, Oregon, 22 miles from Eugene, the county seat of the county.

The city nestles among the picturesque foothills of the Calapooia and Coast Range, a mile above the forks of Row River and the Coast Fork of the Willamette. Adjacent to Cottage Grove is some of the most fertile farms in the state. This section of Oregon cannot be surpassed in point of climate, productivity and business opportunities by any community in the United States. The town has the advantages of a good electric light system, as fine a water system, owned by the city, as can be found in country on God's earth. It has live and up-to-date business men as the advertisements in Bohemia Nugget will bear witness. Its church and school advantages are not surpassed by any town of its size on the Pacific coast. Great belts of the famous Oregon fir cover the mountains a few miles distant. Bohemia, the coming mining district of the United States is thirty miles away, and this district and Cottage Grove is connected by telephone and by the Oregon and Southeastern Ry., which will complete its line this year, the steel now being laid fifteen miles and work in progress.

Farming, cattle, sheep and goat raising and general merchandising are the chief occupations and all of these are successfully followed here. It is a good place to live. It is healthy. The climate is the best on earth—this locality the best. If you don't believe it, come and live with us. We are not a selfish people. We will welcome you, and you will thank us in your ripe old age for the hand of welcome we extended to you.

BEAUTY AND STRENGTH.

Are desirable. You are strong and vigorous, when your blood is pure. Many—nay, most—women, fail to properly digest their food, and so become pale, sallow, thin and weak, while the brightness, freshness and beauty of the skin and complexion, depart. Remedy this unpleasant evil, by eating nourishing food, and taking a small dose of Herbine after each meal, to digest what you have eaten. 50c at New Era Drug Store.

CHRISTIAN CHURCH.

The following synopsis is from the morning and evening sermons of Rev. Mackelvald at the Christian church last Sunday.

MORNING SERVICE.

"Christ the Captain of our Salvation." Heb. 2:10-18.

One cannot be a leader unless he is able to make lasting impressions on men. The great men of our country have done this. Christ has done and is still doing the same thing.

Although he was tempted in all ways yet he did not use divine power for selfish purposes. He did not conform to the world, and he relied on God and self.

EVENING SERVICE.

"We are Living in a Fast Age and Apt to Forget God."

We see God in nature, in man, and in revelation.

There is order in nature—each class deriving its support from the next lower class—from the spiritual down through the mental, animal and vegetable to the mineral.

Man will worship something, and he becomes like what he worships, whether it is money, land, or something higher.

The Bible was not written by man alone but was a revelation from God. From it we learn that we must all be judged after death and the good will be separated from the bad.

We are not our own but bought by Christ. We must have faith in God, repent, confess, be baptized and continue faithful unto the end.

The best physic: Chamberlain's Stomach and Liver Tablets. Easy to take; pleasant in effect. For sale by Benson Drug Co.

PIANOS.

Now that we are turning our attention greatly to the mineral smelting enterprise, of which you see an account in this paper, it is our intention to close out a lot of our stock of goods now on hand at greatly reduced prices. But at the same time while I am in the east there will be a competent man, whose name will appear hereafter, to attend to my business. So many people are turning their attention to the wonderful Needham piano that it is hard for us to keep up the stock of these goods.

HOW TO WARD OFF AN ATTACK OF RHEUMATISM. "For years when spring time came on and I went into gardening, I was sore to have an attack of rheumatism and every attack was more severe than the preceding one," says Jodie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house, and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment."
