## O. & S. E. RAILROAD.

Resumes Steel Laying—Right of Way to the Warehouse Will be Cleared as Soon as Possible.

### WORK COMMENCED ON PLUME

This week the Oregon & South-eastern commenced the laying of steel on the main track after several weeks lay off owing to having concentrated the company's working force on the gravel trains. It is expected that the company will be able to complete the main track to the Red bridge by July 1.

Commencing this week Thursday Manager Pearson has installed a double daily passenger service running from this city to the end of the line.

The steam shovel and crew which has been doing such effective work at the Bake Stewart gravel pit, left for Portland Monday. It will be some little time before another shovel is installed, but such arrangements will be made in ample time to complete the ballasting along the entire line before fall.

The company received ten car loads of rails, spikes and fish plates this week.

The Corvallis & Eastern engine and ten flats which were used in the distribution of gravel was returned early this week.

The big dam above the Warehouse is nearing completion and the Hammond Manufacturing Co., of Portland, sent up a force of ten men this week which is now employed on the flume to be laid from the dam to the power house, a distance of some 5000 feet.

The electric plant was shipped by the Westernhouse people on May 22 and is expected to arrive in Portland in a few days. It is also announced that the air compressor drills for the Oregon Securities Co. have been shipped.

### NOTES.

Little news is obtainable from the mines this week. The boys are apparently too busy to think of newspaper reports.

It is said that in opening up the Helena from the Champion side Superintendent Mathews has struck some exceedingly rich ore.

Al Churchill has completed his new cabin on the "Big Four" group on Fairview creek, and will soon commence development work. News from the Musick is to the effect that they are still driving in good ore.

Frank Hughes left for Bohemia this week and will commence development work on the Star mine immediately.

Wm. Griffith, who with Wm. Reed owns the Broadway, adjacent to the Champion, arrived here Wednesday and has gone into the hills and will commence development work on the Broadway this week.

### VISITS BOHEMIA.

C. W. Knapp, of Lancaster, Wisconsin, after an absence of five years, returned last week to Cottage Grove and revisited the scene of his early struggles in Bohemia District. Mr. Knapp owns three well developed claims near the foot of Hardscrabble hill and the old 2-stamp mill thereon. Although engaged in mercantile pursuits in the east he has kept ever in touch with Bohemia and had his property there improved every year, having now over 300 feet of tunnels, much surface work and a fine ledge of ore showing up. Overtures have been made him for the purchase of his property and he is here to consummate the deal. He at one time had a working bond on the Vesuvius property, which his last year sold for a good round sum. Mr. Knapp goes from here to Alberta in the Northwest Territory to look at some mining property he is there interested in and will then return to his home in Wisconsin. He notes the many changes for the betterment of Bohemia District and is more than ever satisfied that the camp is destined to be one of the greatest if not the best on the Pacific slope.

### FOR CARNIVAL QUEEN.

A voting contest will be held for the selection of a queen of the Midsummer Carnival to be held June 24, 25, 26, and 27. Voting in this contest will begin Saturday, June 6, and close at 6 p. m. June 17. Those wishing to vote will make their own selection of candidates and cast their votes accordingly. Voting tickets or ballots will be placed on sale at all the business houses where they may be procured at 1 cent each. Voting places at Skilman & Benson's grocery on the west side and New Era Drug Store on the east side. The young lady selected as Queen of this carnival will be presented with royal robes suitable for the occasion free.

### TRACK MEET.

In the dual field meet here Saturday between the Drain Normal and Cottage Grove the latter won a decided victory taking every first place save on the hammer throw, which was won by Harpham, of Drain, distance 88 feet 2 inches. Martin of Cottage Grove, should have won an easy first from Harpham and would have done so but for an injured muscle in his side.

The meet was clean and snappy throughout. The 100 yd. dash was a very pretty event and the two winners, Harman and Hill, both show speed and only need another year to make good sprinters. The mile run was the next event and Shivers had no trouble in winning with Griffin a close second, Moon, the Drain entry, was but a boy 17 years old yet he made a creditable showing and ran all the way.

The broad jump was easy for U. G. taking all three places. Emerick surprised all by tossing the shot nearly forty feet. He is surely a winner.

Moon showed speed in the 220 but could not hold out.

Harms would have made much better time had he not lost one of his shoes.

The high jump was one of the nicest events of the meet. Knox the veteran jumper, was an easy winner, but Martin was a close second and is a great jumper as well as vaulter.

Knox did well on the discus and defeated the big Harpham. The wind presented a better record.

Harms ran away from Harpham and Moon in the low hurdles. The pretest run was between Hill of U. G. and Capt. Johnson of Drain, in the 40 yd. Johnson led half the way when he was passed by Hill in one of the prettiest sprints which continued to the tape.

The pole-vault was a fine exhibition. Harpham fell out at 8 feet 6, when the bar was raised to near 10 feet and Knox on first trial sailed over it like a bird as did also Harms, Martin and Finerty. No team in the state has such a bunch of vaulters.

Sherk was picked to win the 800 yard run but was badly out of condition but made an excellent run taking second place for Johnson, of Drain at the tape.

The meet was a success and everything went on nicely. Two of Cottage Grove's men were called down by the judges for getting on the track where they did not belong.

FRANK REISNER, S. W. TAYLOR, A. C. JENNINGS, S. R. WILLIAMS, Ex-Com.

### CONSTIPATED BOWELS.

To have good health, the body should be kept in a laxative condition, and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. Main St., Wichita, Kansas, writes: "I have used Herbine to regulate the liver and bowels for the past ten years, and found it a reliable remedy." 50c at New Era Drug Store.

## I WILL MAKE ...Special Prices... ON HEAVY HARNESS Until July 1st, 1903 Come and see me. My Stock is complete. FRED GALE, West Side.

### A SLENDID REMEDY

Neuralgic pains, rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone, and being absorbed into the blood, its healing properties are conveyed to every part of the body and effect some wonderful cures. Mr. D. E. Moore, Agent Illinois Central Railway, Milan, Tenn., states: "I have used Ballard's Snow Liniment for rheumatism, lumbago, etc., in my family. It is a splendid remedy. We could not do without it." 25c, 50c and \$1.00 at New Era Drug Store.

### LONDON ITEMS.

The election is over and the ballots all counted. The count is as follows: W. P. Elnore, 6; Binger Hermann, 5; J. W. Ingle, 1; A. E. Reames, 25; total 37. There are about 100 legal voters in this precinct.

A few years ago times were so hard the voters considered it useless to vote. Now times are good and they consider it useless to vote. It seems strange that men will spend so much time abusing officers, kicking about hard times, bad laws, etc., and then have no time to attend primaries and general elections. It would be a good scheme to either wake up or else quit kicking.

Your correspondent is puzzled to know just what there is about London that is so attractive to George Powell. It is certainly not the health giving effect of the Springs for George seems to enjoy good health. However he is considerably interested about something.

### HIS LAST HOPE REALIZED.

(From the Sentinel, Gebo, Mont.)  
In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the lot case one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the disease became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorder being at hand suggests this item. For sale by Benson Drug Co.

### OUTS, BRUISES AND BURNS QUICKLY HEALED.

Chamberlain's Pain Balm is an anti-septic liniment, and when applied to cuts, bruises and burns, causes them to heal without maturation and much more quickly than by the usual treatment. For sale by Benson Drug Co.
