

Devoted to the Mining, Lumbering and Farming Interests of this Community, to Good Government, and Hustling for a Grub Stake.

VOL. V

COTTAGE GROVE, OREGON, FRIDAY, JUNE 26, 1903.

NO. 23

THE BOHEMIA DISTRICT

An Important Mining Company Organized in this Famous Mining Camp—The Company Owns Eight Full Claims

GLENWOOD MINING & MILLING CO.

The Preliminary Work on this Property has been done—Development Work will now be Pushed as Rapidly as Possible.

This company was incorporated in March, 1903, with a capital stock of \$1,000,000 dollars, divided into 1,000,000 shares of the par value of \$1 each, with their principal office at Cottage Grove, Ore.

The incorporators are: Herbert Eakin, D. G. McFarland, H. Louisa Leonard, George McQueen and Fingal Hinds, of Cottage Grove, Ore., and Emil G. Lindstrom, superintendent of the Tacoma & St. Paul Lumber Co., of Tacoma, Wash. The officers are: Pres. and Treas., Herbert Eakin; vice treas., D. G. McFarland; sec., A. H. King; supt. of mines, Fingal Hinds, a practical miner of forty years experience.

The company owns all its properties, has no indebtedness, no bonds, no preferred stock. All shares are paid and non-assessable, with no personal liability and when once paid for at any price are subject to no further assessment, tax or call of any kind.

The property of this company consists of The Lost Mine Group of three claims and The Glenwood Group of five claims all contiguous property, located on the west slope of Bohemia Mountain, thirty-one miles from Cottage Grove. This company has for its neighbors on the east the famous Musick

have almost an ideal location, lying side by side as they do, off down the mountain slope, they can be developed from one common point. The Glenwood creek runs through the properties furnishing ample water power all the year, the expense of developing and working the mine will be reduced to a minimum. There is also timber of a fine quality on this property for all necessary purposes during the next forty years. The climate is mild in winter, the properties being sufficiently below the snow line to be operated all the year. Another great advantage to the property is the county road running directly across it thus furnishing free and easy access to and from the mines to the present terminus of the Oregon & Southeastern R. R., sixteen miles away. However the railroad is proposed to be built within three miles of The Glenwood the terminal yards for shipment to the smelter.

The property is well equipped with cabins, roads have been built and all preliminary work has been done and the property is now ready for extensive development work. Four tunnels have been run in on different veins from twenty-five to eighty feet, in all about three hundred feet. Assays of the ore has

Closing Out At Cost

Window Shades	Crockery
Mattings	Glassware, Tubs
Carpets	and Washboards

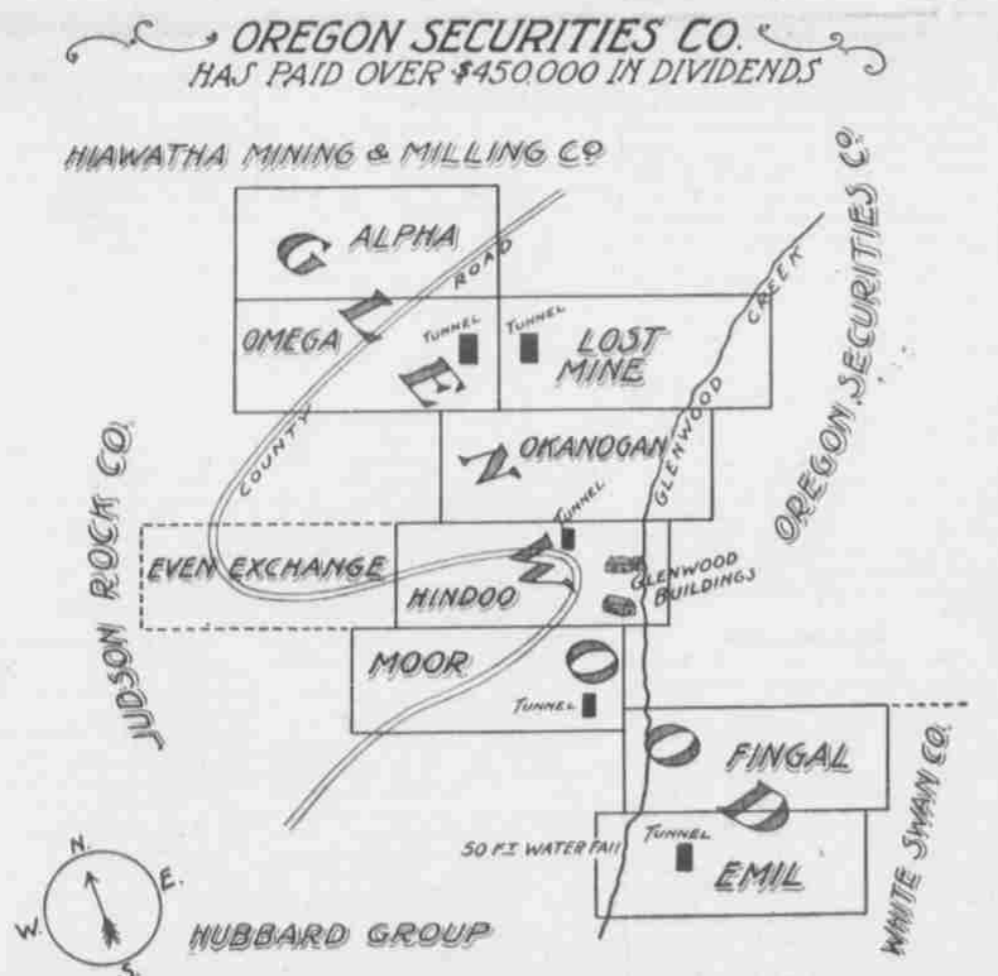

Our Entire Line of These Goods Will Be Closed Out At Cost For Cash. Here is an Opportunity For Good Bargains.

Eakin & Bristow.

LADIES' GOODS.

Our line of ready made ladies waists, wrappers, in fact everything that is in ladies ready made garments, is by far the best we ever had. Our line of waists for up to date style and price and assortment is not excelled south of Portland. **Price From 50c to \$6.50.** We have some excellent values in ready made skirts, a line of light gray home spun, extra good values. We bought these at a bargain, and give a bargain when we sell them at **\$2.50** easily worth \$3.50. Dark grays, good material, **\$3.50 to \$5.00.** Black Silk **\$11.25**

PROPERTY OF THE GLENWOOD MINING & MILLING COMPANY SHOWING THE ADJOINING PROPERTIES

mine of the Oregon Securities Co., incorporated for \$5,000,000 and which has been a regular dividend payer for ten years. On the north lies the properties of the Hiawatha Mining and Milling Co., incorporated in 1901 for \$100,000. This company embraces some of the best claims of the district, one vein being considered the mother lode of the district, and they have several hundred tons of ore on the dump that will assay \$12.50 per ton in free gold, while on the west is the well known Judson Rock Co., incorporated about two years ago with a capitalization of \$150,000. The development done by this company shows beyond question there are immense fissure veins beneath carrying rich values and it is only a question of time until it also will be one of the dividend payers of the camp. The Glenwood properties having such well known and merited properties on the east, north and west, is certainly unique, and it is self evident they will bear a great deal of consideration from those seeking an investment. The properties of this company

run as high as \$79.38 per ton in gold. A crosscut is now to be run which will tap the ledges at a vertical depth of 1000 feet and for this purpose a limited amount of the treasury stock has been put on the market at three cents per share and as soon as a sufficient amount of money has been raised for this purpose, the price of stock will be doubled. Only such amount of stock is intended to be sold as is necessary for development work and the installing of such necessary plants and machinery as will make the mine a dividend payer.

INVESTMENTS IN THE STOCK OF THIS COMPANY.

The principal thing to be considered in making a mining investment is this. Who and what are the men connected with the enterprise? In the first place, reliable men will not be connected with a property that they did not believe to be valuable. In the second place, with good men behind an enterprise you can be certain that the business will be honestly conducted and the system of financing will be conservative and reliable. Thirdly, it

you have good men behind an enterprise, reliable men experienced in mining, then there is practically no risk for the properties are submitted to the close, careful examination by more than one competent expert and the business is handled by good men.

Now after covering this subject there arises only the question, How can the small investors become interested in properties handled by such men?

You can pay cash for stock which is the most expensive way or buy on the installment plan which the company believes to be the best advantage to the investor. It takes time to do everything around a mine. Machinery has to be bought and shipped into the mines, often it has to be made to order. It takes time to run tunnels, upraise, put up machinery, etc. In fact, it takes time to do everything. It cannot be done in a month or a year, and when anyone represents to you that it can be done in a few months, he either lies or does not know. In running the tunnel, upraise or sinking a shaft only two or three

men can work at a time, and if you had one hundred men on the ground you could not hasten the work.

In buying installment stock the investor is benefited. Because payments are easy. He can pay 20 per cent cash and the balance in easy monthly payments, the stock to be issued when paid for notwithstanding any advance in the price of stock.

It gives a man who is earning a salary an opportunity to invest that he could not take advantage of if he were required to pay cash.

Because if it should prove unsuccessful, he can stop his payments and will not be inconvenienced at the small amount he has invested.

Because a fake cannot run on the installment plan, for you would find it out and stop your payments, and so would every other stockholder. When there are a large number of stockholders, somebody would visit the mine or somebody would have a friend in the neighborhood of the mine or some mining paper would expose it as a fake. A fake could not last long on the installment plan. A fake wants to get your money quick and get away with it. On the installment plan, in order to keep the stockholders paying, work must be continued, and if the money is spent on your property they are making it more valuable, and a fake company does not want to spend money on the property, they want you to buy stock and they will keep the money.

Because only a good company of reliable men can operate on the installment plan. If reliable men are behind the enterprise and the mine does not prove valuable, these men would discover it. They would notify the stockholders and payments would be stopped. They would not take the money after they discovered the mine was not a success and the stockholders would be out only the money they had spent in testing the property.

Moreover, the company believes the installment plan is better from the company's standpoint. Because, first, they have a known amount of money to work on each month. They know they will receive the same amount to pay their miners with, six months from today, and they can make their plans accordingly.

Secondly, they are sure it will come in every month. Whereas, if they had to sell stock for cash, they are not sure of it, for they might sell enough stock one month, and might fail to find a buyer for stock next month, and if they failed to pay their bills they would have a mechanics' lien filed up on the property.

Thirdly, it is easier to find 100 men who can invest \$10 per month than it is to find one man who can invest \$1000 cash.

Fourthly, each stockholder being interested in the mine does his

Children's Clothing

It is time now to buy clothing for the children. We undoubtedly have the largest and best assortment of values in boys clothing in the country. We still have some of the Roy stock left that we are selling way below the manufacturer's price. **\$1.50 to \$10.00**

Men's Hosiery

We have an excellent line of men's socks, fancy and plain colors. We are always looking out for the latest things in the market. Our fancy striped and drop stitch are beauties, no store keeps a better assortment than we do.

A SPLENDID REMEDY

Neuralgic pains, rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerves and bone, and being absorbed into the blood, its healing properties are conveyed to every part of the body and effect some wonderful cures. Mr. D. F. Moore, Agent Illinois Central Railway, Milan, Tenn., states: "I have used Ballard's Snow Liniment for rheumatism, backache, etc., in my family. It is a splendid remedy. We could not do without it." 25c, 50c and \$1.00 at New Era Drug Store.

HIS LAST HOPE REALIZED.

(From the Sentinel, Gebo, Mont.)

In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one fine day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure, and he cannot help but feel grateful. The season for bowel disorder being at hand suggests this item. For sale by Benson Drug Co.
