If the blood is in good condition at the beginning of the warm season, you are prepared to resist disease and are not apt to be troubled with boils, pimples, blackheads and blotches, or the itching and burning skin eruptions that make one's life a veritable forment and misery.

New is the time to begin the work of cleansing and building up the blood and strengthening the weak places in your constitution. During the cold winter months we are compelled I had a horrible

0

to live indoors and breathe the impure air of badly ventilated rooms and offices. We over-work and over-eat, and get too little out-door exercise, and our systems become clogged with impuri-ties and the blood a hot-bed of germs and humors of every kind, and warm weather is sure to bring a reaction, and the poisonous matter in the blood and system will break out in boils and pustules or scaly eruptions and red, disfiguring bumps and pimples. Make a good beginning this season by taking a course of S. S. S. in time; it will not only purify your blood and destroy the germs and poisons, but promote healthy action of the Liver and Kidneys and give you a good appetite at a time when you need it most.

when you need it most. S. S. S. improves the digestion and tones up the Stomach, and you are not continually haunted by the fear of indigestion every time you eat, or troubled with dizziness, nervousness and alceplesaness. There is no reason

to dread the coming of warm weather if you have your system well fortified and the blood in a normal, healthy condition. It is the polluted, sluggish blood that invites disease germs, microbes and poisons of every kind and bring on a long train of spring and summer allments, break down the constitution, and produce weakness, lassitude, and other debilitating disorders. Eczema, Acue, Nettle-rash, Poison Oak and Ivy, and other irritating skin troubles are sure to make their appearance unless the humors and poisons are antidoted and the thin, acid blood

made rich and strong before the coming of warm weather.

A course of S. S. S. now would be a safe precaution and a good beginning

A course of S. S. S. now would be a safe precaution and a good beginning and enable you to pass in comfort through the hot, sultry months and purely vegetable and is recognized as the best blood purifier and the most in-vigorating and pleasant of all tonics.
