FRIDAY, OCTOBER 23, 1903.

How about that sewer question? It is self evident that a city like Cottage Grove must make provision for correct sanitation. The question of a few dollars does not enter into the discussion at all. A state law should be enacted directing that each city or town of more than 500 inhabitants construct and maintain a sewer system of sufficient capacity to drain and cleanse the town of all filth and refuse. There would be no question then of rights of cities to transact such business. If the city has no right under its charter to construct a sewer then the charter should be changed and an effort should be made to get the change at the earliest possible moment.

The farming and fruit growing of Southern Lane County has received marked attention this year and as a result some very fine samples of fruit and vegetables have been brought to Cottage Grove for display. This is as it should be. Southern Lane County ought to produce sufficient fruit to attract the attention of outside buyers. The soil is here and also plenty of good land, but not sufficient surplus after supplying local demand to pay outside buyers. Good orchards will always pay large dividends and farmers as well as bankers are looking for dividends.

The release of Tillman in South Carolina came as a great surprise to people throughout the United States. Either the Associated press failed to report the shooting as it really occurred and the particulars leading up to it, or else the jury who turned him loose had too much talk, or some other good old southern product that rendered their judgment extremely bad.

Cottage Grove can boast of a school that is equal to the best in the state, if boasting were permissible. The school is under the management of an excellent corps of teachers and a very wide-awake principal who makes the school his business and study and the results are seen by all.

THE WINTER MILLINERY.

High-crowned hats are the seasons preference, but there are shown many pretty pleaux which are bent and twisted into becoming shapes. The moderate sized Gainsborough trimmed with ostrich plumes is perhaps the most popular hat. One of the distinctive features especially in evidence among the small hats and toques is the Directorate crown; it is flat on top and straight up the sides, while it varies in height from two to three inches.

Braids are being used to fashion novel hats. Velvets were never before so attractive and are shown in all the stylish colors. Molekin felts are adapted to the fashionable shapes and almost rival in beauty the velvet creations. Fur hats are stylish.

The toque and other small hats of velvet are trimmed with birds, wings or quills and ribbons, and lace enters largely into the adornment of the dressy hats. Buckles are again conspicuously employed on hats, a fact partly due to the prominence of high crowns. Ribbons are an important decorative item, and the new samples are broad and extremely soft and fine, of either taffeta or liberty satin texture, and in plain colors. A novelty introduced in the trimming of some of the smartest hats is the herring-bone stitch.—From The Delinquent for November.

PREMIUM CABBAGE.

Walt Garoutte, some time ago sold to Morse & Metcalf a cabbage weighing 28 pounds and the Nugget noting the size of it offered one year's subscription for a cabbage that would beat it. On Tuesday Mr. Garoutte presented himself at this office with one weighing thirty-one pounds and of course we gave him the receipt for one year's good reading. It is the opinion of the Nugget that he must have a large size ranch or else these two were the only cabbage he raised—doubtful if he had room for any more. The Nugget now challenges the State of Oregon for a larger cabbage, by measurement and weight. The one delivered at this office is in our display window and the question of offering a reward for a barrel large enough to kraut this one head in is being considered—sealed bids for building the barrel will be received from cooperation works in any part of the state.

A SAD CONDITION.

An astonishing situation is revealed by an article recently published in the Independent. Every one has known that Kentucky mountain people were addicted to guns, feuds and ready vengeance, but were scarcely prepared for the utterly unparalleled showing here made. According to the reports made by the coroners of the various counties there have been 798 homicides in the last five years in the state, exclusive of Breathitt county, from which no returns were made, is no one has been willing to accept the office of coroner in that county for three years.

This is the county in which the grossest lawlessness exists and in which the killing of three prominent men last May aroused the entire state to an outraged demand for law enforcement.

It is easy to see where the trouble lies, when it is known that 1,131 persons have been pardoned by governors since 1889 before they even entered the penitentiary walls, although regularly convicted for crimes by the courts of the state. Of men sentenced for life, 120 have been pardoned after an average term of seven and one-half years.

All this shows the utter laxity of public sentiment since official lawlessness of this sort would be impossible except it were indorsed by an overwhelming indifference.

James B. Marcum, a promising and already prominent man shot last May, headed the petitioners who, a few months earlier, had secured a pardon for the murderer Jett, who killed Marcum. Such occurrences as this ought to be more effective than any moralizing.

General O. O. Howard has been going about among the mountains of this state preaching against feuds and the Salvation Army has begun an energetic campaign for the same purpose.—Telegram.

W. C. T. U. NOTES.

The Woman's Christian Temperance Union holds its Annual State Convention in Salem, Oct. 20 to 23. President Mrs. Helen D. Harford in charge. Miss Lillian Phelps, a noted speaker from the Canadian W. C. T. U., will be present and add interest to the sessions.

BACHELOR'S HONEYMOON.

This clever play, which will be interpreted by Clement-Keefer Co., is perhaps the best farce comedy ever written. It has been done by only the best companies and in the large theatrical centers, and the Clement-Keefer Co., which has no superior as a traveling organization, pay a high royalty for the play. This company proposes producing only high-class standard plays of which a "Bachelor's Honeymoon" is a fair type. The management requests those who do not enjoy a good laugh to remain away. The play is credited with 1900 laughs. The characters are all nicely drawn and true to life, which places this play far above the ordinary farce. It has sufficient logical plot to furnish legitimate surprises and is wholesome as well as laugh provoking. This will be the only opportunity to see the comedy. Clement-Keefer Co. has sole rights for its production in the northwest.

This company will appear at Martin's Hall, Oct. 30. Reserved seats 35 and 25c. The C. M. A. Band of this city will furnish street and orchestra music.

DO GOOD—IT PAYS.

A Chicago man has observed that, "Good deeds are better than real estate deeds—some of the latter are worthless. Act kindly and gently, show sympathy and lend a helping hand. You cannot possibly lose by it." Most men appreciate a kind word and encouragement more than substantial help. There are persons in this community who might truthfully say: "My good friend, cheer up. A few doses of Chamberlain's Cough Remedy will rid you of your cold, and there is no danger whatever from pneumonia when you use that medicine. It always cures. I know it for it has helped me out many a time." Sold by The Modern Pharmacy.

It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip; that it counteracts any tendency of these diseases to result in pneumonia, and it is pleasant and safe to take. HAS IT FOR LESS.

Just for a few days, till Nov. 1st, there is going to be a little extra doing in our Clothing Department. There is no reason on earth why we shouldn't do double our present clothing business. We have a splendidly selected stock, and from the way things have been selling this fall we know the price is right. However just to make it interesting for 10 days we will make a sweeping cut of 10 to 15 per cent on all Children and Men's clothing.

Boys Suits were \$1.45 now \$1.20. Men's Suits were \$15.00 now \$12.00. Our Suits have always been marked in plain figures and those who have looked through our stock "just rubbering" will readily see that the prices haven't been marked up for this sale, so it is a bonafide reduction in prices. We have Boys Suits at \$1.20, \$1.50, \$1.75 up to \$8.40. Mens \$4.85 to \$20.00. Boys Overcoats \$3.00

to \$7.00. If you need clothing you can't afford to pass this chance up. We have a splendid stock of Mackinaws, and Woolsen Underwear, and Top Shirts, Blankets, Quilts, etc. We just received another large invoice of Shoes, including the famous "Dial 76" line and Washington Logger line. We also have a complete line of rubber goods, lined stock, and waterproof coats etc.
