TICK TO THE ANTONES S. TIMER CAM

Every Catarrh sufferer dreads the coming of winter, for with the first breath of the "icc-king" this miserable disease is fanned into life and all the disgusting symptoms return. The nostrils are stopped up and the throat can be kept clear of mucous accretions only by continual hawking press. COULD NOT HEAR THE TICK OF A

and spitting. Catarrh is a nuisance and source of annoyance, not only to the one who has it; but everybody else. The thick, yellow discharge from the head produces a feeling of personal defilement, and the odor of

personal deplement, and the odor of the breath is almost intolerable. The catarrhal poison brings on atomach troubles and affects the Kid-neys and Bladder. It attacks the neys and Bladder. It attacks the soft bones and tissues of the head and throat, causing total or partial deafness, the loss of smell, and giving to the voice a rasping, masal twang. No part of the body is secure from its ravages. Catarrh makes you sick all over, for it is a disease of the blood, and circulates all through the system, and for this through the system, and for this reason, sprays, washes, inhalers, powders and salves have proven

The way to cure Catarrh thor-The way to cure Catarrh thoroughly and permanently is to cleanse the blood of the unhealthy secretions that keep the membranes of the body inflamed, and nothing does this so surely and promptly as S. S. As long as the blood is poisoned with Catarrhal matter the discharge of mucus and other disgusting symptoms of the miserable disease will continue. S. S. Goes to the fountain source of the miserable disease will continue.

Dear files:

I have used E. S. S. for Catarrh of the inner ear, and have found it an excellent remedy for same. I had been troubled with this disease for years and tried many things in an effort to get relief, but nothing did me any permanent good until I began S. S. I had a discharge from my sar and my hearing was so badly affected that I could not assar the tick of a clock. I was in bad shape when I began your medicine. S. S. S. has done away with the discharge and my hearing has been wonderfully improved; so much so that I can now earry en a conversation in an ordinary tone, whoreas a year ago this was impossible.

Your medicine has done me a world of good and I do not healtate to give it the credit it doserves.

The above headlines recite the | irregular menstruation, also intense actual experience of a poor wreck of a woman who had once held an houorable and lucrative position in a large mercantile house in New York. Her health began to fail, and instead of taking rest and proper medical treatment she resorted to stimulants and morphine-

The hospital physician discovered that her primary trouble was an affection of the womb, which could readily have been cured in the first stages. 16 when she had first felt those severe pains in the back, the terrible headnehes, the constant sense of fullness, soreness and pain in the pelvic region, she had heedel the warning that serious troublegwas in store, and commenced a regular treatment with the Pinkham Remedies, as did Mrs. Rober of Chicago, whose letter follows, the polypus in the womb would have been dissolved and passed away, and to-day

she would have been a well woman. Why will women let themselves drift along into terrible suffering and sickness in this way, when there is monumental proof that Lydia E. Pinkham's Vegetable Compound is daily relieving thousands of women from this very trouble? There is no excuse for any woman who suffers to go without help. Mrs. Pinkham is very glad indeed to give her personal advice to any one who will write for it, and the following letter simply goes to prove that the Vegetable Compound will positively cure female ills:
