LOOK TO OREGON.

View of Engineers on The Daties-Cetts Canal Right of Way.

Washington, Dec. 1.—Engineer offi-ers in Washington are inclined to be eve The Dalles-Celilo canal situation very much simplified by the fact that here is to be an extra session of the fregon legislature. These officers say mch a session presents an opportunity for an early and a theroughly satisfact ory solution of the problem raised by the recent restrictive order of the secretary of war, who demands that right of way for the canal shall cost the gov-

ernment nothing.

It is the opinion of the engineers that the legislature should make an ample appropriation to purchase the desired right of way, as they are convinced the state can not only get the eeded lands sconer, but cheaper, than ould the general government, should t resort to condemnation proceedings.

Among engineer officers who arknown to be friendly to The Dalles-Ce illo canal project, three is a bope that i may not be necessary to go to conor purchasing this right of way. They therefore beshall acquire the right of way under an appropriation of its legislature, and present the land to the general govern-ment, as was contemplated by the sec-

retary of war.

If the legislature will make such a appropriation as was suggested, there will be no necessity for congress to give further consideration to The Dalles-Ce lilo project, except to make annual ap Utah miners declare they will not which has heretofore been authorized, and for the commencement of which there is now over \$300,000 available.

He was met at the station by a son of Dr. Herran, the Colombian harge, and went at once to his hotel. Later in the day he had a conference with Dr. Herran. General Reyes, talk-ing with a representative of the Asso-

"You will readily admit the proprie y of my refraining from discussing my mission, which is of a confidential character. Of the offers which Colom-bia is ready to make, I desire to say my energies and those of my followers will be devoted to the granting of the canal concessions to the United States without the payment of a cent. Even at this Colombia will be the gainer." "Are you authorized by President Marronnin to make this offer to the United States government?" General
