### Hair Falls

"I tried Ayer's Hair Vigor to stop my hair from falling. Onehalf a bottle cured me."

J. C. Baxter, Braidwood, Ill.

Ayer's Hair Vigor is certainly the most economical preparation of its kind on the market. A little of it goes a long way.

It doesn't take much of it to stop falling of the hair, make the hair grow, and restore color to gray hair. \$1.00 a bottle. Att druggists.

If your druggist cannot sopply you, end us one dollar and we will express u a bottle. Be sure and give the name your nearest existess office. Address J. C. AYER CO., Lowell, Mass. WORK OF THE SCIENTISTS.

Americans Too Busy to Devote Them-solves to Original Research. The American man of science works

when you apply lotions or in the general laboratory of applica liniments. It simply loosens then and assimilation, says the Booklovers' Magazine. The individual and epoch-making discovery is not usually made under American conditions. It has not been here that chemistry has been recognized by the periodic law of dition of the blood on which Mondelejeff, or physics by Helmholtz's conception of the conservation of en-The greatest work of mathe matics has not come from Americans, and it is not from them (if we except the work of Willard and Walcott Glbbs) that the flying leap has been taken from the conceptions of the mathematicians to the concepts of molecular or chemical physics. American physiciats last winter seemed to be principally occupied in describing to more or less popular audiences what French and English physicists had accomplished in radium and radiant en-

The broad, continuous record is made here in a wide round. So is the practical application of scientific discovery made elsewhere; but the inRisl discovery, the co-ordinating theory is not usually American.

Bessemer, a German, discovered the steel process that bears his name. English capital applied it. The United States makes more than half the world's Bessemer. This is not an invariable sequence, but it is frequent. Research in Germany; primary application in England; expansion in Amer

It is in this country, most rife with the application of science but deficient in original research, that Mr. Andrew Carnegie has given to this special work the largest endowment yet consecrated to the extension of the boundaries of knowledge. It is a favorite theory in-American scientific circles that much discovery is stifled here by the insistent claims of teaching on time and strength. If this be so the revenue of the Carnegie Institute furnishes an escape. If it does not the cause for the relative absence of discovery must be looked for in our imperfect elementary education, which stiffes where it should stimulate and dulls by routine and mechanical teaching, leaving the mind unable to profit to the highest by higher study in succeeding years.

#### THE FATHER-IN-LAW OF EUROPE.

Herewith is reproduced the latest portrait of King Christian, of Denmark, who has been dubbed the "father-in-law of Europe" owing to the fact that his children have married into reigning families of several of the great powers. One of his daughters is

Coaning the Boy. "Did I understand you to say that this boy voluntrily confessed his share in the mischlef done to the schoolhouse?" asked the magistrate, ad-ddessing the determined-looking female parent of a small and dirty boy.
"Yes, sir, he did," the woman "re-

sponded. "I just had to persuade him a little and then he told me the whole thing voluntarily.

"How did you persuade him?" querted his worship. "Well, first I gave him a good hid-

ing," said the firm parent, "and then I put him to bed without any supper and took his clothes away and told him to stay in bed until he confe-s d what he'd done, if 'twas the rest of his days, and I should thrash him again in the morning. And in less than an hour he told me the whole story

A man should be getting on well in life when he is getting well on in life Some rules work both ways a some others won't work cither way.

Mrs. Anderson, a prominent society woman of Jacksonville, Fla., daughter of Recorder of Deeds, West, who witnessed her signature to the following letter, praises Lydia E. Pinkham's Vegetable Compound.

"Dean Mas. Pinkham: — There are but few wives and mothers who have not at times endured agories and such pain as only women know. I wish such women knew the value of Lydia E. Pinkham's Vegetable Compound. It is a remarkable medicine, different in action from any I ever knew and thoroughly reliable.

"I have seen cases where women doctored for years without perma-"I have seen cases where women doctored for years without permanent benefit, who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. A few doses restores my strength and appetite, and tomes up the entire system. Your medicine has been tried and found true, hence I fully endorse it."—Mas. R. A. Anderson, 225 Washington St., Jackson, Marchael St., School, School, St., School, St., School, St., School, St., School, sonville, Fla.

Mrs. Reed, 2425 E. Cumberland St., Philadelphia, Pa., says:

"DEAR MRS. PINKHAM: — I feel it my duty to write and tell you the good I have received from Lydia E. Pinkham's Vegetable Com-

pound.

"I have been a great sufferer with female trouble, trying different doctors and medicines with no benefit. Two years ago I went under an operation, and it left me in a very weak condition. I had stomach trouble, backache, headache, palpitation of the heart, and was very nervous; in fact, I ached all over. I find yours is the only medicine that reaches such troubles, and would cheerfully recovered Lydia E Plukham's Versatalle.

such troubles, and would cheerfu ommend Lydia E. Pinkham's Veg Compound to all suffering women. ommend Lydia E. Pinkham's Vegetable When women are troubled with irregular or painful menstruation, weak-ness, leucorrhosa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion, and nervous prostration, they should remember there is one tried Lydia E. Pinkham's Vegetable Compound at once

The experience and testimony of some of the most noted women of America go to prove, beyond a question, that Lydia E. Pinkham's Vegetable Compound will correct all such trouble at once by removing the cause and restoring the organs to a healthy and normal condition. If in doubt, write Mrs. Pinkham at Lynn, Mass, as thousands do.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute.

\$5000 FORFEIT if we cannot forthwith produce the original letters and eignatures above testimonials, which will prove their absolute gentineness.

# IS COMING

Every Catarrh sufferer dreads the coming of winter, for with the first breath of the "ice-king" this miserable disease is fanned into life and all the disgusting symptoms return. The nostrils are stopped up and the throat can be kept clear of mucous secretions only by continual hawking

and spitting. Catarrh is a nuisance and source of annoyance, not only to the one who has it, but everybody else. The thick, yellow discharge from the head produces a feeling of personal defilement, and the odor of the breath is almost intolerable.

The catarrhal poison brings on stomach troubles and affects the Kidneys and Bladder. It attacks the soft bones and tissues of the head and throat, causing total or partial deafness, the loss of smell, and giving to the voice a rasping, nasal twang. No part of the body is secure from its ravages. Catarrh makes you sick all over, for it is a disease of the blood, and circulates all through the system, and for this reason, sprays, washes, inhalers, powders and salves have proven

The way to cure Catarrh thoroughly and permanently is to cleanse the blood of the unhealthy secretions that keep the membranes of the body COULD NOT HEAR THE TICK OF A CLOCK.
Watsontown, Pa., July 13, 1913.

Watsontown, Pa., July 13, 1902.

Dear Sirs:

I have used S. S. 5. for Gatarrh of the inner sear, and have found it an excellent remedy for same. I had been troubled with this disease for Fears and tried many things in an effort to get relief, but nothing did me any permanent good until I began S. S. S. thad a discharge from my ear and my hearing was so badly affected that I could not hear the tick of a clock. I was in bad shape when I began your medicine. S. S. Has done away with the discharge and my hearing has been wonderfully improved; so much so that I can now carry on a conversation in an cridinary tone, whereas a year ago this was impossible.

Tour medicine has done me a world of good and I do not heatale to give it the credit it deserves.

W. F. KRUMBINE.

NO SIGN OF CATARRET IN THIR THEN YEARS.

Ersbs, Ind. Ter., Aug. 1, 1903.

Dear Sirs:

About thirteen years ago I used your remedy for Catarrn. I had been troubled with it for about nine years, but since taking 8. S. have never been worried with it. I feel able to recommend 8. S. S. as a sure cure for Catarrh.

that keep the membranes of the body inflamed, and nothing does this so surely and promptly as S. S. As long as the blood is poisoned with Catarrhal matter the discharge of mucus and other disgusting symptoms of the miserable disease will continue. S. S. S. goes to the fountain source of the trouble and purifies and enriches the blood, and so invigorates and tones up the system that catching cold and contracting Catarrh is not so likely to occur. s'pose I'm only a punkin with no blood to speak of an' no heart at all!" he said, with the air of holding himself nobly in check. Mrs. Tenney refused to accept the challenge. "That's neither here nor there—you're bein' a punkin," she repiled. "What I want to know, Amos, is what you've got sgainst George Raymond? He don't drink; he smokes, I believe, but only a pipe, not them cigarettes. He's got a good education, an' still he's willing to work. An' he's just lost in love for Allce.

"Shouldn't wonder 'f he was," said Mr. Tenney, complacently, "Nothing strange about that, with me the best fixed man in the township."

"Why, Amos, I am surprised?" ex-claimed Mrs. Tenney. "You know 's well you want to know that George would want Alice just the same if she rome from-from the Drommetses, down Tunkett way."

"Mebbe," said Mr. Tenney, discreet-"Do you mean that he cares for

Alice because you're well-to-do?" fisshed Mrs. Tenney.
"Not altogether," said Mr. Tenney. coolly. "But 'tis hardly likely that he's unawares of the fact that Alice will have all I've got some day. You know

he'll never have a penny from any "So you mean to give me to under-stand that he's scheming an' calc'ist-

ing on Alice's prospects—is that it?" demanded Mrs. Tenney. "I ain't accusing him of anything." said Mr. Tenney, impartially. "I'm merely saying that George is a poor young man an' that Alice's prospects are good."

You was poor yourself when I married you," said Mrs. Tenney, reflective-

"I admit it," said Mr. Tenney, as impersonally as he was able. "But that's no reason why I should set still an' see Alice make the same blunder." "Did pa's being forehanded influence rou any?" asked Mrs. Tenney.

Mr. Tenney perceived the narrowing circle of his wife's reasoning. "If you're going to be pers'nal--" he be-

"Did it, Amos?" persisted Mrs. Ten-"No. It didn't, an' you know it," an-

swered Mr. Tenney, stiffly. "You fell in love with me—just me—didn't you?" Mrs. Tenney knew it without assurance, but she waited anxiously for her husband's answer. "Ain't you getting kind o' mushy,

Ann?" he asked, mildly.
"It was that way, wa'n't it?" Mrs.

Tenney continued, robustly.

Mr. Tenney picked up the paper be had been reading when the co tion began. "I've always explained it

that way to myself," he replied. Mrs. Tenney got up and began to move about the room. "I guess I'll be stirring," she said. "We expect George to supper an' to spend the evenin'. He an' Alice are engaged, Amos, and I told 'em I guessed to-night was good's any to ask your consent."

There was a spluttering exclamation behind the paper. "What should you think we'd better give 'em-aliver or money?" Mrs. Ten-

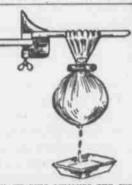

ney asked, considerately.
"Just which you think best, Ann,"

answered Mr. Tenney, watching his wife out of the room.

"It's all right," Mrs. Tenney contin ued to Alice in the kitchen; "he didn't begin to go on as your gran'ps did. When ma spoke to him about your pa an' me, it took the greatest part o' the evening to bring him round."-Youth's

#### AUTOMATIC STRAINING DEVICE.

task is well aware of the muscular ef-fort which is required to strain the cooked pulp of grapes, currants or other "None," replied the pale chap in the cooked pulp of grapes, currents or other truit to separate the juice for the making of jelly. After depositing the pulp in a strong cloth sack it becomes neces sary to treat the latter in about the same manner as the washwoman treats a sheet which she has just taken from

HEAVY BING REMOVES THE JUICE

the water to wring. The harder it can be squeezed the more juice will there be for making the jelly, and so no effort is spared to collect all that the pulp contains. Should the idea of a Western woman prove practical for this purpose, the above described meth od of treatment will no longer be re sorted to, as the new method is ob viously easier than the old. The wo man's intention is to suspend the cloth sack, filled with the pulp, from a rod clamped to the table, with a heavy iron ring around the neck of the sack. This ring by the sheer force of its weight gradually settles downward over the bag, compressing its contents as it falls and expressing the juice into a receptacle placed beneath for

the purpose.
